Tracking down obscure publishers. Haggling on price. That's been the time-consuming reality of building a digital reference collection—until now.

With Blackwell's, even choosing titles is easier. Our unmatched publisher relationships give you access to the finest digital reference titles, all in one convenient source. And after you make your selections, we handle the rest—including initiating trials and access, helping you with complex pricing and licensing issues, processing orders, and providing renewal alerts and updates.

Not many library schools offer Waiting on Hold 101. So let Blackwell's get you back to doing the things you really need to do.

For more information on how you can add Digital Reference from Blackwell's to your collection either email us at digital@blackwell.com, call your Regional Sales Manager, or contact Jay Henry, our North American Digital Reference Sales Manager at 877.270.4366. IEEE is VALUE.

Beth depends on IEEE publications to bring her organization the latest technology research.

Not only do IEEE publications provide Beth with over 1 million online documents – including top-cited journals, cutting-edge conferences and vital standards – they do it for a reasonable price.

Research shows that IEEE journals are just 58% of the average journal price in the field on a page-for-page basis. That’s why 81% of IEEE customers are satisfied or highly satisfied with the value of IEEE content. And why Beth has the reputation for spending her budget so wisely.

To Beth, IEEE is value. Discover what IEEE can be for you.

The Oxford Encyclopedia of British Literature

Five Volumes
Edited by: DAVID SCOTT KASTAN, Columbia University

From folk ballads to film scripts to odes, this new five-volume encyclopedia covers the entire history of British literature from the seventh century to the present, focusing on the writers and the major texts of what are now the United Kingdom and the Republic of Ireland. In five hundred substantial essays written by major scholars, the Encyclopedia includes biographies of nearly four hundred individual authors and a hundred topical essays with detailed analyses of particular themes, movements, genres, and institutions whose impact upon the writing or the reading of literature was significant.

An ideal companion to The Oxford Encyclopedia of American Literature, this set will prove invaluable for students, scholars, and general readers.

Never underestimate the importance of a librarian.

Okay, chances are you won't actually find a librarian firing a high-energy laser. But librarians do play a vital role on any engineering team, enabling research breakthroughs and real-time solutions. Whether you're selecting information for research communities or decision support for professionals, Elsevier provides access to the highest quality scientific, technical and health information in multiple media, including innovative electronic products like ScienceDirect® and MD Consult. After all, getting the right information into the right hands at the right time is critical to the success of any experiment. Building Insights. Breaking Boundaries.
How much did we spend on women’s studies last year?

How do I see a list of the titles we purchased with that special grant money?

If we could get the number of volumes shipped against our standing orders and average price, we could project those costs for next year.

United States at War: Understanding Conflict and Society

Covering all major U.S.-involved conflicts from the nation's founding to the present, United States at War: Understanding Conflict and Society will serve as one of the essential resources for the study of American History for years to come.

Developed by a team of military historians and expert educators, the database provides access to authoritative content, pertinent primary sources, and a wealth of historical insight and analysis on the significant themes and consequences of some of the most important periods in U.S. history.

A Central Source for Research, Development, and Application Information on all Aspects of Dynamic Systems...

Journal of Computational and Nonlinear Dynamics

Serving the analytic, nonlinear, and computational dynamics communities, the Journal of Computational and Nonlinear Dynamics is a central forum where representatives of all schools of thought can share techniques, experiences, and advances to increase their versatility and effectiveness in solving problems in electro-mechanical systems, complex fluid flows, fluid-structure interactions, biological and molecular systems, chemical reaction dynamics, complex material behavior, and more.

Addressing researchers, practicing engineers, and educators, it explores the full range of analytical methods, modern nonlinear analysis techniques, computational methods, and their applications. It serves as a venue for sharing radically different approaches to the treatment of cutting-edge problems in molecular dynamic modeling, multiscale dynamics systems, protein folding, biomechanical systems, fluid-structure interactions, large-scale space-mission modeling, simulation and control, and other research areas.

Contents, Vol. 1, No. 1

Computational Dynamics of Multibody Systems
Peter Eberhard and Werner Schiehlen, University of Stuttgart

The Dynamic Response of Tuned Impact Absorbers for Rotating Flexible Structures
Steven W. Shaw, Michigan State University and Christophe Pierre, University of Michigan

Effect of the Linearization of the Kinematic Equations in Railroad Vehicle System Dynamics
Ahmed A. Shabana, Mahmoud Tobaa, University of Illinois at Chicago, Brian Marquis, Volpe National Transportation Systems Center, and Magdy El-Sibaie, Federal Railroad Administration

Global Dynamics of an Autoparametric System With Multiple Pendulums
Ashwin Vyas and Anil Bajaj, Purdue University

Dynamic Modeling and Experimental Testing of a Piano Action Mechanism
Martin Hirschkom, John J. McPhee, and Stephen Birkett, University of Waterloo

Response Scenario and Non-Smooth Features in the Nonlinear Dynamics of an Impacting Inverted Pendulum
Stefano Lenci, Lucio Demeio, and Milena Petrizi, Polytechnic University of Marche in Ancona

Control of Impact Microactuators for Precise Positioning
Xiaopeng Zhao and Harry Dankowicz, Virginia Polytechnic Institute and State University

Stability Analysis of Complex Multibody Systems
Oliver A. Bauchau and Jielong Wang, Georgia Institute of Technology

Verification of Absolute Nodal Coordinate Formulations in Flexible Multi-Body Dynamics via Physical Experiments of Large Deformation Problems
Wan-Suk Yoo, Oleg Dmitrochenko, Pusan National University and Dmitri Pogorelov, Bynens State Technical University

Dynamics and Stability of a Two-Degree-of-Freedom Oscillator With an Elastic Stop
Maëlevine Pascal, Université d’Evry Val d’Essonne

The definitive professional resource on information security.

