Instant relief for back issue problems.

Alfred Jaeger, Inc., your one source for back volumes in all subject disciplines.

Our comprehensive inventory is sure to include the exact material you need from all over the world. That's why we've been a primary source for libraries for almost 40 years. Simply send us your list of requirements and we'll respond promptly. Come visit our homepage at the address www.ajaeger.com. By the way, we'll also be glad to purchase your duplicate copies.

So for instant relief of back issue problems, Jaeger is the prescription. Contact us today. Write or call Toll Free 1-800-969-JAGR.

New Reference Sources From Academic Press

APNet is the on-line home of Academic Press. Loads of information about the company, new and upcoming titles, catalog information, listings of upcoming meetings, plus IDEAL and InSight are all available in an accessible and easy-to-search format. APNet is located at www.apnet.com/

Thermal Characterization of Polymeric Materials
SECOND EDITION
EDITED BY
Edith A. Turi
Polytechnic University,
Brooklyn, New York

Praise for the First Edition
"It is a comprehensive, authoritative treatise of the subject, recommended for academic and industrial libraries as well as for the desk of individuals involved in thermal analysis, or in the research, production and application of polymeric materials."
—JOURNAL OF POLYMER SCIENCE

The Second Edition of Thermal Characterization of Polymeric Materials, edited by Edith A. Turi, continues the tradition of the widely acclaimed original work. It provides an in-depth overview of thermal analysis by focusing on instrumentation and a wide array of applications in research, development, production, quality control and technical service. Readers will benefit greatly from the well-coordinated and clearly written chapters, which are replete with practical examples. Chapters are written by world-renowned authors and include important, previously unpublished experimental data. Fully revised and updated, this Second Edition has grown from 960 to approximately 2500 pages, reflecting the explosive development of the field during the past fifteen years. This comprehensive two-volume set is an invaluable reference source for chemists, engineers, physicists, and other professionals involved in research, development, production, applications, characterization, and evaluation of polymers.

Database of Palladium Chemistry
Reactions, Catalytic Cycles, and Chemical Parameters
CD-ROM Version 1.0
Jean-Luc Malleron
and Alain Juin
Rhône-Poulenc Rorer, France

This searchable database on CD-ROM contains 3500 reactions, 85 types of mechanisms, the chemical parameters related to them classification of all the reactions according to the mechanism, i.e. the catalytic cycle. Searching is possible from the point of view of the reagents, the reaction products, or the underlying mechanism. For each type of mechanism, the search can be done by author name, periodic structure, substructure, solvent, or catalyst ligand.

With approximately 500-700 reactions added each year, the CD-ROM will be a source of inspiration to synthetic chemists, helping them choose the best mechanism for the reaction they want to achieve.

KEY FEATURES
- Contains 3500 reactions, 85 types of mechanisms, as well as the chemical parameters related to them
- Includes approximately 500-700 new reactions added each year
- Presents all the information scattered in years of literature in a single, easily searchable tool
- Search by reagents, the reaction products, or the underlying mechanism
- Within each mechanism, search by author name, periodic structure, substructure, solvent, or catalyst ligand

SYSTEM REQUIREMENTS: An IBM PC or compatible with 80486 or higher microprocessor (Pentium recommended), 8MB of RAM (16MB recommended), VGA monitor (with 256 colors), 20MB of hard disk space (if installing to hard drive only). MS-DOS® operating system version 3.0 or later. Microsoft Windows® operating system version 3.1 or later. Microsoft Mouse or compatible pointing device. CD-ROM drive with MSCDEX 2.0 or higher.

CD-ROM: $295.00
Mar 1997/ISBN 0-12-8467900

McGraw-Hill Encyclopedia
of Science & Technology, 8th Edition

Visit us at ACRL in Nashville Booth #309

Some
Scientific Achievements
Speak Volumes

In every library there should be a first place researchers, students, teachers, and librarians turn to find information on any scientific or technical subject. A place where the inspiration for starting a research project, the supporting evidence for a paper, or the authoritative answer to an intriguing question can always be found.

More than ever, the new Eighth Edition of the McGraw-Hill Encyclopedia of Science & Technology is that place ...

