Wondering where to buy electronic titles?
Acquisitions becoming complicated?
Looking for a solution?

A single source for your electronic serials titles can take a considerable weight off your mind.
Whether CD ROMs, Internet access to databases or full text electronic journals, we offer a complete one-stop shopping service for electronic and print subscriptions:
• full technical and customer service support
  • catalogues
• product information
  • trials and demos
• fully inclusive invoicing or separate charging for your electronic titles
• the resources and expertise of one of the world's leading library suppliers

Swets electronic media services – the obvious choice.

Swets Subscription Service  440 Creamery Way, Suite A • Exton, PA 19341 • Tel: 800-447-9387 • Fax: 610-524-5366

If it's not Bowker's, It's not Books in Print PLUS™

The only product with over 270,000 full-text reviews from 12 sources, including Publisher's Weekly, Booklist, Kirkus, and Library Journal makes it easier and faster for you and your patrons to find the additional titles that fill your needs. Reviews on new or forthcoming titles, like this one, give you valuable preview information.

Books in Print PLUS creates electronic order files for 28 different vendors, making your ordering process more efficient than ever before. It also creates purchase orders and special orders!

Complete publisher contact, SAN Number, and discount information at the touch of a keystroke saves you time and money.

Nine different display and output formats provide the flexibility and power you need, whether used in libraries by reference, technical services or patrons, or in bookstores to maximize your selling opportunities and compete effectively.

Call 1-800-323-3288 for more Information on our full line of Books in Print products on CD-ROM. Check out Books Out-of-Print Internet Edition FREE on our web site:

The definitive A–Z of Inorganic Chemistry ...meets the speed and versatility of CD-ROM

Announcing...

THE ENCYCLOPEDIA OF INORGANIC CHEMISTRY
ON CD-ROM

The Encyclopedia of Inorganic Chemistry is a milestone in scientific publishing. Now offered in a choice of CD-ROM format or an eight volume print edition, it has become the essential reference source for all academic and industrial libraries.

Featuring 260 articles, 850 definitions, 365 cross references, 2188 figures, 1104 schematics, 1943 structures, 8010 equations, and 892 tables, the Encyclopedia of Inorganic Chemistry encompasses the whole of modern inorganic chemistry, from Acintides to Zwitterions. under six areas:

- Bioinorganic chemistry
- Main group elements
- Organometallic compounds
- Physical and theoretical methods
- Solid state chemistry
- Transition metals

The state-of-the-art CD technology features a comprehensive search function, including Boolean operators, a user-friendly interface with context sensitive on-line help, and viewing options which allow up to 170% magnification of photographs, figures and formulas.

Encyclopedia of Inorganic Chemistry CD-ROM
ISBN 0-471-96798-X $2,400

Encyclopedia of Inorganic Chemistry 8-Volume Print Edition
ISBN 0-471-90620-0 $2,400

Encyclopedia of Inorganic Chemistry CD-ROM and 8-Volume Print Edition Set
ISBN 0-471-97107-3 $3,600
(If you have already purchased the Print Edition, the CD-ROM is available for $1200... still a $1200 saving!!!)

MINIMUM SYSTEM REQUIREMENTS:
IBM/386, 4MB RAM, Windows 3.1, VGA monitor
Macintosh II, 4MB RAM, System 7.

Available through your vendor.

<http://www.against-the-grain.com>
Surf's up! Hundreds of librarians have sighted GOBI and have made surprising discoveries. It's easy. It's free. Some say it's even fun.

Discoveries reported by GOBI observers:

- Immediate access to 1.5 million titles in US/UK database
- Sophisticated searches with Boolean keyword options
- Online real time searches, orders, and reports
- Online duplication control
- Screen-sensitive Help
- Hassle-free, customized reports

To sight GOBI,

Viewings are no cost, no obligation.

Sightings (with all the surprising discoveries) are free. Call or e-mail customer service for access. Register and begin using this rapidly developing online system by sending e-mail to service@ybp.com.
Now literary scholars, researchers and students can explore and analyze the published works and selected manuscripts of major literary figures using sophisticated CD-ROM search and access capabilities.

With point-and-click ease, you can perform complex searches of the material and even compare multiple texts at once. Full-text searchability, extensive cross-referencing and hyperlinks support broad and creative investigation into thematic strands, characterizations, word usage and more. Features like the Bookmark and Revisit functions make it easy for researchers to keep their queries organized and accessible across multiple sessions.