The three-volume Handbook of Information Security covers established and cutting-edge theory and innovation in information security. Featuring more than 200 articles from more than 200 experts in the field, it covers virtually every vital security topic for managers and IT professionals. In-depth, up-to-date, and comprehensive, this is an ideal resource for professionals in a wide range of industries, including government, military, education, law enforcement, and financial services.

"An impressive effort worthy of every information security professional and researcher. A must-have reference!"
—DONN B. PARKER, CISSP, author and former senior information systems management consultant

"An astonishing success. This book is a must-have for anyone practicing or researching any aspect of computer security."
—AVIEL D. RUIN, Professor of Computer Science, Johns Hopkins University Technical Director, Information Security Institute President, Independent Security Evaluators LLC

New online subscription for AIP Conference Proceedings
AIP created a new subscription in 2005 that provides online-only access to our Conference Proceedings series. Volumes are available from January 2000 forward – more than 275 volumes – and the cost for all institutions is $4,950. This offers significant savings off the price of a print standing order and the price will remain unchanged for 2006. Online access is still available to standing order customers at no charge. Get a free 60-day trial – e-mail corr@aip.org!

Get all AIP content with AIP Archival Plus package
AIP has expanded its discounted package subscription offerings with the introduction of AIP Archival Plus. This package includes all the content of the AIP Archival combination, complete backfiles as available, and the following titles: AIP Conference Proceedings (online only), Geochemical Transactions (online only), Journal of Physical and Chemical Reference Data, and Low Temperature Physics.

2006 prices now available — visit http://librarians.aip.org

License a prestigious collection of science and engineering journals
AIP can tailor a consortia package to your needs, allowing you to provide electronic access to an unlimited number of users – regardless of their physical location. Many of the more than 75 journals in our collection are among the most highly cited in their field. Societies participating in AIP's consortia program include APS, ASME, OSA ASA, AVS, AAPT, AAPM, SoR, ICDD, SEG, and ECS. For further information, e-mail mdrago@aip.org.

AIP's Scitation Usage Report Service is now COUNTER compliant
AIP's Scitation Usage Report Service is now fully COUNTER compliant. All registered users are notified each month as new reports are published; it is no longer necessary for users to specify the start and end date of each report. Usage data for each month is available in every report, and a running total for the year is provided. In addition, subscribers will be able to download reports in a variety of file formats. For more information and a list of participating societies, visit www.scitationreports.org.

HIGH QUALITY. HIGH IMPACT.
Perspectives on Prohibition weren’t just black and white. They came in every shade.

**Absolute Law Enforcement**

Col. R. E. Frith, Federal prohibition administrator, has promised Los Angeles in emphatic language that it will see absolute enforcement of the prohibition laws on New Year's Eve, or as complete enforcement as a small army of determined officers can make it.

It is a big order. It is violating nobody's confidence to add that this is the first time

Los Angeles Times; Dec. 28, 1925

**Call for Sanity!**

An attempt to repeal the 18th amendment will not help the cause of law enforcement, or of simplifying the prohibition statutes in the interest of better morals through a more unified respect for the law.

Washington correspondents say that Representative Dyer, of Missouri, will introduce a repeal

The Atlanta Constitution; Dec. 13, 1925
"I think I've finally gotten the serials list back into shape."

"How about the standing orders?"

"They've always been with Midwest. Never had a problem there!"

For over forty years, Midwest Library Service has been quietly relieving librarians of the problems often associated with book and standing order purchasing.

Our Continuation & Standing Order Service is based on intensive, personal contact with thousands of publishers to ensure prompt and complete fulfillment on series, sets, annuals, yearbooks, and proceedings. It is our goal to take the guesswork and anxiety out of continuations and standing order fulfillment through timely shipments and thorough reporting.

Using sophisticated tracking programs, Midwest monitors pre-publication information and shipping schedules instead of relying on publisher-based systems. We will customize the fulfillment frequencies on annuals and yearbooks on a title-by-title basis. In the case of a delayed or missing edition, we contact the publisher by telephone to ensure fulfillment. Of course, you have access to historical fill data whenever needed. And to make matters even easier for you, we will assist in the seamless transfer of standing orders placed previously with publishers or other booksellers.

In an unstable time of publisher upheavals and understaffed, harried libraries, isn't it good to have a vendor you can count on?

If you are not completely satisfied with your current vendor, look to Midwest for all your book buying needs.
