SpringerLink

- IN ONE PLACE > ONLINE > TO YOU

SpringerLink is one of the world’s leading interactive databases for scientific, technical, and medical (STM) books and journals.

The breadth and quality of SpringerLink are unmatched. We offer over 300,000 documents in a growing collection of journals and book series.

New Features of SpringerLink include:
- User-Friendly Navigation puts content in easy reach. Researchers are a click away from the information they need most, and two clicks from all the data on SpringerLink. “Breadcrumb navigation” lets users quickly retrace their steps without using the back button on the browser.
- Increased reliability provides uninterrupted access to SpringerLink. Eight fully redundant servers eliminate system failures and make our database capable of meeting demand from around the world.
- Outstanding search capabilities
- Keyword Alerts

SEE 7.3

Announcing Horizon 7.3, with more than 100 new features, it's the most technologically advanced library information management system available today, based on open systems, a SQL-compliant relational database, and proven client-server technology. With over 1,000 sites installed worldwide since 1991, Horizon has become the most powerful information management system in the library marketplace. Horizon 7.3 brings new capabilities which provide unmatched flexibility, performance, interoperability, scalability, and workflow.

Experience for yourself what the new Horizon 7.3 has to offer—contact your Dynix sales representative for a more detailed explanation of the features in Horizon 7.3 and a complete product demonstration.
Put our nation’s best minds to work on your next research project.

Introducing the U.S. Serial Set Digital Collection from LexisNexis™

From presidents and congressmen, to business and industry leaders, the people who’ve built this country left behind more than a legacy. They left documentation. The U.S. Serial Set is the first historical collection that tells you not only when something happened, but why. With full search capability of Congressional publications from 1789 to 1969, you can easily and efficiently find reference and insight to understand the thinking behind the events. This collection has inspired novels, framed critical research, and provided new perspective to students, faculty and research staff. Use the digital U.S. Serial Set to explore new avenues of investigation through easy full-text searching and comprehensive indexing. The original documents. The original thinking. Now available digitally from LexisNexis™, publisher of the CIS U.S. Serial Set Index and Microfiche Collection.

Never underestimate the importance of a librarian.

Okay, chances are you won't actually find a librarian firing a high-energy laser. But librarians do play a vital role on any engineering team, enabling scientific breakthroughs and real-time solutions. Whether you're choosing information for specific research communities or decision-support for professionals, Elsevier offers access to a world of information that knows no boundaries. Select from a wide range of scientific, technical and health information available in multiple media, including innovative electronic products like ScienceDirect® and MD Consult. After all, getting the right information into the right hands is critical to the success of any experiment. Building Insights. Breaking Boundaries.®

American Presidential Campaigns and Elections
Three-Volume Set
William G. Shade and Ballard C. Campbell, Eds.
Craig R. Coenen, Documents Ed.

"Fascinating, readable. ... The electoral maps and tables with a state-by-state popular and electoral vote for major candidates are a reference librarian's dream... An essential purchase for both public and academic libraries." — Library Journal

“This outstanding set ... provides a thorough framework for understanding the complex dynamics and key issues underlying each presidential campaign and election. ... Highly recommended. All collections.” — Choice

“Although there are other reference sources that cover various aspects of U.S. presidential elections, none provide this kind of detailed election-by-election history. ... This reference will prove valuable to high school, academic, and public library reference collections.” — Booklist

Sharpe Reference 2003 3 Vols., 1,328 pages 0-7666-8042-4 $325.00 / set

American Folktales
From the Collections of the Library of Congress
Two-Volume Set
Carl Lindahl, Ed.

This first-of-its-kind set includes magic tales, legends, jokes, tall tales, and personal narratives — over 200 of the finest examples of American oral tradition — organized and presented for easy accessibility by high school students, general readers, and scholars alike.

Spring 2004 2 Vols., ca. 750 pages 0-7666-8092-9 $199.00 / set Prepublication Price: $179.00 until 3/31/04

Everyone and Everything in Trollope
Four-Volume Set
George Newlin, Ed.