To introduce the series, we're offering a 35% pre-publication discount through December 31, 1996. Call today for more information, including title lists.

**Major Authors on CD-ROM: Virginia Woolf**
*editied by Mark Hussey, Professor of English, Pace University*

Includes all of Woolf's published works, including variant and hard-to-find editions; more than 12,000 manuscript images; the complete text of *Virginia Woolf A to Z*; and an archival BBC recording of Woolf's talk, "Craftsmanship."

Reg. $1,995
Pre-Publication Price $1,495  Save 35%

Also available in a Student Edition, with content specially selected for undergraduate research.

Reg. $995
Pre-Publication Price $745  Save 35%

**Major Authors on CD-ROM: Samuel Johnson and James Boswell**
*editied by Leonold Dauvois, Chairman, English Department, Harvard University*

Includes all the volumes published in the Yale Johnson series; rare, hard-to-find editions from the British Library; L.F. Powell's six-volume *Life of Johnson*; a gallery of images portraying Johnson, Boswell and their contemporaries; and a comprehensive index.

Reg. $2,995
Pre-Publication Price $2,245  Save 35%

Purchase either title and receive 5 FREE Circulation Copies of the CD-ROM for your faculty!
“Outsourcing with Brodart will enable your staff to take on additional assignments and to implement technical innovations.”

Michael Wilder
Custom Cataloging Services Manager,
Compleat Book-Serv, Brodart Co.

For more than ten years, Brodart’s Compleat Book-Serv has been providing libraries with outstanding technical services. From book-in-hand cataloging to custom processing, we provide shelf-ready books when you need them. Our extensive resources will help you manage your library’s expansion project, your new opening day materials collection or eliminate backlogs.

Take a look at the advantages of outsourcing with Compleat Book-Serv:

- material in-hand cataloging
- full MARC records with customized classifications
- customized holding records
- customized physical processing
- shelf-ready books drop shipped to branches
- management reports

Brodart’s Compleat Book-Serv is convenient and totally flexible. A project team will be assigned to work with your library in developing specifications. We’re so easy to work with that you will begin to think of us as an extension of your own technical services department.

If your technical services backlog is becoming unmanageable, let Brodart’s Compleat Book-Serv put your books on the shelves quickly and efficiently.
Database of Palladium Chemistry

RECTIONS, CATALYTIC CYCLES, AND CHEMICAL PARAMETERS
CD-ROM VERSION 1.0.

Jean-Luc Malleron and Alain Juin
Rhône-Poulenc Rorer, France

An Essential Tool for Chemists

AUTHOR BIOGRAPHIES

Jean-Luc Malleron received his graduate degree from the school of chemistry at Montpellier and then went on to obtain his Ph.D. at the Université Paris Sud. Malleron has been Senior Research Fellow in medicinal chemistry at Rhône-Poulenc Rorer Company since 1981.

Alain Juin is a research scientist at Rhône-Poulenc Rorer Company.

Database of Palladium Chemistry: Reactions, Catalytic Cycles, and Chemical Parameters, CD-ROM Version 1.0, contains 3500 reactions, 85 types of mechanisms, as well as the chemical parameters related to them. The authors have not only collected the data and put it in a searchable format—they have also classified all the reactions according to the mechanism, i.e. the catalytic cycle. This database is easily accessible and of enormous value because it can be searched from the point of view of the reagents, the reaction products, or the underlying mechanism. For each type of mechanism, the search can be done by author name, periodic structure, substructure, solvent, or catalyst ligand.

The database will be more than a collection of data. With approximately 500-700 reactions are added each year, the CD-ROM will be a source of inspiration to synthetic chemists, helping them choose the best mechanism for the reaction they want to achieve.

KEY FEATURES

• Contains 3500 reactions, 85 types of mechanisms, as well as the chemical parameters related to them
• Includes approximately 500–700 new reactions added each year
• Presents all the information scattered in years of literature in a single, easily searchable tool
• Search by reagents, the reaction products, or the underlying mechanism
• Within each mechanism, search by author name, periodic structure, substructure, solvent, or catalyst ligand

CD-ROM: $875.00
November 1996/ISBN: 0-12-46075-0

SYSTEM REQUIREMENTS: A PC with an 80386 or higher microprocessor (80486 or higher recommended), 4 MB of memory (8 MB recommended), VGA or better monitor, 8 MB of hard disk space (installing to hard drive only), MS-DOS® operating system version 3.0 or later, Microsoft Windows® operating system version 3.1 or later, Microsoft Mouse or compatible pointing device. Base price allows for installation of CD-ROM on a single designated CD-ROM server.

