Unbound books.

Boundless possibilities. Plant the seed. A new way to read that allows patrons to flourish. And an idea that will change the way you provide knowledge, guidance, and service. Create a richer environment for learning. Cultivate an atmosphere of exploration. Expand into eBooks—electronic editions of published books that allow patrons to move across subjects easily—anytime, anywhere. It's the next step in the provision of library services that allows you to add titles without adding shelf space, alleviate concerns about damaged books and late returns, and view and track information about patron usage. Thoroughly tested and supported, it's a dynamic and powerful way to manage and evolve your collection.

April 2, 1998. 600 years of Medieval History disappears overnight.

Whether the books on your want list are rare, out-of-print or out-of-stock, Alibris is the easiest way to find them. We accept POs and credit cards, and your satisfaction is guaranteed or your money back.

Books you thought you’d never find.
You can. With ProQuest SiteBuilder, a content integration tool, allowing libraries with ProQuest to gather information, simplifying searches for patrons, faculty and students. Giving them electronic access to articles from course-specific journals, magazines and newspapers. SiteBuilder also provides reserve rooms, where students can view articles without having to be physically present in the library. And topic files, where students can gain access to a cross-section of information in a particular area of interest. All with durable links and copyright-cleared material. It's simple to use and even easier to update. So now there's less time spent searching. And more time spent discovering. www.proquest.com
Consider the source

There's no doubt that technology is changing the way libraries work, and we're making sure it works in your favor. We've taken the three industry standards, Books In Print®, Ulrich's International Periodicals Directory™, and Literary Market Place™ to the Web, so now you can click open the world with our unrivaled, up-to-date information for greater convenience than ever before.

click open the world™...

and discover all the options available in the all new booksinprint.com™ 2000, ulrichsweb.com™, and literarymarketplace.com™. ENCYCLOPEDIA OF
Ethical, Legal & Policy Issues
in Biotechnology

A Wiley Biotechnology Encyclopedia

EDITORS-IN-CHIEF:
Thomas H. Murray, The Hastings Center, Garrison, New York
Maxwell J. Mehlman, Case Western Reserve Law School, Cleveland, Ohio

An authoritative compendium of regulatory, policy, and ethical issues in biotechnology, this Encyclopedia goes right to the heart of what many scientists, academicians, legal consultants, and government agencies are grappling with these days. It offers comprehensive coverage of both the technical details and the regulatory and policy aspects of highly relevant topics, including human subjects research, gene therapy, cloning, the Genome Project, animal and medical biotechnology, and disabilities.

Two-Volume Set - Approx. 1,000 pp. - 0-471-17612-5 - September 2000
$595.00 through September 30, 2000; $695.00 thereafter

ENCyclopedia of Cell Technology

EDITOR-IN-CHIEF:
Raymond E. Spier, University of Surrey, UK

With over 2,500 cell technology companies in existence, there is a strong need for a comprehensive reference work that will serve this multi-billion dollar biotechnology market. This Encyclopedia covers all aspects of animal and plant cell technology, from the basic science of cells and cell cultures, to on-line equipment (bioreactors), to techniques used in growing cell cultures and harvesting products (aseptic techniques, different types of media, contamination problems). The historical and ethical aspects of cell technology are also covered.

Two-Volume Set - 1,280 pp. - 0-471-16123-3 - $750 - January 2000

THE ENCYCLOPEDIA OF Bioprocess Technology
Fermentation, Biocatalysis, and Bioseparation

EDITORS-IN-CHIEF:
Michael Flickinger, University of Minnesota and Stephen Drew, Mocci & Co.

The Encyclopedia of Bioprocess Technology focuses on industrial applications of fermentation, biocatalysis, and bioseparation. Over 350 scientists and engineers from both academia and industry have contributed to the 230 entries, which include manufacturing technology, process and facilities engineering, and their interface with regulatory requirements worldwide. This five-volume set is an essential resource for anyone working in industrial biotechnology, biochemistry, genetics and microbiology laboratories, pharmaceutical firms, regulatory agencies, and chemical and environmental engineering companies.

Five-Volume Set - 2,798 pp. - 0-471-13822-3 - $1,750 - April 1999

THE ENCYCLOPEDIA OF Molecular Biology

EDITOR-IN-CHIEF:
Thomas E. Creighton, European Molecular Biology Laboratory, UK

The Encyclopedia of Molecular Biology presents, in four volumes, the foundations of molecular biology, including all aspects of the expression of genetic information. Features include 2,000 brief, easily digestible topic entries, written by experts in the field, as well as extensive cross-referencing for all entries. It is an excellent resource for molecular biologists, scientists, students, researchers, and newcomers interested in the field of molecular biology.

Four-Volume Set - 2,878 pp. - 0-471-15302-8 - $1,500 - April 1999

Save more than 20% with online journal subscriptions

In 2000, AIP is offering online subscriptions for 20% off the print price! Libraries outside the U.S. will save even more, as there are no shipping costs associated with our online editions. In addition, you may now subscribe to any of the 14 AIP-distributed Russian translation journals online. Electronic access has never before been available for many of these journals, and now you can receive an online subscription for about 1/3 off the price of print.

Stretch your budget — save up to 50% with combination subscriptions

To help you address the increasing pressures on serials budgets, AIP now offers an expanded variety of combination subscriptions—including online combinations. By ordering a combination package, you may find — as have many libraries — that you can reduce your subscription costs while adding titles to your collection. AIP offers 13 different packages, with savings that range from $51 to $27,226.

