Introducing a Better Approach to Approval Plans

At Academic Book Center, we build our Approval Plan Service around you... your library's very individual, very specific collection development profile.

It's not a formula. It's not a mechanized process. It's a human, one-to-one, book-in-hand review precisely executed to meet your criteria and unique perspective — all backed up by state-of-the-art computer systems.

We're helping libraries around the world build relevant and useful collections, efficiently. And we're delivering measurable results.

• Our Approval Plan customers enjoy return rates lower than 3.2%.
• Ninety-percent of new titles arrive within 30 days of publication.

With the comprehensive coverage of more than 1,200 domestic publisher imprints and optional coverage of 10,000 UK titles, we offer Approval Plans that support your collection strategies.

Your profile. Our resources. That's how great collections grow.

Location, location, location

Index to Scientific & Technical Proceedings™ on CD-ROM
Index to Social Sciences & Humanities Proceedings™ on CD-ROM

Location is everything, especially when it comes to valuable conference data. Because if your patrons don’t know where to look, they just won’t uncover the important information they need. That’s why we put it all in two easily accessible places: Index to Scientific & Technical Proceedings on CD-ROM and Index to Social Sciences & Humanities Proceedings on CD-ROM.

Updated quarterly, ISTP® and ISSHP® on CD-ROM provide complete bibliographic data on the most recently published conference proceedings from around the world. Your patrons can explore data from 1 million science papers from 26,000 conference proceedings and about 200,000 social sciences and humanities papers from 24,000 conference proceedings. (Even more when you consider the quarterly updates!) ...All available months before — sometimes years before — appearing in the journal literature. Which makes ISTP and ISSHP the perfect places for performing retrospective searches of the proceedings literature.

ISTP and ISSHP on CD-ROM are also ideal for acquisition decisions. In fact, the contents listings show every paper in each proceedings volume. So it’s easy to determine which volumes meet your library’s needs.

Turn your library into the premium location for locating conference data — subscribe to ISTP and ISSHP on CD-ROM today.

ISTP and ISSHP. It’s all in where you look.

There are three kinds of academic library booksellers:

the many, who wonder what’s happened; the not so few, who feel they are victims of events beyond their control; and the one bookseller who sees new opportunities amidst the confusion.

While any vendor might establish leadership for a short time in one service area, only one vendor, **YBP**, has taken the lead – in performance, technological innovation, close partnerships, customer service – for so many years.

Our secret?

**Leading Minds**
Working with library leaders to shape the future.

**Thinking Minds**
Working with librarians to define service excellence.

**Focused Minds**
Creating customer satisfaction every day.

Our people!
Time IS NO LONGER an issue

...because only ProQuest Direct SiteBuilder™ allows you to insert Durable Links™ from articles into your own Web site. Today, tomorrow, ten years from now — the links always remain the same, so your students and patrons can retrieve the information they need, when they need it.

And ProQuest Direct SiteBuilder lets your homepage become a SEAMLESS, single point of access for custom searching, electronic reserve rooms, distance learning, database table of contents, and much more.

Time is endless, and so are the possibilities.

PROQUEST
Delivering a universe of research possibilities

Now you can take full advantage of the world's premier research databases — the ISI® citation databases — through the Web of Science®. This powerful Web-based solution unlocks remarkable searching capabilities and enables you to search further, faster, and more comprehensively than ever before.

Others may offer Web access. But none can match the power of the navigational and retrieval options made possible only through the links inherent in citation data. This ability to take a known, relevant paper or work and find other, more recent papers that cite it enables you to track developments backward and forward in time, and discover valuable research you may not otherwise have considered.

Break out of the confines traditional databases impose:

- select any combination of citation databases from which to search
- choose any time period
- locate all cited authors, not just first authors
- sort results by date, relevance, author, or journal
- export, print, and download records
- electronically order full-text documents from the ISI document delivery service, ISI Document Solution™
- link to full-text articles
- and so much more

Whether you are a highly experienced research chemist looking for that crucial molecule or a lab technician wondering about the safe disposal of toxic chemicals, the significant facts and dynamic research in your field of chemistry are right at your fingertips 24 hours a day, 7-days a week whether you are at work, on the road, or at home. From fast-reading communications in organic chemistry to authoritative, peer-reviewed research in biochemistry to regulatory news in environmental science, ACS Web Editions bring critical knowledge to you through innovative features such as:

**ARTICLES ASAP:** Fully edited articles with complete graphics and links ready online anywhere from two weeks to three months before the article is available in print.