This product runs on ISIS (Integrated Scientific Information System), a client/server system providing comprehensive scientific information management.

<http://www.against-the-grain.com>
A powerful, convenient Windows® based subscription, ASCE Journals on CD ROM allows you to rapidly and accurately search ASCE journals for all the information pertinent to your civil engineering research needs. And with ASCE Journals on CD ROM, you choose what you want to subscribe to.

WHAT DO 1334 PAPERS, 1273 AUTHORS, 462 DISCUSSIONS/CLOSURES, AND 25 TOP CIVIL ENGINEERING JOURNALS HAVE IN COMMON? ONE SMALL DISC.

"ASCE Journals on CD ROM has many attractive features. It has a robust and flexible search engine, an easy-to-use interface, and quick access navigation tools. Few titles designed for the Windows environment permit changing the font size or the type face. This one does—a welcome feature for aging eyes. Readers can also zoom the images from 50% to 200% magnification."

Attention Librarians:
Annual Reviews volumes are something no library should be without.

Thousands of scientists, scholars and working professionals in these scientific disciplines rely on Annual Reviews publications as an invaluable resource for information on the latest developments in their field.

All of the 26 Annual Reviews volumes are ranked within the top 10 of publications for their discipline; 18 of them are rated in the top 3 according to the Institute for Scientific Information rankings!

Available direct from ANNUAL REVIEWS, a nonprofit scientific publisher since 1932.

Abstracts and Content Listings Available on the World Wide Web • www.annurev.org

Payment must accompany orders. California orders add applicable tax. Canadian orders add 6% GST. Handling charge of $3 per volume applies to all orders.

*Annual Reviews recently adopted an institutional pricing policy for 1997 volumes. Volumes sold to institutions are considered "multiple use," as many individuals make use of them. Annual Reviews has subsidized this multiple use readership for many years at no additional charge, but can no longer afford to do so due to rising production costs and negative margins on sales of volumes.
Get the professional support you need with the world's largest, most accurate periodicals database, Ulrich's International Periodicals Directory.

Even irregular and hard-to-find journals are captured and indexed for quick retrieval! So whether you choose Ulrich's in its print, CD-ROM, online or tape formats, you'll...

GET HELP WITH ALL YOUR REFERENCE NEEDS...only Ulrich's offers data on nearly 215,000 unduplicated serials and newspapers from 200 countries — including suspended and ceased serials and almost 12,500 refereed journals — for unsurpassed control over the global periodicals market.

RESPOND TO EVERY SERIALS QUESTION...only Ulrich's listings give you anywhere from 45 to 109* data elements per entry, from ordering information to library classification.

FIND THE LATEST ORDERING INFORMATION...only Ulrich's gives you thousands of new titles and 112,000 revisions this year alone. Nearly 10,000 cessations or suspensions recorded during the past three years are also included in the print editions.

SAVE MONEY WHILE PROVIDING A HIGH LEVEL OF SERVICE...only Ulrich's identifies titles supplied by document delivery services such as The British Library Document Supply Centre, UnCover, UMI, ADONIS, CISTI, Library KNAW, and many others — so you can stretch your budget by ordering little-used journals by article as needed.

SERVE PATRONS WHO WANT TO CREATE CUSTOM RESOURCES...only Ulrich's delivers more Copyright Clearance Center notations than any other source to help you keep in compliance with copyright law.

Select the best periodicals for your library with the help of thousands of evaluations from Bill Katz's Magazines for Libraries (available on CD-ROM only).

No wonder professionals around the world agree — no other serials reference system is as extensive, as versatile, or as accurate as Ulrich's International Periodicals Directory. Don't delay, put this superior database to work in your library today!

For more information on Ulrich's PLUS, call toll-free: 1-800-323-3288, Fax: (908) 665-3528. For more information on Ulrich's International Periodicals Directory: 1-800-521-8110. Fax: (908) 665-6688. email: info@bowker.com. WWW site: http://www.reedref.com

SOME SCIENTIFIC ACHIEVEMENTS SPEAK VOLUMES

In every library there should be a first place researchers, students, educators, and librarians turn to find information on any scientific or technical subject. A place where the inspiration for starting a research project, the supporting evidence for a paper, or the authoritative answer to an intriguing question can always be found.