Save with standing order plans on
AIP Conference Proceedings

AIP Conference Proceedings record the latest breakthroughs presented at scientific meetings, workshops, and symposia worldwide, and provide access to new discoveries well before traditional journals. Standing order customers receive each new Proceedings promptly upon publication, ensuring even faster access for their patrons. Now, four standing order plans are available for libraries with more specialized collections. They give your patrons an advance look at research in these important disciplines:

- Accelerators, Beams, and Instrumentation
- Astronomy and Astrophysics
- High Energy Physics
- Plasma Physics

For comments, questions, or inquiries on any AIP product, call us at 516-576-2411 or e-mail mktg@aip.org.
Building a bigger, better MUSE

Project MUSE® now includes scholarly journals from eleven university presses! Building on the original 47 scholarly titles offered by Johns Hopkins, the MUSE collection now offers 113 full-text journals online. By merging these titles into a single database, MUSE provides scholars with the critical content they need, combined with all of the benefits of electronic subscriptions, including full-text and field searching, easy navigation, and full campus availability 24 hours a day. With our expanded list, faster servers and increased searching options, your users will find research has never been easier. And as a librarian, there's no better value for your dollar—the list price of $8,000 is much less than the cost of subscribing to these titles in print. Our flexible subscription options include discipline-oriented packages and single-title ordering to best meet your collection development needs. Substantial discounts are also offered for consortium, smaller and special libraries. Contact us now to see why there's more to MUSE than ever before.

Now MUSE includes journals from:

- Carnegie Mellon University Press
- Duke University Press
- Johns Hopkins University Press
- Indiana University Press
- MIT Press
- Oxford University Press
- Pennsylvania State University Press
- University of Hawaii Press
- University of Texas Press
- University of Wisconsin Press
- West Virginia University Press

Applied Mechanics Reviews

Changing to meet the needs of today's engineering researcher

If you subscribe to Applied Mechanics Reviews, you will have free online access to its bibliographic database beginning in July 2000.

Just log onto www.asme.org/pubs/amr to find the database link.

Featuring abstracts from 475 international journals, the online AMR database will contain the full archive of bibliographic references dating back to 1989. Users can open the table of contents to a particular issue or abstract or they can use the search tools to get a hit list that matches their query.

Starting in January 2001, you will receive the printed edition of AMR every other month. Completely redesigned, it will feature an expanded section of review articles surveying the current literature and analyzing recent trends. It will continue to present book reviews and retrospectives. Your subscription will include online access to the bibliographic database, updated monthly with the latest article references including abstracts.

In its new combined bimonthly print and online format, Applied Mechanics Reviews will carry on its tradition of more than fifty years of providing researchers and practicing engineers with tools to manage the flow of technical information.

Scope
Applied mechanics foundations and basic methods, dynamics and vibration, automatic control, mechanics of solids, mechanics of fluids, heat transfer, earth science, energy and environment, and bioengineering.

Jobbers serving libraries with any book in print.
Every month, we receive thousands of books.
Billie Jo knows where each one goes.

EMERY-PRATT MAKES SURE YOUR ORDER IS COMPLETE AND THE BOOKS ARE SPECIALY PREPARED THE WAY YOU'VE REQUESTED.

Over the past 16 years, Billie Jo has worked in almost every department at Emery-Pratt. She currently supervises our receiving department. That's where all the books are sorted and prepared to fill customer orders. It's also where many of our specialty services take place. You see, we help our library customers by preparing their books to be "shelf-ready" before we ship them out. That includes paperback binding and reinforcement, bar coding, cataloging, theft detection devices and more. It's just another way we try to make things a little easier for the libraries we work with.

Ask about our specialty services for your next order. Billie Jo will make sure it happens.

Sage Publications, a leading international publisher of journals, books, and electronic media, is celebrating 35 years of global publishing excellence. Dedicated to the dissemination of information, Sage Publications provides researchers, professionals, scholars, policymakers, and students with the tools and information they need. In this new century, Sage Publications will continue to set the standard for innovative, interdisciplinary, and international publishing excellence.

Sage Publications is known throughout the world for its pioneering publications in research methods, political science, criminology, interpersonal violence, cultural and gender studies, methodology and evaluation, management and organizational studies, family studies, urban studies, and sociology. Many Sage books and journals were the first publications to define their discipline. Sage continues the tradition of global publishing excellence by expanding its coverage to include additional disciplines in the scientific, technical, and medical fields.

Meeting the needs of today's professionals and keeping pace with current technologies, most Sage journals are available electronically through Swetsnet, EBSCO Online, Rowecom/Faxon's Information Quest, and OCLC.

Keep your collection current and stay on the cutting edge of new developments in the fields of those patrons your library serves by pointing your Web browser to www.sagepublications.com.

**World Resources 2000-2001**

**People and Ecosystems:**

*The Fraying Web of Life*

Co-published by:
UN Development Program, World Bank, World Resources Institute, UN Environment Program and Elsevier Science

It is time to take stock of the conditions of Earth's ecosystems and to draw lessons from our global experience in managing and protecting them. This invaluable reference work focuses on five critical ecosystems that have been shaped by the interaction of physical environment, biological conditions, and human intervention. Like its eight predecessors in the series, this edition presents an overview of current global environmental and economic trends using hundreds of indicators in more than 150 countries.
