INTRODUCING ulrichsweb.com™ 2.0

THIS IS NOT THE ULRICH'S YOU USED TO KNOW!

If you haven’t looked at us lately, now’s the time to come online and experience ulrichsweb.com 2.0. As different from the directory we introduced back in 1932 as the horseless carriage is from today’s turbo-charged SUV, our dynamic Web tool can effectively recharge your own research engine.

A REDESIGNED INTERFACE
Enhancing the platform-independent, universal access appreciated by today’s information professional is a new interface reengineered for efficiency and simplicity.

ADDITIONAL SEARCH CRITERIA
Our array of 24 combinable search indexes such as electronic vendor, country of publication, media type, and subject are enriched by several new options, including language, frequency, and publisher city.

WEEKLY UPDATES AND PUBLISHER HOTLINKS
Weekly updating of data yields a level of currency once deemed impossible. What’s more, thousands of publisher URL’s and e-mail addresses are hotlinked, allowing users to communicate directly with serials publishers or access content on their sites without exiting the program.

UNIQUE VALUE-ADDED FEATURES
ulrichsweb.com 2.0 is the only place you’ll find reviews from the two leading serials review sources: Library Journal and Magazines for Libraries. But there’s more. Topical articles, monthly spotlights on new serials data, the inclusion of new cover images, and other complimentary features reflect our goal to transform ulrichsweb.com into a central hub for serials data in cyberspace.

TRY IT FOR YOURSELF—FREE!
Buy the print version of Ulrich’s Periodicals Directory and you can access ulrichsweb.com absolutely FREE through May 31, 2001. The sooner you order, the sooner you can put this exceptional new research system to the test, while also enjoying the convenience and portability of the print edition. In the U.S. and Canada call us today at 1-888-BOWKER®. Outside North America call +44(0)1342336185 or e-mail: sales@bowker-saur.co.uk.

This offer is valid in the U.S. and Canada only.

Whether the books on your want list are rare, out-of-print, or out-of-stock, Alibris is the easiest way to find them. We accept POs and credit cards, and your satisfaction is guaranteed or your money back.

Books you thought you’d never find.
What makes a book good?
Is it the paper? The glue? Or is it the words inside? In truth, the real value of any book lies in its content. Giving you a way to deliver that content into the hands of those who need it is what eBooks are all about. They represent an expansion of your options. And that makes eBooks good. Consider the source

There's no doubt that technology is changing the way libraries work, and we're making sure it works in your favor. We've taken the three industry standards, Books In Print®, Ulrich's™ International Periodicals Directory, and Literary Market Place™ to the Web, so now you can click open the world with our unrivaled, up-to-date information for greater convenience than ever before.

**click open the world™...**

and discover all the options available in the all new booksinprint.com™ 2000, ulrichsweb.com™ Version 2.0, and literarymarketplace.com™. Offering navigational ease and extremely friendly interfaces, our sleek new Web-based platforms will give you the information you need faster, easier, and with more frequent updates than ever before.

...or go by the book

if you prefer your data in book or CD-ROM form, those media are still available, too, complete with all the features that have made Bowker the number one source for libraries for more than a century.

ENCYCLOPEDIA OF
Ethical, Legal, and Policy Issues in Biotechnology

EDITORS-IN-CHIEF:
Thomas H. Murray, The Hastings Center, Garrison, New York
Maxwell J. Mehlman, Case Western Reserve Law School, Cleveland, Ohio

An authoritative compendium of regulatory, policy, and ethical issues in biotechnology, this Encyclopedia goes right to the heart of what many scientists, academics, legal consultants, and government agencies are grappling with these days. It offers comprehensive coverage of both the technical details and the regulatory and policy aspects of highly relevant topics, including human subjects research, gene therapy, cloning, the Genome Project, animal and medical biotechnology, and disabilities.

ENCYCLOPEDIA OF Cell Technology

EDITOR-IN-CHIEF:
Raymond E. Spier, University of Surrey, UK

With over 2,500 cell technology companies in existence, there is a strong need for a comprehensive reference work that will serve this multibillion-dollar biotechnology market. This Encyclopedia covers all aspects of animal and plant cell technology, from the basic science of cells and cell cultures, to entries on equipment (bioreactors), to techniques used in growing cell cultures and harvesting products (aseptic techniques, different types of media, contamination problems). The historical and ethical aspects of cell technology are also covered.

THE ENCYCLOPEDIA OF Bioprocess Technology
Fermentation, Biocatalysis, and Bioseparation

EDITORS-IN-CHIEF:
Michael C. Flickinger, University of Minnesota and Stephen W. Drew, Merck & Co.

The Encyclopedia of Bioprocess Technology focuses on industrial applications of fermentation, biocatalysis, and bioseparation. Over 350 scientists and engineers from both academia and industry have contributed to the 230 entries, which include manufacturing technology, process and facilities engineering, and their interface with regulatory requirements worldwide. This five-volume set is an essential resource for anyone working in industrial biotechnology, biochemistry, genetics, and microbiology laboratories, pharmaceutical firms, regulatory agencies, and chemical and environmental engineering companies.

Information driving invention... IEL Online
www.ieee.org/ieeeexplore
Every month, we receive thousands of books. Billie Jo knows where each one goes.

EMERY-PRATT MAKES SURE YOUR ORDER IS COMPLETE AND THE BOOKS ARE SPECIALLY PREPARED THE WAY YOU'VE REQUESTED.

Over the past 16 years, Billie Jo has worked in almost every department at Emery-Pratt. She currently supervises our receiving department. That's where all the books are sorted and prepared to fill customer orders. It's also where many of our specialty services take place. You see, we help our library customers by preparing their books to be "shelf-ready" before we ship them out. That includes paperback binding and reinforcement, bar coding, cataloging, theft detection devices and more. It's just another way we try to make things a little easier for the libraries we work with.

Ask about our specialty services for your next order. Billie Jo will make sure it happens.
