BLACKWELL’S

Collection Manager

The next level of Approval Plan management now includes breakthrough “why” technology!

Collection Manager provides immediate, web-based access to your approval profile and matching titles. Now you can easily determine why a specific approval action was taken for each title.

A new concept in approval management!

SwetsNet

Electronic journals
now you can streamline ordering and access!

Growing numbers of electronic journals
bring with them new challenges for library
managers and end users.

SwetsNet is a major new service, providing
a single source for accessing a broad range
of publishers' electronic titles.

SwetsNet offers:

• browsing of contents of specific
  journal issues

• full searching across all titles in
  SwetsNet or those subscribed
to by your library

• searching of tables of contents
  and abstracts

• regular management information

• full information and support services

• simplified password administration

• SwetsNet is accessible via the WWW

For further information and trial access,
contact Brian Noone at 800-447-9387

Presenting an in-depth study of all aspects of organic conductive materials from John Wiley and Sons...

**HANDBOOK OF ORGANIC CONDUCTIVE MOLECULES AND POLYMERS**

Edited by Hari Singh Nalwa, Hitachi Research Laboratory, Hitachi Ltd., Ibaraki, Japan

"A remarkable effort...the scope and detail offer something of importance to all readers..."— Alan Heeger, Prof. of Physics & Materials Engineering, University of California, Santa Barbara

Organic materials, capable of conducting electricity, have numerous applications in telecommunications, electronics, materials science, chemistry and physics. Written by international experts in the field, this handbook brings together, in four self-contained volumes, all aspects of conductive and superconductive polymers and organic molecules including chemical and physical properties, synthesis, technology, applications, history, and current research.

As this area continues to evolve, its research touches upon many related disciplines with the results often spread throughout the scientific literature. Drawing on over two decades of pioneering research, the **Handbook** answers the needs of the scientific community by providing the first multidisciplinary single source containing all relevant information on conductive organic molecules and polymers. While each of the four volumes stands alone, together the set represents an invaluable resource for students and scientists in polymer science, chemistry, solid-state physics, materials science, biology, electronics, and photonics.

**Special Features**
- The most current and comprehensive information on organic conductive materials
- 13,300 + bibliographic citations
- Fully cross-referenced articles to facilitate information searches for particular topics
- Thousands of illustrations, photographs, tables, chemical structures, and equations

**4-Volume Set:**

We're CARL.
Get to know us.

CARL is the company that thousands of libraries and millions of people call their partner. Some people know us for the CARL System integrated library management solution.

Some people know us for Readers' Advisory products.

We're also the company that delivers imaginative GUI products.

And now people are getting to know CARL as the leading provider of landmark databases.

No matter how you know us, we're the partner libraries count on for innovative technology solutions all delivered with a decidedly human touch. We're CARL. Your partner for progress. Call us.

Access
AIP Journals
Online in 1997

In 1997, subscribers to any AIP print journal will enjoy free access to a full-text electronic version on the World Wide Web.

The journals will be online 24 hours a day, seven days a week, with most titles available more than three weeks before their print versions. Adobe Acrobat® software will be used to view the journals as PDF files.

Available journals include:

♦ AIP journals
  Applied Physics Letters
  Chaos
  Journal of Applied Physics
  The Journal of Chemical Physics
  Journal of Mathematical Physics
  Physics of Plasmas
  Physics of Fluids
  Review of Scientific Instruments

♦ AIP translation journals
  JETP Letters
  Journal of Experimental and Theoretical Physics
  Low Temperature Physics
  Physics of Particles and Nuclei
  Physics of the Solid State
  Semiconductors
  Technical Physics
  Technical Physics Letters

For complete sign-up and service information visit AIP on the Web: www.aip.org

ARTICLES IN PHYSICS
A DOCUMENT DELIVERY SERVICE FROM THE AMERICAN INSTITUTE OF PHYSICS

ARTICLES IN PHYSICS gives you immediate access to more than 30,000 scientific and technical publications — including those published by:

♦ The American Physical Society
♦ American Astronomical Society
♦ Materials Research Society
♦ Optical Society of America
♦ American Institute of Physics
♦ Institute of Physics Publishing, UK
♦ American Association of Physics Teachers
♦ American Vacuum Society
♦ Les Editions de Physique
♦ Acoustical Society of America
♦ American Association of Physicists in Medicine
♦ American Crystallographic Association
♦ Astronomical Society of the Pacific
♦ Institute of Noise Control Engineering
♦ International Centre for Diffraction Data
♦ The Society of Rheology

Articles In Physics is also an excellent source for material in disciplines other than the physical sciences. Researchers and librarians around the world can obtain articles rapidly via mail, fax, ARIEL, or the Internet. Turnaround time for in-house titles is 24 hours.