**ASAP ALERTS:** Free e-mail announcements of newly available Articles ASAP from the ACS Web Editions journals of your choice. The ASAP Alerts e-mail message contains complete bibliographic information and the direct URL link to the full article.

**ARTICLES ON COMMAND:**

If you or your library do not subscribe to a specific journal, you can still get the information you need instantaneously through Articles on Command. Search the entire ACS Web Editions archive all the way back to January 1996 by journal, author, title, keyword, year, page number, or manuscript number. Choose exactly what you need, and Articles on Command will deliver online access to the article directly to you for only $25 per article via online Mastercard or Visa purchase.

**FULL-TEXT AND ABSTRACT SEARCHING:** Browse and search across a specific journal or across all ACS Web Editions publications by author, title, keyword, abstract, table of contents or year.

**LINKS TO REFERENCES IN OTHER ACS JOURNALS:** ACS articles cited in an ACS article are linked to each other.

**LINKS TO OTHER DATABASES:** Several journals connect to outside databases, including PubMed, Medline, GenBank, and Protein Data Bank.

**SUPPORTING INFORMATION:** Additional information on experimental procedures is provided online at no extra charge.

New and innovative features are being added all the time!

The Premier Abstracting and Indexing Sources for History are Now Online

**HISTORICAL ABSTRACTS**
Roger W. Davis, Managing Editor

*Historical Abstracts* is the reference tool to use for historical research about the world (excluding North America) from 1450 to the present. Published since 1955, it is the most complete annotated bibliography for world history and related disciplines that is available. Each year, editors add over 20,000 entries of interest to historians and related other researchers.

---

**AMERICA: HISTORY AND LIFE**
Angela Sturgeon, Managing Editor

*America: History and Life* focuses on the history of the United States and Canada from prehistory to the present. It covers key English-language historical journals, selected historical journals from major countries, state and local history journals and a targeted selection of journals from related disciplines. Each year, approximately 16,000 new entries are added to the database.

"...nothing out there is comparable at all in covering historical scholarly resources. Enthusiastically recommended."

The Wiley Encyclopedia of Environmental Pollution and Cleanup
Concise 2-Volume Set
Edited by Robert A. Meyers, Ramtech, Ltd., Tarzana, CA

In today's world, the general public is confronted with environmental issues in ever-increasing frequency. This condensed version of the 8-volume Encyclopedia of Environmental Analysis and Remediation provides a quick and convenient source of information on environmental hazards and the various methods employed to detect and repair them.

Designed for anyone interested in environmental issues and structured to provide answers to questions on the hottest topics in environmental science, this work consolidates the existing literature into an easy-to-understand manner. Featuring extensive illustrations and references, this encyclopedia details all aspects of pollution measurement, risk assessment, cleanup, and disposal of water, air, soil, industrial and nuclear waste, and nuclear and chemical weapons.

Consisting of over 280 carefully reviewed, alphabetically arranged, up-to-date articles written by authorities in the that particular area, this unique guide examines today's and tomorrow's most relevant environmental topics, including:

- Air Pollution
- Environmental Law and Regulation
- Environmental Sampling and Analysis
- Hazardous Waste Cleanup
- Pollution in the Biosphere
- Waste Reclamation
- Health Effects of Pollution
- Transport of Waste
- Nuclear Waste
- Regulatory and Economic Policies

Encyclopedia of Mental Health
Edited by Howard S. Friedman
"The articles cover a wide range of subjects. As one would expect, there are entries for various disorders and therapies: Alzheimer's disease, behavior therapy, mood disorders, to name a few. Other entries examine traits such as charisma and shyness or diseases problems associated with substances like alcohol and caffeine. Numerous articles focus on the mental health aspects of stressful situations—bereavement, chronic illness, commuting. Neurology is treated in articles such as brain scanning/neuroimaging. In his preface, the editor states that particular attention has also been paid to 'the family and developmental context for mental health and impairment,' evident in articles like family therapy, child sexual abuse, and divorce. This is a fine encyclopedia with a great deal of excellent information on subjects of interest to both professional and educated lay readers. Academic, health science, and large public libraries will find it very useful."