For the first time all the characters, plots, localities, and themes in the complete works of Anthony Trollope, the most prolific writer of the Victorian age, are analyzed in one definitive reference, along with detailed lists of further readings. George Newlin does for Trollope what he did for Dickens in his award-winning "Everyone in Dickens." Fall 2004 4 Vols., 3,325 pages 0-7666-1320-4 $499.95 / set Prepublication Price: $449.95 until 10/31/04
Charleston Architecture: 1670–1860
By GENE WADDELL

This book is about how a consistently high standard of excellence was achieved in Charleston architecture in the eighteenth and nineteenth centuries. Regardless of what style Charleston's architects used—Greek or Roman, Gothic or Renaissance, Adamesque or Greek Revival—they were in agreement about what constituted excellence.

Special emphasis is placed on the knowledge that was required to create Charleston's early architecture. An introduction discusses the writings and buildings of Andrea Palladio, Robert Adam, A. Welby Pugin, and other influential architects. Sources of inspiration for Charleston buildings have included specific buildings in Greece, Italy, England, France and Germany.

Whenever possible, primary sources of information were used to determine how various types of Charleston buildings were designed and constructed. A dozen of the city's best-documented buildings are considered in detail as a basis for comparison.

HOUSES: a list of all expenses to construct a row of five row houses from 1709–1711; a comprehensive set of building accounts for a double house designed in c. 1745; and a contract for a Charleston Single House designed in 1789

RELIGIOUS BUILDINGS: accounts of the construction of two Anglican churches built from 1721–1723 and from 1752–1761; a Congregational church and a Baptist church designed by the first American architect; the first Reform synagogue in the United States; and Unitarian and Episcopal churches with Gothic fan vaulting

PUBLIC BUILDINGS: architectural drawings for an exchange and custom house designed in 1766; complete records for constructing a state administrative building that set a new standard for construction and that introduced the Greek Revival style in Charleston; a federal custom house that was initially designed locally; and a municipal orphan house in the Italianate style. These buildings are compared with hundreds of others of similar types and styles to reveal what was most characteristic and most distinctive about Charleston architecture.

This book also contains a summary of information available before 1740, an analysis of buildings depicted in the 1740 view of the city, a survey of nearly three thousand surviving single houses, a review of the principal buildings that existed in 1826, a study of the origins of the Greek Revival style, a comparison of the influence of Jefferson and Latrobe on Mills, a discussion of how the Greek and Roman orders were adapted, and a section on the characteristics of Adamesque architecture. Appendices included a list of all architecture books known to have been available in Charleston from 1751–1856, data on the number of houses that existed at various times from 1672–1881, and studies of building types such as rice mills and design features such as the piazza.

Over 650 illustrations are included of the best designed and most typical buildings in Charleston and the most influential sources of design. The illustrations consist of historic photographs, drawings, and views; numerous measured drawings and maps; and more than two hundred recently taken photographs.

ACS Publications is pleased to announce **Molecular Pharmaceutics**, a new journal focusing on molecular mechanistic approaches to the development of bio-available drugs and delivery systems.

A scholarly journal published bi-monthly in print and continuously online, **Molecular Pharmaceutics** will feature articles & communications concentrating on the integration of applications of the chemical and biological sciences to advance the development of new drugs and delivery systems.

**Molecular Pharmaceutics** will promote high quality research advancing the understanding of pharmaceutics at the molecular level while providing a forum for research among the fields of physical and pharmaceutical chemistry, biochemistry, molecular and cell biology, and materials science focused on drug delivery. With an emphasis on fundamental molecular concepts in chemistry and biology as applied to drug and drug delivery system activity, the journal will showcase emerging technologies used to advance the drug development process.

Scientific areas include: physical and pharmaceutical chemistry, biochemistry, molecular and cellular biology, and polymer and materials science as they relate to drugs and drug development.