Comprehensive Biological Catalysis
A Mechanistic Reference
Edited by Michael Sinnott

http://www.apnet.com/catalyst/
Comprehensive Biological Catalysis: A Mechanistic Reference is a multi-volume work that provides a comprehensive series of enzyme catalysis from a chemical perspective, including a thorough coverage of background chemistry.

The first volume concentrates on reactions of electrophilic carbon, phosphorus, and sulfur, and Volume Two provides reactions of nucleophile/carbonoid carbon. Volume Three highlights radical reactions and oxidation/reduction. The final volume, or the "chemical lexicon," consists of clear explanations of alphabetically arranged, specialized terms and concepts.

KEY FEATURES
- Offers the first comprehensive treatment of chemical catalysis from a chemical viewpoint—enzyme reactions are listed by chemical type, rather than biological process catalysed
- Carefully selected authors
- Rigorous reviewing and editing resulting in coherent, fluid, non-overlapping text
- Features excellent indexing
- Provides clear explanations of chemical concepts in "chemical lexicon"

Four-Volume Set
Prepublication Prices: $775.00* (tentative) September 1997, c. 1200 pp., $899.00 (tentative)
ISBN: 0-12-446860-5
*Prepublication prices expire on December 31, 1997.

electronic journal NAVIGATOR
to join the future
SEAMLESS AND INTEGRATED ACCESS TO THE WORLD OF ELECTRONIC JOURNALS

"I think that the Blackwell's electronic journals project will fundamentally change the world of publishing, libraries and scholarship."
George Lupone, Deputy Director, Cleveland State University Library

At Blackwell's we recognise the significant and growing importance of electronic information. That's why we are proud to bring you Blackwell's Electronic Journal Navigator, a single point of access, reference, control and financial management for all of your electronic journal subscriptions. The service is accessible over the Internet using a World Wide Web browser. We have a global network of servers that provide you with instantaneous access to the full text and abstracts of peer reviewed, scholarly, electronic journal articles, regardless of their physical format, location or publisher.

Libraries subscribing to electronic journals benefit from simplified password and access management; standard and customised journal usage analysis and management reports; assistance with electronic archiving and electronic document delivery.

Library users benefit from a single access and authentication point for all electronic journals; a single search interface and extensive browsing functionality; alerting services and delivery of full text electronic articles direct to their PC.

Elect to join the future, with Blackwell's.

June 1997 / Against the Grain
“We created TIPS® as an efficient way to manage collection development activities.”

Lauren K. Lee, M.L.S.
Manager, Collection Development Services
Brodart Co.

“TIPS helps organize my selections, offers timely information, and is a concise avenue for ordering.”

Casey McPhiee, M.L.S.
Collection Development Coordinator
Pasco County Library System,
New Port Richey, Florida

Make your new title selection process easier and more productive with Brodart's TIPS (Title Information Preview Service). Through fifty years of serving the library community, we've learned that saving time is crucial for our library partners.

TIPS:

- consolidates your new title selection activities into one easy process
- gives you the information you need to make the best choices for your specific collection
- eliminates time-consuming searching and keying

Your TIPS selection lists of new and forthcoming titles are designed using your own criteria and can be based on review journals, publishers, series, authors and subjects. TIPS Plus offers full text reviews in several print and electronic formats from:

- Booklist
- Kirkus
- Publishers Weekly
- Choice
- Library Journal
- School Library Journal

Our experience tells us that you'd rather spend your time selecting titles than searching for them. Combine the experience of Brodart with the expertise of your professional staff. Together, we can construct a plan that will bring your collection development efforts to sure success.

The MIT Press is pleased to announce the Journal of Industrial Ecology: a new, international, peer-reviewed quarterly designed to foster both understanding and practice in this emerging field. Interdisciplinary in its approach, the journal will provide a unique forum for the continuing exchange of information and opinions between environmental scholars, scientists, policymakers, and managers.

Premiering in Spring 1997, Journal of Industrial Ecology will delve into both the theory and the practice of industrial ecology, highlighting policy and strategic implications while at the same time describing programs and practices that spring from industrial ecological principles.