Three-Volume Set

Encyclopedia of Gerontology
Edited by James E. Birren
"This work has been edited by the distinguished gerontologist Birren...An international editorial group of five distinguished scholars on gerontology decided the content and identified prospective writers for the input on the emerging topics within the scope of gerontology... A comprehensive index, a few appropriate illustrations, and many tables add to the overall excellence and usefulness of the work. This encyclopedia will prove an authoritative reference source for all libraries serving students or professionals in the many disciplines that bear upon gerontology."

If you think we're just a small company, you should see the size of Kathi's rolodex.

EMERY-PRATT DEALS WITH OVER 70,000 PUBLISHING SOURCES. FORTUNATELY, YOU CAN DEAL WITH JUST ONE.

At Emery-Pratt, Kathi is usually two steps ahead of everyone. She meets with publishers about exciting new books that aren't even available to the public yet. And by the time the public does hear about them, she's already shipping them off to our customers around the country. With so many publishing sources, we are better able to find all the books our library customers want the most. Somehow Kathi always knows what's hot and where to find it. How does she do it? She says it's experience. We think she might just have a sixth sense about it.

The next time you order books, give us a call. We're sure Kathi can get them all for you.

NOTABLE WOMEN IN WORLD HISTORY
A Guide to Recommended Biographies and Autobiographies
By Lynda G. Adamson
"Recommended for academic reference collections, high school and beyond, and for larger public libraries."...the entries are interesting enough in themselves to invite perusal. A student can use this reference for a short biography on women not found in other references, to locate published material on a specific woman, or to find ideas for a research topic. Highly recommended. — The Book Report

Contemporary African American Novelists
A Bio-Bibliographical Critical Sourcebook
Edited by Emmanuel S. Nelson
Surveys the lives and works of 79 contemporary African American novelists, with each entry providing a biography, a discussion of issues and themes, a summary of the critical reception, and a bibliography of primary and secondary sources.
Greenwood Press. 1999. 552 pages. 0-313-30501-3. $95.00.

Historical Dictionary of School Segregation and Desegregation
The American Experience
By Jeffrey A. Raffel
"Each well-written and logically organized entry in this unique dictionary has its own bibliography to support the non-judgmental definitions supplied. ... A bibliographical essay and an extensive, nine-page bibliography add to the utility of this appropriately priced volume." — Library Journal
Greenwood Press. 1998. 376 pages. 0-313-29562-6. $75.00.

The Encyclopedia of Parenting Theory and Research
Edited by Charles A. Smith
Gives a comprehensive summary of research on parents and parent-child relationships.
Greenwood Press. 1999. 512 pages. 0-313-28699-5. $95.00.

Women's Roles in Ancient Civilizations
A Reference Guide
Edited by Bella Zweig
"The collection provides a cornucopia of information and insights." — Phyliss Tribble

Save 10% with new online-only journal subscriptions

AIP continues to include online editions with print at no addition charge. In 1999, for the first time, we also offer online-only subscriptions to libraries at 10% off the price of a print subscription. Libraries outside the U.S. will save even more, as there are no shipping costs associated with AIP online editions. You may also apply these online discounts to combination subscriptions for even greater savings.

Committed to preserving a permanent online archive

AIP is dedicated to maintaining its online content and making it accessible to subscribers. With AIP on-site and off-site archive and year-end user-mountable CD-ROMs, you’re assured permanent access to AIP’s online journal content. You can view AIP’s complete archive policy statement on the web at www.aip.org/journals/archive/.

Need an article fast? Get it anytime—online.

