Established 1936 as a collaboration between INDOT and Purdue.

Now a $5.3M annual investment in around 270 Purdue University students, faculty, and staff.

Goal is to improve the efficiency of the Indiana transportation system and infrastructure.

1,500 technical reports produced, about 20 new ones a year. Road School attracts 2,500 annually.

The problem: How can JTRP best communicate its research to the taxpayers that fund it?
The problem: How can JTRP show that its funds are well-spent?

- JTRP has ca. 1,750 items available in Purdue e-Pubs (out of ca. 30,000)
- In the last year, JTRP materials have been downloaded over 225,500 times
- Since the inception of the collection, JTRP materials have been downloaded over 506,000 times
- Average number of downloads per month continues to increase by ca. 10% p/m
- JTRP materials are accessed from many countries worldwide, notably India, China, South Korea, Italy, and Belgium
The problem: How can JTRP get credit for all the work its researchers and staff do?