More than ever, the new Eighth Edition of the McGraw-Hill Encyclopedia of Science & Technology is that place ...

- 1,600 new or totally revised articles
- New contributors, including a 1996 Nobel Prize winner
- 1,750 new or enhanced illustrations
- Completely revised and updated bibliographies in each volume
- NEW! An Activities Guide to help teachers and librarians encourage students in scientific exploration

No library should be without the McGraw-Hill Encyclopedia of Science & Technology, Eighth Edition—the first science reference that's a scientific achievement in its own right.

Learn more about the 8th Edition at www.mhreference.com

December 1996-January 1997 / Against the Grain 37
A major new work on Child and Adolescent Psychiatry edited by Joseph D. Noshpitz

Everything clinicians and health care workers need to know about child and adolescent psychiatry, this reference, whose 200+ contributors represent the leaders in the field, provides the most up-to-date, comprehensive coverage available today.

Volumes 1, 2 and 3 explore the developmental stages and syndromes of infancy and preschool, grade school, and adolescence. Each of these volumes addresses the normal development during each period, the theoretical and clinical perspectives of the period, and the clinical syndromes most commonly associated with it.

Volume 4 explores the varieties of development and the impact of psychosocial, medical, and foreign cultural factors on development in all three stage groups.

VOLUME 1
Infants and Preschoolers: Development and Syndromes
Volume Editors: Stanley Greenspan, Serena Wieder, and Joy Ososky
SECTIONS:
1. Normal Development in Infancy and Childhood
2. Theoretical and Clinical Perspectives in Infancy and Early Childhood
3. Clinical Syndromes of Infancy and Early Childhood

VOLUME 2
The Grade School Years: Development and Syndromes
Volume Editors: Paulina Kemberg and Jules R. Bemporad
SECTIONS:
1. Normal Development of the Grade-School Child
2. Assessment and Evaluation of the Grade-School Child
3. Syndromes of the Grade-School Child

VOLUME 3
Adolescence: Development and Syndromes
Volume Editors: Lois T. Flaherty and Richard M. Sarles
SECTIONS:
1. Normal Adolescent Development
2. Syndromes of Adolescence
3. Special Aspects of Psychiatric Treatment of Adolescence

VOLUME 4
Varieties of Development
Volume Editor: Norman E. Alessi
SECTIONS:
1. Psychosocial Development
2. Psychosocial Development
3. Medical Disorders
4. Foreign Culture

SPECIAL PRE-PUBLICATION OFFER UNTIL 1/31/97

The solution to your need for research information in the engineering sciences

**APPLIED MECHANICS REVIEWS**

Each monthly issue of *AMR* contains approximately 1,400 article abstracts in mechanics and related fields from 450 research journals worldwide. All abstracts are arranged by a comprehensive subject classification scheme with extensive cross-indexing. *AMR* editors select acclaimed experts to contribute book reviews — about 20 per issue. A separate annual index is included in your subscription.

**YOUR SUBSCRIPTION TO AMR PROVIDES . . .**

- **In-depth Review Articles** — authored by leading researchers, refereed by AMR’s prestigious Board of Associate Editors.
- **Abstracts** — 1,400 subject-classified abstracts from some 450 international journals, selected by technical editors actively involved in research.
- **Book Reviews** — experts in the field critically evaluate selected books. Other books and conference proceedings are described.
- **Cumulative Author and Subject Indices** — are provided in the Annual indices which includes all co-authors, and up to four subject entries per article for the entire year. Plus . . . an indispensable alphabetical keyword index.

The ideal companion to your *AMR* subscription and dynamic electronic research tool

**AMR INFOBASE OF JOURNAL LITERATURE ON CD-ROM**

Containing almost 84,000 citations from *AMR*’s journal literature section, which draws from some 450 international journals, the NEW *AMR* CD-ROM is the ultimate tool for accessing engineering literature. The seven years of engineering literature (1989–1995) contained on the *AMR* CD is easily searchable using convenient, pull-down menus or Boolean commands for quick searches.