1997 Subscription Rates
$40 individual;
$95 institution;
$30 student/senior.
Outside U.S.A. add $18 postage and handling. Canadians add additional 7% GST.

NOW AVAILABLE

SOME SCIENTIFIC ACHIEVEMENTS SPEAK VOLUMES

In every library there should be a first place researchers, students, teachers, and librarians turn to find information on any scientific or technical subject. A place where the inspiration for starting a research project, the supporting evidence for a paper, or the authoritative answer to an intriguing question can always be found.

More than ever, the new Eighth Edition of the McGraw-Hill Encyclopedia of Science & Technology is that place...

- 1,600 new or totally revised articles
- 1,750 new or enhanced illustrations
- New contributors, including four recent Nobel Prize winners
- Completely revised and updated bibliographies in each volume
- NEW! An Activities Guide to help teachers and librarians encourage students in scientific exploration

No library should be without the McGraw-Hill Encyclopedia of Science & Technology, Eighth Edition—the first science reference that's a scientific achievement in its own right.

New Titles from Bernan Press

**FOCUS ON LABOR**

**RESEARCHING TODAY'S COMPELLING LABOR ISSUES**

---

**HANDBOOK OF U.S. LABOR STATISTICS:**
*Employment, Earnings, Prices, Productivity, and Other Labor Data*
**FIRST EDITION**

Eva E. Jacobs, Editor

Based on the *Handbook of Labor Statistics*, formerly published by the Bureau of Labor Statistics, this comprehensive research tool presents historical data on labor market trends. Tabulations prepared especially for this volume provide information on topics such as: working mothers by age of children; median income by family type; and employment status by educational attainment. Also, a special feature in this edition is the recently released Bureau of Labor Statistics Projections of Employment by Industry and Occupation, 1994-2005.

Standing Order No. 077.43472

"...an invaluable, authoritative source of time series for labor data that belongs in all business and social science reference collections."

— Michael Oppenheim
Government Information Services Librarian
John F. Kennedy Memorial Library
California State University, Los Angeles

---

**NORTH AMERICAN LABOR MARKETS:**
*A Comparative Profile*

Commission for Labor Cooperation

North American Labor Markets: *A Comparative Profile* is the first in-depth study from the international Secretariat established under the North American Agreement on Labor Cooperation (the "labour side" of the NAFTA agreement). This clearly presented reference takes an in-depth look at the labor markets of North America and makes insightful comparisons on regional, country-by-country, and global levels.

Arranged in an attractive, easy-to-read format, this title contains authoritative information that highlights the similarities and differences among Canada, Mexico, and the United States.

North American Labor Markets: *A Comparative Profile* presents an intriguing analysis, essential for anyone conducting NAFTA-related labor research.

Standing Order No. 077.64094
French and Spanish Editions also available

"This will be a unique resource for the community of scholars and policy analysts which is growing up around the economic community that NAFTA has created."

— Michael J. Piore
David W. Striner Professor of Political Economy
Massachusetts Institute of Technology, United States

---

About Eva E. Jacobs
Recognized as an authority on prices, consumer spending, and labor markets, Eva Jacobs served as the Chief of Consumer Expenditure Surveys at the Bureau of Labor Statistics for 21 years. Ms. Jacobs has also worked with the U.S. Department of Agriculture and with the Office of Personnel Management, where she is an advisor to a committee which is recommending a methodology to determine certain federal employee cost of living adjustments.

---

About The Commission for Labor Cooperation
The Commission for Labor Cooperation was established under the North American Agreement on Labor Cooperation (the "labour side" of the NAFTA agreement).

MIDWEST LIBRARY SERVICE
from Gutenberg to McLuhan,
Galileo to galaxies—
We cover a universe of books.

PROMPTLY
From major new titles to the obscure "black hole,"
we waste no time.

ACCURATELY
From invoices to status reports, we get it right.

COMPLETELY
From first shipment to completion,
we offer maximum fulfillment.

COMPETITIVELY
From trade discounts to short, we give you your money's worth.

These four pillars form the foundation of Midwest's many years of service
to libraries. Depend on us as your source for U.S. and Canadian books.
Save valuable time, effort, and expense by relying on our:
- Expertise in automation services
- Exacting customer service
- Commitment to excellence
- Goal of maximum fulfillment