• 1,600 new or totally revised articles
• 1,750 new or enhanced illustrations
• New contributors, including four recent Nobel Prize winners
• Completely revised and updated bibliographies in each volume
• NEW! An Activities Guide to help teachers and librarians encourage students in scientific exploration

No library should be without the McGraw-Hill Encyclopedia of Science & Technology, Eighth Edition—the first science reference that's a scientific achievement in its own right.

Learn more about the 8th Edition at
www.mhreference.com

Sometimes things just belong together. Like birds and bees.

**Like DIALOG@CARL.**

For the **first** time, any user can search the wealth of DIALOG databases in near record time.

It is an easy-to-navigate, web-based interface developed by and available **exclusively from CARL.** Now searching information-rich DIALOG databases is point-and-click easy — a direct flight to **limitless information access.**

And speaking of easy access, one agreement with CARL connects your library to DIALOG databases which are simply not available anywhere else. With our **predictable annual pricing** offered on a per connect, flat annual fee basis, your library can deliver unlimited use of DIALOG@CARL, with no connect or per search fees.

So do the natural thing, give us a **buzz** or visit us online at dialog.carl.org.

Electronic journals
now you can streamline ordering and access!

Growing numbers of electronic journals bring with them new challenges for library managers and end users.

SwetsNet is a major new service, providing a single source for accessing a broad range of publishers' electronic titles.

SwetsNet offers:

* browsing of contents of specific journal issues
* full searching across all titles in SwetsNet or those subscribed to by your library

* searching of tables of contents and abstracts
* regular management information
* full information and support services
* simplified password administration
* SwetsNet is accessible via the WWW

For further information and trial access, contact Brian Noone at 800-447-9387
Access AIP Journals Online in 1997

In 1997, subscribers to any AIP print journal will enjoy free access to a full-text electronic version on the World Wide Web.

The journals will be online 24 hours a day, seven days a week, with most titles available more than three weeks before their print versions. Adobe Acrobat® software will be used to view the journals as PDF files.

Available journals include:

- **AIP journals**
  - Applied Physics Letters
  - Chaos
  - Journal of Applied Physics
  - The Journal of Chemical Physics
  - Journal of Mathematical Physics
  - Physics of Plasmas
  - Physics of Fluids
  - Review of Scientific Instruments

- **AIP translation journals**
  - JETP Letters
  - Journal of Experimental and Theoretical Physics
  - Low Temperature Physics
  - Physics of Particles and Nuclei
  - Physics of the Solid State
  - Semiconductors
  - Technical Physics
  - Technical Physics Letters

For complete sign-up and service information visit AIP on the Web: www.aip.org

ARTICLES IN PHYSICS

**ARTICLES IN PHYSICS** gives you immediate access to more than 30,000 scientific and technical publications — including those published by:

- **The American Physical Society**
- **American Astronomical Society**
- **Materials Research Society**
- **Optical Society of America**
- **American Institute of Physics**
- **Institute of Physics Publishing, UK**
- **American Association of Physics Teachers**
- **American Vacuum Society**
- **Les Editions de Physique**
- **Acoustical Society of America**
- **American Association of Physicists in Medicine**
- **American Crystallographic Association**
- **Astronomical Society of the Pacific**
- **Institute of Noise Control Engineering**
- **International Centre for Diffraction Data**
- **The Society of Rheology**

*Articles in Physics* is also an excellent source for material in disciplines other than the physical sciences. Researchers and librarians around the world can obtain articles rapidly via mail, fax, ARIEL, or the Internet. Turnaround time for in-house titles is 24 hours.

**CALL TOLL-FREE 800-480-PHYS**

Articles in Physics • 75 Varick Street • New York, NY 10013

<http://www.against-the-grain.com>
A powerful, convenient Windows™ based subscription, ASCE Journals on CD ROM allows you to rapidly and accurately search ASCE journals for all the information pertinent to your civil engineering research needs. And with ASCE Journals on CD ROM, you choose what you want to subscribe to.

Search all the journals you choose to subscribe to, or just one journal, one issue, or one article. With ASCE Journals on CD ROM, choose what journals or practice periodicals you need and receive the same top information and research as in the print issues. Our CD ROM subscriptions provide the same material as the print subscriptions. And with ASCE Journals on CD ROM, all the subscriptions you choose are provided on one small, compact, space-saving disc. Each quarterly disc is a year-to-date cumulation of issues, ending with the entire subscription year. So, no matter when you subscribe during the year, you never miss an issue.

