Education and Culture:
The Journal of the John Dewey Society

The John Dewey Society for the Study of Education and Culture exists to keep alive Dewey's commitment to the use of reflective intelligence in the search for solutions to critical problems in education and culture. We subscribe to no one set of doctrines, but in the spirit of Dewey, we welcome controversy, respect dissent, and encourage the responsible discussion of issues of special concern to educators. We also promote open minded, critical reconsiderations of Dewey's influential ideas about democracy, education, and philosophy.

Education and Culture is published twice a year by the John Dewey Society. It aims to serve the needs of the scholars who take an integrated view of philosophical, historical, and sociological issues and problems in the field of educational studies. Members of the John Dewey Society receive Education and Culture as part of their membership dues.