SAX'S DANGEROUS PROPERTIES OF INDUSTRIAL MATERIALS,
NINTH EDITION by Richard J. Lewis, Sr.
$499.95 © 1996
$500.00 © 1996
A vast, reliable source of critical information on health and safety data, regulatory standards, toxicity, carcinogenicity, and physical properties of over 20,000 chemical substances. New: • 2,000 completely new chemicals, drugs, and biological agents • 14,000 updated entries • New or additional physical data added for 9,000 entries • CAS Registry Numbers for more than 18,000 entries • 100,000 domestic and international synonyms • 3 Instant Locator Indexes • Streamlined toxicity data • OSHA, ACGIH, MAK exposure limits • NIOSH REL workplace air limits • New advanced safety profiles for handling spills, accidental exposures, and fires • Carcinogens and reproductive effects • New European Data. Also available in CD-ROM.

HANDBOOK OF ENVIRONMENTAL DATA ON ORGANIC CHEMICALS,
THIRD EDITION by Karel Verschueren
$199.95 © 1996
$400.00 © 1996
All the information you need to prudently use potentially dangerous chemicals is in this fully revised edition of our classic handbook. Pesticides, detergents, phthalates, polynuclear aromatics, and polychlorinated biphenyls are all investigated in detail. Includes physical/chemical properties: air, soil, and water pollution factors; aquatic toxicity, and biological effects; odor thresholds; sampling and analysis data; and structural formulas of over 3,000 chemicals. Tables have been refined to focus on environmentally related materials. Also available in CD-ROM.

ENVIRONMENTAL CONTAMINANT REFERENCE DATABOOK,
VOLUMES I AND II by Jan C. Prager
$129.95 (each volume) © 1995, 1996
$400.00 © 1996
Comprehensive coverage of environmental effects of regulated chemicals. Identifies regulated chemicals and chemicals of special interest to environmental and safety professionals due to widespread contamination or considerable hazard. A reference compendium of physical, chemical, and biological dangers of environmental chemicals and selected simple and complex mixtures. Listings include CAS number; SAX number; sampling, analysis, and detection limits; environmental transport, fate and effects; structural formula; molecular formula; common uses; manufacturers; odor thresholds; regulatory jurisdictions and authorities; standards; reactions; monitoring methods; international data; synonym index. Also available in CD-ROM.

that's what sets VNR's chemical and environmental references above the rest (Available in print and CD-ROM)

HAWLEY'S CONDENSED CHEMICAL DICTIONARY, TWELFTH EDITION
by Richard J. Lewis, Sr.

The most widely recognized dictionary of industrial chemicals, terms, processes, reactions, and related terminology, Hawley's is an essential reference for all levels of staff in industries where chemicals are used—from management and administrative people to marketing and sales to technical and scientific staff. Hawley's presents three distinct types of information: (1) descriptions of chemicals, raw materials, manufacturing processes, and equipment; (2) expanded definitions of chemical entities, phenomena, and terminology used in every phase of engineering and technical development; and (3) descriptions or identifications of a wide range of trademarked products. Also available in CD-ROM.

COOPER'S COMPREHENSIVE ENVIRONMENTAL DESK REFERENCE: WITH SUPPLEMENTAL SPELL CHECK DISK by André R. Cooper

A unique comprehensive reference with more than 1,000 pages of key terms, over 5,000 acronyms and useful, detailed information on: • Superfund • Environmental engineering • Biology • Construction • Wetlands • OSHA • Threatened and endangered flora and fauna • and International organizations and treaties. Information is supplemented by maps, charts, tables, and diagrams, as well as crucial agency contact information to give the professional access to environmental officials who can offer advice and assistance. Destined to become a classic work, essential for all environmental, hazardous waste and safety engineers and managers, industrial hygienists, and environmental lawyers, as well as for students in these fields. Also available in CD-ROM.

HAZARDOUS MATERIALS HANDBOOK by Richard P. Pohanish and Stanley A. Greene

This corrected, updated and expanded version of the U.S. Coast Guard's Chemical Hazards Response Information System (CHRS) Manual features widely used and transported industrial materials including, practical hands-on data and technical data as well as chemical properties. This book is a portable and easier to use version of the CHRS Manual. This new resource covers more than 1,240 substances, while also improving on the original by including a CAS index, synonym index, and a helpful identification section with new fields and vital ID information moved to the front of each record for easy accessibility. Also available in CD-ROM.

elect to join the future
SEAMLESS AND INTEGRATED ACCESS TO THE WORLD OF ELECTRONIC JOURNALS

"I think that the Blackwell's electronic journals project will fundamentally change the world of publishing, libraries and scholarship."