The classic reference, now in affordable paperback

"Superb for browsing, exactly right for a researcher in a field in which he or she is not expert....This encyclopedia should be in the library of any institution where physics is studied." — *Physics Today*

"Exciting...well written and illustrated...modern subject coverage...useful to generalists as well as experts....Recommended for large public and academic libraries, and special libraries emphasizing physics and engineering." — *Choice*

"Important....This encyclopedia should be available at every scientific institute." — *Interceram*

"It is really a pleasure to leaf through this book: an excellent layout, all the chapters are well written, and many figures, illustrations, and tables help for an easy understanding." — *Optik*

The hardcover edition of the *Encyclopedia of Applied Physics* has become a standard reference for physicists, engineers, and scientists in such diverse fields as electronics, communications, computers, aerospace, medical diagnostics, polymers, physical chemistry, radiology, biology, and geophysics.

The new Classic Softcover Edition makes this essential reference accessible—and affordable—to all readers and libraries. Be sure to take advantage of the special introductory offer, available only for a limited time!

Let's dispel some common *Letopisi* myths:

It's a contagious and incurable skin disease, right?
Actually no, it's Russian national bibliography.

But don't I have to read Russian?
Not at http://biblio.ebiblioteka.ru:
- subject headings in English
- LC-style Romanization

Isn't it for Slavic studies types?
And Science. And Technology.
And Medicine. And Agriculture.
And Music. And Arts. And on and on...

900,000 cites since 1998

Don't I need shelves of bound editions?
Not anymore: browse them all at once.

Learn more about the Universal Database™ of Russian National Bibliography: contact your East View representative at info@eastview.com

Web subscriptions less than the combined cost of print, myths optional.

Announcing a Major Publishing Event in September 2004

Oxford Dictionary of National Biography

in association with the British Academy

Special Prepublication Offer
SAVE $1,900!

and get a FREE year of online access!
(Approx. value $3,995)

BRIAN HARRISON, Editor-in-Chief
Professor of Modern British History, University of Oxford

Over a twelve-year period a distinguished supervisory committee from the University of Oxford, with a grant from the British Academy, has coordinated the work of 10,000 specialists worldwide to recreate one of the great English reference works. The result is the Oxford Dictionary of National Biography—a collection of 50,000 newly written biographies of men and women who have shaped all aspects of the British past, from the earliest times to the end of the year 2000. The stories of these lives—told in substantial, authoritative, and readable articles—will be published simultaneously in 60 print volumes and online in September 2004.

Oxford DNB Online will provide access to the full text of the print version with extensive search and cross-reference options, external links, updates, and much more.

OXFORD DICTIONARY OF NATIONAL BIOGRAPHY

The Federal Government has budgeted $847 million for Nanotechnology in 2004. You'll only have to budget $199.

Springer Handbook of Nanotechnology

BHARAT BHUSHAN, Ohio State University, Columbus, OH (Editor)

With the U.S. Federal Government budgeting $847 million for Nanotechnology research in 2004, and global revenues expected to reach $1 trillion within ten years, Nanotechnology is delivering on its promise to transform many fundamental aspects of industry and society. The Springer Handbook of Nanotechnology offers authoritative coverage of the broadest conceivable range of topics in Nanotechnology, including basic concepts, theory, materials, properties, and fabrication. The Handbook's definitiveness is guaranteed by an international team of more than 90 authors, including Nobel Laureate Gerd K. Binnig. Over 900 two-color illustrations and tables summarize concepts and techniques. A fully searchable CD-ROM allows quick access to the latest critically reviewed data.

