• Continue the success of the current streetscape initiative.
• Build upon the current design but pay special attention and support the Main Street retail corridor.
• Create a strong identity and unique sense of place.
• Balance the needs of pedestrian and vehicle access.
• Redevelopment of sidewalks/streets for economic development.
Goals

- Support Main Street as an integral part of the downtown community.
- Support and build upon the unique heritage and environmental character particularly its historic core.
- Balance the needs and uses by businesses, residents, visitors, institutions and events.
- Encourage economic development.
- Enhance downtown and its quality of life for all citizens.

Scope

- 4th Street through 11th Street and extending ½ block north and south of Main Street on the numbered cross streets.
- Analysis of existing conditions with recommendations for sidewalk and street configuration, materials, parking, accessibility, signage, wayfinding, lighting, traffic, signal replacement, drainage, utilities, landscaping, festival space, public art, street furniture and related accessories.

Output: A conceptual draft plan reflecting past and current stakeholder input, as well as best practices for successful downtown development.