Dynamic Versatility...Comprehensive Searches...Easy-to-Use

- SGML coded
- Full contents, full text
- Review an article outline to quickly select key sections
- Use the special book mark feature to tag important articles, sections of text, or illustrations
- Execute precise word searches with confidence and ease
- Enlarge charts and tables to view in detail
- Browse an alphabetical index of all words and terms used within all issues

"ASCE Journals on CD ROM has many attractive features. It has a robust and flexible search engine, an easy-to-use interface, and quick access navigation tools. Few titles designed for the Windows environment permit changing the font size or the type face. This one does—a welcome feature for aging eyes. Readers can also zoom the images from 50% to 200% magnification."

Against the Grain

1997 ASCE Journals and Practice Periodicals: Aerospace Engineering • Architectural Engineering • Bridge Engineering • Cold Regions Engineering • Computing in Civil Engineering • Construction Engineering and Management • Energy Engineering • Engineering Mechanics • Environmental Engineering • Geotechnical and Geoenvironmental Engineering • Hydraulic Engineering • Hydrologic Engineering • Infrastructure Systems • Irrigation and Drainage Engineering • Management in Engineering • Materials in Civil Engineering • Performance of Constructed Facilities • Professional Issues in Engineering Education and Practice • Structural Engineering • Surveying Engineering • Transportation Engineering • Urban Planning and Development • Water Resources Planning and Management • Waterway, Port, Coastal, and Ocean Engineering • Practice Periodicals on Structural Design and Construction

ASCE Journals on CD ROM were developed by Reed Technology and Information Services, Inc. with advanced OPTI-Ware software technology.

What Affects the Barotropic Stability of a Hurricane’s Vortex?

Answer:

Dawson, Inc. announces Information Quest — a new Web-based information access and retrieval service that supports the most simple to sophisticated queries. This easy-to-use research tool delivers one-stop electronic access to the world of scientific, technical, medical and business journals conveniently at your desktop.

Information Quest provides enhanced indexing and searching capabilities through a powerful search engine. Timely notifications alerting you of article availability based on your specific search criteria. Effective solutions for expanding your serials collection beyond your core titles. Plus, the future ability to implement on-line subscription ordering and integration with OPACs.

To learn how Information Quest can help you answer those difficult and unique questions, call Information Quest at 1-800-422-3223 or visit our Web site at www.informationquest.com.
new electronic journals from The MIT Press

Journal of Contemporary Neurology
Edited by Keith H. Chiappa, M.D., Massachusetts General Hospital, Harvard University

Journal of Contemporary Neurology, the first fully electronic, peer-reviewed journal in neurology, has a broad scope encompassing both clinical and basic science topics of human neurology, neuroscience and related fields, and studies of other species that relate to the human nervous system. Published article by article. Volume 1 forthcoming. 1997 Rates: $75 Individual; $200 Institution.

Studies in Nonlinear Dynamics and Econometrics
Edited by Bruce Mizrach, Rutgers University

The MIT Press and the Society for Nonlinear Dynamics and Econometrics are pleased to announce Studies in Nonlinear Dynamics and Econometrics (SNDE), a new electronic journal in the field of nonlinear analysis. The journal is a peer-reviewed and fully copyrighted periodical hosted entirely on the Internet. SNDE is formed in recognition that advances in statistics and dynamical systems theory may increase our understanding of economic and financial markets. Published quarterly in April, July, October and January. Volume 2 forthcoming. 1997 Rates: $40 Individual; $130 Institution.

Videre: A Journal of Computer Vision Research
Edited by Chris M. Brown, University of Rochester; Giulio Sandini, University of Genova; Michael J. Swain, The University of Chicago

The MIT Press is pleased to announce the launch of Videre, a new refereed, archival Internet journal of computer vision. The editors are seeking high quality original papers covering all areas of computer vision that are not under consideration for another journal. The on-line format allows the submission, distribution and archiving of several forms of contribution that are not possible in printed form, such as reference image data, image sequences, interactive (Java) demonstrations, source code, and questions for authors. Published quarterly in spring, summer, fall and winter. Volume 1 forthcoming. 1997 Rates: $30 Individual; $125 Institution.

