Improving Data Stewardship with the DMPTool: Helping Libraries Promote Data Management

Dan Phipps & Carly Strasser | daniel.phipps@ucop.edu | carly.strasser@ucop.edu

In brief: We received funds from the IMLS to build resources around the DMPTool for librarians. We want to equip librarians to provide data management services for their institution’s researchers and other stakeholders.

Project Goals:
• Centralize existing resources
• Provide outreach materials around the DMPTool
• Build a community of sharing ideas & resources

Why librarians?
• Long-standing tradition of service & preservation
• Opportunity to fill data education void, provide valuable research support

What is the DMPTool?
Free step-by-step web application for creating data management plans for funders.
