IS IT CONVERGENCE?

IS IT CONVENIENCE?

IS IT CURRENT?

IN A WORD... yes!

Now you can order netLibrary eBooks through Blackwell's. Right this second, we have 35,000+ eBook titles, representing a wide range of scholarly publishers. And that list grows every day.

You can order netLibrary eBooks using your usual Blackwell's ordering processes. Online through Collection Manager. Electronic ordering, Email. Fax and of course, regular mail.

We've integrated netLibrary titles into Collection Manager, so you can view and track your entire order activity in one easy-to-access, easy-to-use location. No additional burden to your workflow.

Yes. That's the right answer to the eBook ordering question and it comes first from Blackwell's Book Services.

Tradition of Excellence
For over 125 years, ASCE Journals and Periodicals have continued to deliver state-of-the-art technical and professional information that advances the practice of the civil engineering profession. The journals continue their tradition of information integrity through the reliability of peer review, their comprehensive scope of coverage, and the continuity and consistency of a journal program that has been at the forefront of publishing civil engineering information. The American Society of Civil Engineers knows what it takes to deliver excellence in journals and periodicals.

Premiere Information Outlet for Civil Engineers
ASCE's Journals & Periodicals are the leading source of current research and applications for civil engineering professionals worldwide. It's where the leading civil engineering experts from around the world publish their ideas, opinions, and research. Over 1,500 academic and practitioner-oriented articles published each year deliver cutting-edge concepts and technologies that drive the profession forward.

ASCE Online Journals Harness the Latest Digital Technology
The most powerful civil engineering research tool available online, this electronic library of all 29 ASCE Journals and Periodicals provides full-content, fully-searchable journal articles in an online environment built for speed and easy navigation. Now have at your fingertips a wider world of civil engineering research and applications.

- CrossRef Reference Linking. With ASCE as a participating partner in CrossRef, your patrons can follow a trail of research as never before. CrossRef allows researchers to click on reference citations in ASCE journal articles and immediately link to the bibliographic records of more than 70 other scientific and technical publishers’ articles. (available 2002)

- Extended Online Archive—1995 to the present. As part of your 2002 subscription, you will get access to all online archive issues for the journal(s) you subscribe to – from 1995 to the present – at no additional cost. (available 2002)

- Contents Alert. This FREE alerting service by E-mail provides advance notice of the tables of contents for ASCE Journals & Periodicals. (available 2002)

- FREE Civil Engineering Database (CEDB). Provides free access to over 90,000 bibliographic and abstracted records from ASCE journals, proceedings, and other publications. Link directly from the journal search results to the online article.

A great teaching text and reference that belongs in every library

Biochemistry & Molecular Biology of Plants
Buchanan • Gruissem • Jones

The combination of superb authors for each chapter, and very complete coverage of the topics of plant biochemistry and molecular biology, make this a volume that should be used in a wide range of courses and on the bookshelf of every serious plant biologist.

— Charles Arntzen
President and CEO Boyce Thompson Institute for Plant Research, Inc.

In 24 structured chapters (over 1,400 pages and more than 1,100 original drawings plus 500 photographs), Biochemistry & Molecular Biology of Plants provides a boldly contemporary review of its subject, including molecular biology, cell biology, and plant physiology, integrated around the themes of compartmentation, cell reproduction, energetics, metabolism, and development. The CD-ROM of the illustrations increases its utility for teaching.

Published by the American Society of Plant Biologists (formerly the American Society of Plant Physiologists), this major text is the result of years of planning and meticulous development and editing from the top tier of plant biologists working around the world. It is an essential addition to your library and to the available resources for teaching a complex and dynamic subject.

We may not be the most well-known book distributor, but we do seem to be very popular.

Our customers know about those big book distributors on Wall Street, but they keep coming back for our friendly service here on Main Street.

We may not be one of the corporate giants of the world, but that's just fine with us. Our focus has always been service, not size. We wanted our family business to exhibit the same values of our own family, like hard work, generosity, and kindness. We take good care of the libraries and other customers we serve by tracking down each and every book they request, triple checking orders for accuracy, and making sure we are always available to talk to them in person. We've made it a policy to treat our customers like friends, and as a result, many of them are.

Contact us today. We'd love to help you.

ACS Publications is #1 in total citations in more than half its ISI® subject categories.

The Most Cited Journals in Chemistry

When you choose journals from the American Chemical Society, you’re choosing the highest quality and value publications in chemistry and related fields.

ACS journals are repeatedly ranked as the top-rated journals in total citations by the ISI® Journal Citation Reports® in such chemistry categories as Analytical Chemistry; Applied Chemistry; Inorganic and Nuclear Chemistry; Medicinal Chemistry; Organic Chemistry; and—naturally—Chemistry.

In addition, ACS journals are the most cited journals in Agriculture; Education, Scientific Disciplines; Environmental Engineering; Environmental Sciences; Food Science & Technology; and Polymer Science—and highly ranked in Biochemistry, Chemical Engineering, Materials Science, Physical Chemistry and Toxicology.

With such new publications as Organic Letters (1999), Journal of Combinatorial Chemistry (1999), Biomacromolecules (2000), Crystal Growth & Design and Nano Letters (both 2001), ACS Publications continues to grow in the service of chemistry and related disciplines. Just like we have since 1876.

Who? What? When? Where?

Wilson.

We are the premier publisher of web, CD-ROM and print resources for librarians and researchers. Worldwide.

Whatever type of reference material you need, access it through the WilsonWeb. Our databases feature 700,000 full text articles collected from over 4,000 publications, many now with PDF page images and our abstracts and indexes are unsurpassed. The new Readers’ Guide Retrospective cites over 1,800,000 articles and encompasses material dating back to 1890. H. W. Wilson’s Biography Reference Bank is equally wide ranging. Contemporary and historic figures are profiled in in-depth articles. Nearly 200,000 profiles, the best in biography from Wilson and a wide range of reference sources in the field, are at your fingertips.

Our Standard Catalogs for public, middle and high school libraries, and children’s books and fiction, keep you informed of the best resources. This saves time with acquisitions and collection development and maintenance, enabling readers and educators to make the most of them.

With over 102 years of experience fielding the questions who, what, when and where, the answer is clear: H.W. Wilson. We’re only a phone call or mouse-click away.

A New Way to Communicate and Visualize Dynamics

SIAM Journal on
Applied Dynamical Systems

Analysis • Animations • Experiments • Color Images

www.siam.org/journals/siads/siads.htm

SIAM is pleased to announce the establishment of our first new journal in over eleven years, SIAM Journal on Applied Dynamical Systems (SIADS). This peer-reviewed, all-electronic journal publishes research articles on the mathematical analysis and modeling of dynamical systems and its application to the physical, engineering, and life sciences.

SIADS is not just another new journal.

We've redefined what's part of the peer-reviewed article: The editors strongly encourage authors to incorporate color, animated visualizations, and internal linking. Papers without these enhancements are accepted as well. All papers are reviewed based on their research content.

SIADS has a distinguished editorial board, headed by the Editor-in-Chief, Martin Golubitsky, from the University of Houston.

duration-six-months

SIADS will be available freely over the Web for 2002!

See for yourself how publishing in dynamics has changed. Please add a link to SIADS on your electronic-journal page in 2002. And join us in the next frontier of publishing in dynamical systems.

Please contact Mary Rose Muccie, Journals Publisher, SIAM, mucie@siam.org, with questions or for more information.