The solution to your need for research information in the engineering sciences

APPLIED MECHANICS REVIEWS

Each monthly issue of AMR contains approximately 1,400 article abstracts in mechanics and related fields from 450 research journals worldwide. All abstracts are arranged by a comprehensive subject classification scheme with extensive cross-indexing. AMR editors select acclaimed experts to contribute book reviews — about 20 per issue. A separate annual index is included in your subscription.

YOUR SUBSCRIPTION TO AMR PROVIDES . . .

- **In-depth Review Articles** — authored by leading researchers, refereed by AMR's prestigious Board of Associate Editors.
- **Abstracts** — 1,400 subject-classified abstracts from some 450 international journals, selected by technical editors actively involved in research.
- **Book Reviews** — experts in the field critically evaluate selected books. Other books and conference proceedings are described.
- **Cumulative Author and Subject Indices** — are provided in the Annual indices which includes all co-authors, and up to four subject entries per article for the entire year. Plus . . . an indispensable alphabetical keyword index.

The ideal companion to your AMR subscription and dynamic electronic research tool

AMR INFOBASE OF JOURNAL LITERATURE ON CD-ROM

Containing almost 100,000 citations from AMR's journal literature section, which draws from some 450 international journals, the NEW AMR CD-ROM is the ultimate tool for accessing engineering literature. The eight years of engineering literature (1989-1996) contained on the AMR CD is easily searchable using convenient, pull-down menus or Boolean commands for quick searches. (Windows format)

Physicians GenRx: Redefining What a Drug Reference Can Be.

Physicians GenRx gives you more comprehensive, more in-depth, more objective drug information than any other single resource. Mosby's complete drug reference is the one place to look for...

- Unbiased coverage of virtually every FDA-approved brand name and generic — 45,000 in all
- FDA full prescribing data
- FDA equivalency ratings for generic substitution
- Comparative AWP prices...benchmark costs of therapy...HCFA "upper limits"...hospital DRG costs
- Full-color product ID photo section
- 10,000 international brand names
- Detailed profiles of 800 pharmaceutical suppliers

- Single Keyword Index with over 30,000 entries
- New drugs and pricing — updated in 2 FREE supplements

PLUS...

Unlabeled uses...investigational uses...patient information...formulary coverage...CDC dosage recommendations...ICD-9 codes...NDC numbers...patent expiration dates...withdrawn drugs...and much more!

"I think that the Blackwell's electronic journals project will fundamentally change the world of publishing, libraries and scholarship."

George Lupone, Deputy Director,
Cleveland State University Library

electronic journal NAVIGATOR

to join the future

SEAMLESS AND INTEGRATED ACCESS TO THE WORLD OF ELECTRONIC JOURNALS

At Blackwell's we recognise the significant and growing importance of electronic information. That's why we are proud to bring you Blackwell's Electronic Journal Navigator, a single point of access, reference, control and financial management for all of your electronic journal subscriptions. The service is accessible over the Internet using a Worldwide Web browser. We have a global network of servers that provide you with instantaneous access to the full text and abstracts of peer reviewed, scholarly, electronic journal articles, regardless of their physical format, location or publisher.

Libraries subscribing to electronic journals benefit from simplified password and access management; standard and customised journal usage analysis and management reports; assistance with electronic archiving and electronic document delivery.

Library users benefit from a single access and authentication point for all electronic journals; a single search interface and extensive browsing functionality; alerting services and delivery of full text electronic articles direct to their PC.

Elect to join the future, with Blackwell's.

Hard-to-Obtain Books?
MIDWEST
LIBRARY SERVICE
Won't Take "NO"
For An Answer

We do not accept publishers' OP, NOP, and TOS reports without further research to determine their validity. Our research specialists are dedicated to locating hard-to-obtain titles. Their efforts consist of:

1. Verification of customer's information in BIP, Forthcoming Books, OP-OSI, CBI, etc.
2. Telephone confirmation from the publisher when there is evidence of availability.
3. Query the library when order information is in doubt.
4. Searching the market for out-of-print titles.
5. Checking for titles available in the U.K. which are often declared out-of-print in the U.S. Obtaining these books is part of our goal of "maximum fulfillment."

By diligent research we are able to locate many book orders that would otherwise be lost due to publishers' bad reports, inadequate research, or database dead-ends. Our researchers take over the hunt for titles where computers leave off. We will not cancel an order until we determine that a book is truly unavailable.