KEY TOPICS COVERED:
- Nanostructures
- Micro/Nanofabrication
- MEMS/NEMS Materials and Devices
- Nanomechanics
- Materials Science
- Reliability Engineering
- Scanning Probe and Force Microscopies
- Nanotribology
- Nanorheology
- Biological Nanotechnology
- Therapeutic Nanodevices
- Molecular Technology
- Industrial Applications
- Micro/Nanodevice Reliability
- Social and Ethical Implications

FEBRUARY 2004 / 1,300 PP., 971 2-COLOR ILLUS., 71 TABLES / HARDCOVER WITH CD-ROM $199.00 / ISBN 3-540-01218-4
Introducing the definitive, all-in-one Handbook on Nanotechnology

Detailed Illustrations and Diagrams Present Concepts and Techniques

8.2 Experimental Results and Discussion

25.1 Experimental Techniques

Thumb Index Allows Easy Navigation

25.2 Mechanical Properties of Nanostructures

Individual Chapter Indexes Allow Easy Cross-Referencing

Tables and Bar Charts Summarize Critically Reviewed Data

Fully Searchable CD-ROM Ensures Quick Access to Data

"Professor Bhushan has harnessed his own knowledge and experience, gained in several industries and universities, and has assembled about 100 internationally recognized authors from three continents to write more than 40 chapters. The authors come from both academia and industry... [This book] is a timely addition to the literature on nanotechnology, which I anticipate will stimulate further interest in this important new field and serve as an invaluable resource to members of the international scientific and industrial community."

—Neal Lane, University Professor, Rice University. Formerly, Special Assistant to President Clinton and Director of the National Science Foundation

Scitation™

A New Name and New Features
for AIP's Online Platform

The American Institute of Physics has retooled – and has relaunched – its Web hosting service. Known since 1997 as Online Journal Publishing Service (OJPS), the new name is Scitation™. Log on to www.scitation.org and you'll find that the service has changed in more than name only. We've greatly upgraded our capabilities and incorporated a number of powerful new features – including the ability to download citations within articles to popular citation managers in a variety of formats.

What Features Will Be Available in 2004?

In addition to the many valuable features that users have come to expect, here are just a few of the enhancements planned for Scitation in 2004 – all with the researcher in mind:

> **Citation Manager**... This feature will allow easy download of properly formatted reference citations of any article on Scitation.

> **Author Quick Search**... Author names throughout Scitation will be clickable, allowing researchers to execute a fast search for other articles by that author.

> **Fast Issue Search**... Every table of contents on Scitation will feature a link enabling a quick search of that issue.

> **E-mail Notification Management**... Users receiving table of contents alerts will be able to manage them right from their computers.

> **Stored Searches**... This helps researchers avoid re-keying the same long string of terms each time they wish to conduct the same search.

> **Article Extras**... Dynamic links will be available to other articles that may be of interest when following a specific thread of research at the abstract level.

A Special Benefit for Article Collection Users

With the release of Scitation, we've also enhanced the users ability to manage research collections. MyArticles, part of the Scitation Toolbox, still allows users to collect groups of favorite or useful articles. Now they can do even more with these personal collections, including sharing article collections with colleagues and enjoying easier management of multiple collections.

Along with MyArticles, two additional new features will allow users to further personalize Scitation for their own use. These are:

> **MyPublications**... This feature will offer quick access to the journals a user needs to access frequently. A user can add journals to MyPublications from the Scitation Browse Publications areas and can easily delete journals when no longer needed.

> **MySubscriptions**... Here users will find a convenient list of all Scitation publications to which a user has access through either personal or institutional subscriptions. It is automatically updated whenever new subscriptions are added or when subscriptions expire.

Now that you've read about the new features Scitation has to offer, why not check them out on our Website? Visit www.scitation.org today.

CHILDREN

Breaking Free, Starting Over
Parenting in the Aftermath of Family Violence
By Christina M. Dalpiaz
"[Dalpiaz] needs to be listened to and heeded." —Betty J. Wytias, Colorado Attorney General's Office
Dalpiaz shows how a caring and thoughtful parent can recognize the devastation of family violence and help children recover.
2004 • 224 PAGES • 0-275-98167-3 • $39.95

Media Violence and Children
A Complete Guide for Parents and Professionals
Edited by Douglas A. Gentile
"One of those rare books which has the potential to change our culture." —Paul Simon, Public Policy Institute
Experts present a broad range of approaches and findings to confirm that media violence has profoundly negative effects on children.
2003 • 344 PAGES • 0-275-97956-3 • $49.95

