4 The ELibUkr project is a pilot project of the Donetsk Technical University’s Library Knowledge Center that is aimed at providing access to the world’s digital network of academic and research information through the creation of a comprehensive, national, and global information infrastructure.

4 The project is supported by the Information Society Foundation of America, the Merck Foundation, and supported by UNAMID and participating libraries. The main participants include:
1. Donetsk National University
2. South-Eastern National University
4. South-Eastern Power Engineering University
5. South-Eastern Aerospace University
6. South-Eastern Scientific University
7. South-Eastern Medical University
8. South-Eastern National Technical University
9. South-Eastern National University
10. South-Eastern Technical University

4 The project provides access to a large amount of academic and research information and is an opportunity for library users and researchers to share such publications with the world.

4 Participating in the Library Information & E-Governance Fair (April 2011)

4 New opportunities for DonNTU Library through participation in the ELibUkr project

Electronic archive of Donetsk National Technical University
http://ea.donnu.edu.ua

- Creating a digital image, ensuring its viability, and storage of images
- What will be done?
  - Archiving (scanning, DEDS, DEDS-DOC)
  - Digitizing the archives in accordance with the UNARC standardization of the GOAL system (EDRU - Entity - Document - Image)
- Legal regulations on the EA will be considered by the Faculty Academic Council
- Archival management of the EA is within the responsibility of the ELibUkr project
- Legal documents are available on the Electronic archive of Donetsk National Technical University

- The need to print for the sake of permanent storage of archives DonNTU
