A SELECTED LIST OF PUBLICATIONS ON CHRISTMAS TREES
Compiled by E. J. Lott, State Extension Forester

Continued growth of the Christmas tree industry in Indiana and nationally has brought increasing requests for information on this subject. The following, which is by no means a complete list, will provide sources of such information which should prove useful to the Christmas tree grower as well as others interested in the industry. Single copies can usually be obtained by writing directly to the source as given although in some instances the publication may be available only through libraries.

No attempt has been made to list articles in periodicals or journals. A prime source of information for these is the American Christmas Tree Journal published quarterly by the National Christmas Tree Association, 225 East Michigan Street, Milwaukee, WI 53202.

ALABAMA

ARKANSAS

CALIFORNIA

COLORADO

Anon. Your Christmas Tree. Colorado State Forest Service, Colo. State Univ., Fort Collins 80521. (Leaflet designed as a handout for the retailer.)