High Schools in Crisis
What Every Parent Should Know
By Ellen HalI and Richard Handley
"[The authors] make a compelling link between educating the whole child and providing the means to mold a just and democratic society." —Vincent Brevetti, Humanities Preparatory Academy, New York City
Practical techniques, procedures, and core values are proposed to make high school a safe learning environment once again.
2004 • 256 PAGES • 0-275-98198-3 • $39.95

Helping Children Cope with the Death of a Parent
A Guide for the First Year
By Paddy Greenwall Lewis and Jessica G. Lippman
Contemporary Psychology
"[A] beautiful, moving, and important book." —Bertram J. Kohler, The University of Chicago
Organized around a timeline of the first year of mourning, this warm and practical guide shows how to help children cope.
2004 • 182 PAGES • 0-275-98097-9 • $34.99

New Online with Bound Volume Format...

Applied Mechanics Reviews

Editor: Arthur W. Leissa, Colorado State University

Applied Mechanics Reviews (AMR) continues as an online journal. Subscribers can view the full text of the journal online or download pages to print; but now, as part of their subscription, they also receive a bound volume of the year's review articles. AMR online includes retrospectives, review articles, and book reviews. The review articles organize, summarize, and clarify knowledge as it currently exists in the technical literature. AMR articles reflect upon areas of research, including theoretical, computational, and experimental aspects, as well as theoretical modeling, methods of analysis, and instrumentation.

remember these features

- Retrospectives by authors looking back on their work and areas of interest
- Review articles by authors from around the world on myriad applied mechanics topics
- AMR's scope encompasses mechanics topics across the engineering sciences spectrum, such as fluid and solid mechanics, heat transfer, and dynamics and vibration
- Book reviews in every issue — no other journal reviews as many books

rates

Bi-monthly Online Review Journal
ISSN: 0003-6900
One year subscription (includes year-end bound volume)
Domestic: $535
International Air Service: $595

Bi-monthly Online Review Journal and Abstracts Database Access
One year subscription (includes year-end bound volume)
Domestic: $790
International Air Service: $850

Access to the AMR Journal Article Abstracts Database is now available separately or in combination with Applied Mechanics Reviews.

AMR Journal Article Abstracts Database

This online database (now with 275,000 abstracts) offers electronic search capability of the full archive of bibliographic citations dating back to 1989. All abstracts are classified by research area, with extensive cross-indexing. Authors' mail and email addresses are included. Publisher information for all journals is provided and is easily accessible with links from the journal abbreviation in the abstract citation to the publisher information on the Journals Reference web page.

Quick as a Click!

That's how easy it is to give your patrons online access to Endocrine Society Journals

- Endocrinology
- Endocrine Reviews
- The Journal of Clinical Endocrinology & Metabolism
- Molecular Endocrinology

Did you know that institutional subscriptions to The Endocrine Society's four journals now include unlimited access to online versions for users campus-wide?

To activate your online journal access, simply go to www.endo-society.org/journals.institution_instructions.cfm

It's a quick way to provide your patrons with a valuable service...and leave all the clicking up to them!

Against the Grain / December 2003 - January 2004
July 20, 1969
One small step for man. One giant mishap for Barney Google.

On this historic day, newspapers were focused on the impending moon landing. They discussed the obstacles and—interestingly enough—were still weighing the probability of failure. Further down page one, The New York Times ran a breaking story on a young woman's tragic death in Senator Kennedy's car on Chappaquiddick Island. The Washington Post also featured a six-month report card of Nixon's presidency, and a Barney Google cartoon depicting Barney teeing off toward the wrong green.

Welcome to a snapshot of history that puts the momentous in the context of the everyday. The ProQuest Historical Newspapers™ program offers easy online access to more than 150 years of newspaper content, fully digitized from cover to cover, including The New York Times, The Wall Street Journal, The Washington Post, The Christian Science Monitor, The Los Angeles Times, and The Chicago Tribune, giving you a breadth and depth of history previously unattainable.
