Pre-Conference Proceedings
of the
85th Annual
Purdue Road School

March 23-24, 1999

CO-CHAIRMEN

Charles F. Scholer
Professor, School of Civil Engineering
Faculty Representative, Indiana LTAP
Local Technical Assistance Program

Kumares C. Sinha
Professor, School of Civil Engineering
Director, Joint Transportation Research Program

CO-PROGRAM COORDINATORS

Thomas C. Martin
Program Manager, Indiana LTAP
Local Technical Assistance Program

Karen S. Hatke
Program Coordinator
Joint Transportation Research Program

Purdue University
West Lafayette, Indiana
# Table of Contents

1998 Purdue Road School
- Highlights ........................................................................................................................................... i
- Association Officers .......................................................................................................................... ii
- INDOT Smoothness Awards ............................................................................................................. iv

1999 Purdue Road Planning Committee .......................................................................................... v

1999 Directory of Officials ................................................................................................................ vi

Opening Session
- TEA-21 - Industry Perspective ........................................................................................................ 1
  John S. Spangler, Chairman of the Board, Milestone Contractors and Chairman of the Board, National Asphalt Pavement Association
- Project Management Using the Site Manager Program .................................................................... 7
  James L. Snyder, Business Consultant, Information Services Division, INDOT
  Richard L. Yunker, Field Engineer, Operations Support Division, INDOT

Management Session
- The Road to Success is Paved with Customer Satisfaction .............................................................. 15
  Richard A. Feinberg, Director, Center for Customer Driven Quality and Professor, School of Consumer and Family Sciences, Purdue University

Case Studies: The Good, the Bad, and the Ugly
- Interagency Cooperation ............................................................................................................... 60
  Rick L. Pharis, County Engineer, Elkhart County
- Lead Paint Removal on Bridges ..................................................................................................... 66
  B. Janice Osadczuk, Environmental Services Manager, Pre-Engineering and Environment Division, INDOT

Transportation Sites on the Internet
- FHWA - Community of Practice Web Site for Rumble Strips ......................................................... 70
  Kevin Connor, Transportation Specialist, FHWA

Maintenance Issues
- Street Sweeping Agreements for State Highways in Cities and Towns .......................................... 84
  Jerry E. Thompson, District Operations Engineer, Vincennes District, INDOT
- INDOT's Role in SEMA/FEMA Declared Disasters ....................................................................... 87
  Phillip K. Roberts, Deputy Director, Indiana State Emergency Management Agency
- Unofficial Detours - Guidelines for LPA's ..................................................................................... 112
  James K. Ude, District Development Engineer, Seymour District, INDOT
  Glenda M. Seal, Local Assistance Representative, Seymour District, INDOT
- Introduction of INDOT's Maintenance Training Courses .............................................................. 129
  Daniel A. Norris, Maintenance Training Committee Chairman, Operations Support Division, INDOT
Traffic Issues Institute of Traffic Engineers

A Tiered Approach to Neighborhood Traffic Management .................................................. 132
   Nazir Lalani, P.E., International President, ITE

Interactive Traffic Signal System Laboratory at Purdue .................................................... 204
   Darcy M. Bullock, Associate Professor, School of Civil Engineering, Purdue University

Platoon Accommodation at Isolated Signalized Intersections ........................................... 205
   Jason S. Wasson, ITS Operations Engineer, INDOT

Pedestrians and the AASHTO Green Book ........................................................................... 207
   John N. LaPlante, P.E., Chief Traffic Engineer, T.Y. Lin Internal BASCOR, Inc.

INDOT Innovations

Selecting Railroad Crossing Safety Projects Using Predicted Accident Rates and Benefit Cost Analysis .............................................................. 211
   Steven J. Hull, Engineering Services Manager, Design Division, INDOT

Back to Basics - Traffic Engineering

Coordinated - Actuated Traffic Signal Control ................................................................. 221
   Darcy M. Bullock, Associate Professor, School of Civil Engineering, Purdue University

Analyzing Signalized Intersections Using the Newest Versions of HCM and HCS ............... 222
   Andrzej Tarko, Assistant Professor, School of Civil Engineering, Purdue University

Pavement Maintenance

Crumb Rubber Modified Asphalt Grant .............................................................................. 224
   Larry F. McLin, Road Supervisor, Daviess County

Whitetopping: Doing It Right The Second Time ................................................................. 225
   C. Michael Byers, Executive Director, Indiana Ready Mixed Concrete Association

Jasper County Hot Mix Program ....................................................................................... 244
   Richard A. Armold, Highway Supervisor, Jasper County

Practical Approach for Maintaining Historic Bridges

What is an Historic Bridge and When Should it be Perserved? .......................................... 248
   John L. Carr, Chief, Environmental Review, Division of Historic Preservation and Archaeology, Indiana Department of Natural Resources

Saving the Portland Mills Bridge -- Parke County #155 - Why it was Saved .................... 255
   Judith G. Congdon, P.E., President, Congdon Engineering Associates, Inc.

If Bridges Could Talk ........................................................................................................ 259
   William L. G. Etzler, Executive Director, Allen County Highway Department

Potential Applications of Current Research

The Institute for Safe, Quiet, Durable Highways ................................................................. 263
   Robert J. Bernhard, Director, Ray W. Herrick Laboratories and Professor, School of Mechanical Engineering, Purdue University

INDOT Strategic Plan ......................................................................................................... 283
   J. Bryan Nicol, Deputy Director of Highway Operations, INDOT