Online document delivery from the American Institute of Physics gives you access to over 100,000 articles from more than 35 of the most prestigious journals in science and technology—at prices much lower than other document delivery providers. You can find the articles you need by browsing AIP’s Online Journal Publishing Service (ojps.aip.org) or SPIN database. Articles can be ordered via credit card on a secure online form, and every order is absolutely confidential.

Stretch your budget—save up to 35% with combination subscriptions

To help you address the increasing pressures on serials budgets, AIP now offers an expanded variety of combination subscriptions—including new online subscriptions. By subscribing to a combination package, you may find—as have many libraries—that you can reduce your subscription costs while adding titles to your collection. AIP offers eight different packages, with savings that range from $52 to $17,432.

For comments, questions, or inquiries on any AIP product, including journals, Conference Proceedings, and online document delivery, call us at 516-576-2411, e-mail mktg@aip.org, or write Marketing Dept., 500 Sunnyside Blvd., Woodbury, NY 11797.
Sometimes it can take hours for researchers to find just the right piece of information when they have to look through a wide range of electronic journals. That's why we created EBSCO Online®.

EBSCO Online, the powerful electronic journals service from EBSCO Subscription Services, lets users access the full text of the most up-to-date and well-respected electronic journals available. And its flexible search options make locating information a snap.

One system. One URL. One way to solve research problems.

EBSCO Online. Because searching for information shouldn't be like looking for a ... well, you know.

FIVE Reasons to Subscribe...

1. In-depth Review Articles – extended literature reviews in each monthly issue authored by leading researchers, refereed by AMR's prestigious Board of Associate Editors.

2. Abstracts – 1,550 subject-classified abstracts from some 475 international journals in every issue. Selected by technical editors actively involved in research, all abstracts are classified in accordance with a comprehensive scheme with extensive cross-indexing.

3. Book Reviews – experts critically evaluate about a dozen books in each issue and summarize the contents of many others.

4. Annual Index – printed as a separate issue and providing author, subject, and keyword indices for review articles, book reviews and abstracts, as well as a host of other useful features.

5. Annual CD-ROM – containing over 100,000 citations compiled from AMR abstracts since 1989, which are searchable by title, author, source journal, classification, author affiliation, keyword, and more.

WHY DO MORE LIBRARIES CHOOSE BOOKS IN PRINT?

RECENTLY, an independent research firm conducting a national survey told us that more libraries use the BOOKS IN PRINT family than any other source of book information. When we asked why, we discovered that your answers fell into two categories:

"BOOKS IN PRINT helps me serve patrons better."

Often, patrons ask librarians about a book they don’t know much about. With BOOKS IN PRINT ON DISC, you can locate virtually any title—even if your patron knows only a word from the title, the subject, the illustrator, or another tiny fragment of information.

When a patron comes to you with the question “Are there any books on...”, you can easily answer the question using BOOKS IN PRINT ON DISC’s fast and powerful search capabilities. You can even easily print out a customized bibliography in a few minutes.

Plus, when a patron asks you what a book is about, you can refer to BOOKS IN PRINT’s 200,000 descriptive annotations or the 330,000 full-text reviews in BOOKS IN PRINT with BOOK REVIEWS ON DISC.

"BOOKS IN PRINT makes my job easier."

BOOKS IN PRINT ON DISC helps you speed through verification processes since it gives you quick access to ISBNs, exact titles, prices, authors, contributor information, distributor and publisher addresses and phone numbers, return policies, and much more.

You can also automatically print POs, cataloging records and electronic orders without retyping. Plus, BOOKS IN PRINT ON DISC simplifies your record-keeping by letting you download information directly into your word processing programs.

In addition, you can save ordering data in a format 25 vendors will accept—not just Baker & Taylor. And forthcoming titles are flagged to help you locate the new titles that are right for your collection!

Order Now! 30-Day Money-Back Guarantee!

You can’t understand the true value of BOOKS IN PRINT till you use it yourself. That’s why we’re making BOOKS IN PRINT ON DISC and BOOKS IN PRINT with BOOK REVIEWS ON DISC available with a 30-day money-back guarantee!