George Lupone, Deputy Director,
Cleveland State University Library

At Blackwell's we recognise the significant and growing importance of electronic information. That's why we are proud to bring you Blackwell's Electronic Journal Navigator, a single point of access, reference, control and financial management for all of your electronic journal subscriptions. The service is accessible over the Internet, using a Worldwide Web browser. We have a global network of servers that provide you with instantaneous access to the full text and abstracts of peer reviewed, scholarly, electronic journal articles, regardless of their physical format, location or publisher.

Libraries subscribing to electronic journals benefit from simplified password and access management; standard and customised journal usage analysis and management reports; assistance with electronic archiving and electronic document delivery.

Library users benefit from a single access and authentication point for all electronic journals; a single search interface and extensive browsing functionality; alerting services and delivery of full text electronic articles direct to their PC.

Elect to join the future, with Blackwell's.

THE MERCK INDEX TWELFTH EDITION ON CD-ROM

Susan Budavari, Maryadele O'Neill, Ann Smith, Patricia Heckelman, Joanne Kinneary
The Merck Publishing Group, Rahway, N.J.

The CD-ROM of the 12th Edition of this prestigious Merck Index will be available this summer when the print version is published. The CD-ROM will contain all the information users have come to expect from the printed work, together with powerful text and substructure searching tools for exploring the contents. First published in 1899, The Merck Index now contains more than 2300 pages with more than 10,000 monographs, each describing a single substance or group of related compounds. Covered are human and veterinary drugs, biologicals, natural products, agriculture compounds, commercial and laboratory chemicals and environmentally significant compounds. The monographs contain chemical, common, generic, and brand names, molecular weights and formulae, physical and toxicity data, citations to the scientific and patent literature, description of commercial and therapeutic uses and depictions of chemical structures. All the text in the database is fully searchable. Additionally, structures corresponding to the record may be displayed together with the text or searched separately and then linked with the appropriate monograph.

A new CD-ROM, with updated information, will be published once a year.

You can also purchase The Merck Index Twelfth Edition in print from Chapman & Hall, either individually or as a package (CD-ROM and printed work).

Access
AIP Journals
Online in 1997

In 1997, subscribers to any AIP print journal will enjoy free access to a full-text electronic version on the World Wide Web.

The journals will be online 24 hours a day, seven days a week, with most titles available more than three weeks before their print versions. Adobe Acrobat® software will be used to view the journals as PDF files.

Available journals include:

- **AIP journals**
  - Applied Physics Letters
  - Chaos
  - Journal of Applied Physics
  - Journal of Chemical Physics
  - Journal of Mathematical Physics
  - Physics of Plasmas
  - Physics of Fluids
  - Review of Scientific Instruments

- **AIP translation journals**
  - JETP Letters
  - Journal of Experimental and Theoretical Physics
  - Low Temperature Physics
  - Physics of Particles and Nuclei
  - Physics of the Solid State
  - Semiconductors
  - Technical Physics
  - Technical Physics Letters

ARTICLES IN PHYSICS
A DOCUMENT DELIVERY SERVICE FROM THE AMERICAN INSTITUTE OF PHYSICS

ARTICLES IN PHYSICS gives you immediate access to more than 30,000 scientific and technical publications — including those published by:

- The American Physical Society
- American Astronomical Society
- Materials Research Society
- Optical Society of America
- American Institute of Physics
- Institute of Physics Publishing, UK
- American Association of Physics Teachers
- American Vacuum Society

- Les Editions de Physique
- Acoustical Society of America
- American Association of Physicists in Medicine
- American Crystallographic Association
- Astronomical Society of the Pacific
- Institute of Noise Control Engineering
- International Centre for Diffraction Data
- The Society of Rheology

Articles In Physics is also an excellent source for material in disciplines other than the physical sciences. Researchers and librarians around the world can obtain articles rapidly via mail, fax, ARIEL, or the Internet. Turnaround time for in-house titles is 24 hours.

Concise Encyclopedia Biochemistry and Molecular Biology
Revised and expanded by Thomas A. Scott and E. Ian Mercer
Hardcover $99.95. ISBN 3-11-014535-9
An up-to-date, comprehensive but compact source of biochemical and molecular biological data containing more than 4,500 entries and over 1,000 figures, formulas, and tables, Concise Encyclopedia Biochemistry and Molecular Biology is the ideal reference book for the researcher, teacher, and student. The 3rd edition contains many new entries, particularly on molecular and cell biology.

