

Journal of Aviation Technology and Engineering

Executive Editor: Brent D. Bowen, Department of Aviation Technology, Purdue University

Senior Editor: Henry R. Lehrer, Department of Aviation Technology, Purdue University

Managing Editor: John H. Mott, Department of Aviation Technology, Purdue University

Associate Editors

Erin E. Bowen, Department of Technology Leadership & Innovation, Purdue University

C. Daniel Prather, Department of Aerospace, Middle Tennessee State University

Alan J. Stolzer, Department of Doctoral Studies, Embry-Riddle Aeronautical University

Editorial Board

Ruwantissa Abeyratne, International Civil Aviation Organization, Montreal, Canada
Evon Abu-taieh, Civil Aviation Regulatory Commission, Amman, Jordan
Richard O. Fanjoy, Purdue University
Frederick D. Hansen, Oklahoma State University
Dean E. Headley, Wichita State University
Igor V. Kabashkin, Transport and Telecommunications Institute, Riga, Latvia
Swami Karunamoorthy, Saint Louis University
Hatice Küçükönel, Ozyegin University, Istanbul, Turkey
Mike Lavelle, The Museum of Flight
Yanhua Li, Civil Aviation University of China, Tianjin, China
Jackie Luedtke, Embry-Riddle Aeronautical University
David A. NewMyer, Southern Illinois University
I. Richmond Nettey, Kent State University
William L. Rankin, The Boeing Company
Bijan Vasigh, Embry-Riddle Aeronautical University

Panel of Reviewers

Troy Allen, Indiana State University
Elizabeth Bjerke, University of North Dakota
Thomas Q. Carney, Purdue University
Paul Dion, Susquehanna University
Michael Dyrenfurth, Purdue University
Thomas K. Eismín, Purdue University
Rodney Fewings, Cranfield University, United Kingdom
Mel J. Futrell, Wright State University
Steven Hampton, Embry-Riddle Aeronautical University
Mary Johnson, Purdue University
Chien-tung Lu, Purdue University
Eric Molin, Delft University of Technology
Fejda Netjasov, University of Belgrade
Rob Niewohner, United States Naval Academy
Samuel Pavel, Southern Illinois University – Carbondale
José R. Ruiz, Southern Illinois University – Carbondale
David L. Stanley, Purdue University
Roger Wayson, U. S. Department of Transportation
Jinn-Tsai Wong, National Chiao Tung University, Taiwan
Bernard Wulle, Purdue University

The *Journal of Aviation Technology and Engineering (JATE)* is an open-access, refereed publication serving the needs of collegiate and industrial scholars and researchers in the multidisciplinary fields of aviation technology and engineering. A key focus of *JATE* is to promote the bridging of these fields by publishing scholarly articles related to the integration of theory and application in the Design/Build/Test process. This process will generally consist of various constituencies working toward a common goal of an end product which is properly designed through theory and made practical through application. Further information about the journal, article submission instructions, and free online access to all issues is available at: <http://www.jateonline.org>

JATE is published twice yearly by Purdue University Press with support from the James D. and Sherry Raisbeck Foundation and Purdue University College of Technology (Gary R. Bertoline, Dean). The journal is indexed in EBSCO, H. W. Wilson, OCLC, and ProQuest products and by TRID, the TRIS and ITRD database of the Transportation Research Board of the U.S. National Academies. The version-of-record is online only, ISSN 2159-6670, but print-on-demand copies are available for purchase from <http://www.jateonline.org>