Concise Encyclopedia Biology
Translated and revised by Thomas A. Scott
1996. vi + 1,290 pages
Hardcover $99.95. ISBN 3-11-010661-2
"... the most comprehensive one-volume dictionary covering biology... a welcome new work that would be appropriate for high school, public, and academic libraries." — Booklist
"For general or basic reference collections at any level." — Library Journal
"... this work is recommended to all libraries." — Choice

Concise Encyclopedia Chemistry
Translated and revised by Mary Eagleson
1994. vii + 1,203 pages
Hardcover $99.95. ISBN 3-11-011451-8
"... recommended for all public, academic, and high school libraries. It is also a good desk reference for students and working chemists." — American Reference Books Annual 1996
"... recommended for academic and public libraries." — Booklist

Special Offer!
Purchase all three Concise Encyclopedias and save $50.00.
Total for all three volumes: $249.85

Handbuch der internationalen Konzertliteratur / Manual of International Concert Literature
Instrumental- and Vokalmusik / Instrumental and Vocal Music
by Wilhelm Buschkötter and Hansjürgen Schaefer
2nd revised and expanded edition. 1996. lxviii + 1,008 pages
Cloth $149.95. ISBN 3-11-013995-7
This new edition covers 640 composers and more than 3,600 works from the 16th century until today, and includes the field of vocal music.

Monogrammlexikon 2 / Dictionary of Monograms 2
International List of Monograms in the Visual Arts of the 19th and 20th Centuries
Edited by Paul Pfisterer
1995. xx + 1067 pages
Cloth $398.00. ISBN 3-11-014390-3
Both culturally and historically important, the Dictionary of Monograms 2 contains approximately 25,000 authentically reproduced monograms in the visual arts of the 19th and 20th centuries, which have been collected from books, second-hand bookshops, museums, or directly from the artists themselves.

Atlas of Languages of Intercultural Communication in the Pacific, Asia, and the Americas
Edited by Stephen A. Wurm, Peter Mühlhäusler, and Darrell T. Tryon
(Mouton de Gruyter • Trends in Linguistics. Documentation 13)
Comprised of two text volumes and one map volume, the Atlas constitutes a very important addition to existing knowledge of the intercultural communication, contact languages, and the bi- and multi-lingualism situation in the greater part of the world.

A Bibliography on Writing and Written Language
Edited by Konrad Ehlich, Florian Coulmas, and Gabriele Graefen
(Mouton de Gruyter • Trends in Linguistics. Studies and Monographs 89)
This bibliography offers a key to research on writing and written language over the past sixty years. With a selection of approximately 27,500 titles, it covers the most important literature from all disciplines that focus on writing.

The standard by which other client/server systems are judged

Horizon™ is the information management system that sets the standard by giving your library all the benefits of client/server computing.

A true client/server system
The flexibility of an open systems environment means you can add to the system as needs change and adapt to future technologies while leveraging your investment.

Expanded patron access
In addition to your own Horizon database, patrons can use Horizon to gather bibliographic data from any Z39.50-compliant system and connect to global resources over the Internet.

Graphical user interfaces
The Horizon client software offers the familiarity of Microsoft Windows®, System 7 (Macintosh®), or OS/2® interfaces. Patrons can search effortlessly with icons, pull-down menus, and point-and-click commands.

Proven by libraries like yours
You need a system with a history of success, one designed by library professionals. Horizon has met those requirements with thorough testing by libraries around the world.

Horizon is available today
You can bring the benefits of Horizon to your library today. Let us show you the leading client/server system.
Hard-to-Obtain Books?
MIDWEST LIBRARY SERVICE
Won't Take "NO"
For An Answer

We do not accept publishers' OP, NOP, and TOS reports without further research to determine their validity. Our research specialists are dedicated to locating hard-to-obtain titles. Their efforts consist of:

1. Verification of customer's information in BIP, Forthcoming Books, OP-OSI, CBI, etc.
2. Telephone confirmation from the publisher when there is evidence of availability.
3. Query the library when order information is in doubt.
4. Searching the market for out-of-print titles.
5. Checking for titles available in the U.K. which are often declared out-of-print in the U.S. Obtaining these books is part of our goal of "maximum fulfillment."

By diligent research we are able to locate many book orders that would otherwise be lost due to publishers' bad reports, inadequate research, or database dead-ends. Our researchers take over the hunt for titles where computers leave off. We will not cancel an order until we determine that a book is truly unavailable.
