C SH Protocols to Launch in Spring 2006

- A new, online source of trusted techniques in molecular and cellular biology
- Contains new and classic protocols presented step-by-step with cautions and troubleshooting
- Frequently updated and annotated
- Interactive, customizable, and fully searchable

Cold Spring Harbor Laboratory is renowned for its teaching of biomedical research techniques. For decades, participants in its celebrated, hands-on courses and users of its laboratory manuals have gained access to the most authoritative and reliable methods in molecular and cellular biology. Now that access is moving online.

Launching in June 2006, Cold Spring Harbor Protocols will be a rich, interactive source of new and classic research techniques. The site will be fully searchable, with many tools that can be customized by users including topic-based alerting and personal folders. Through a web-based editorial process, users will also have the opportunity to add refereed comments to each protocol. Links in the online protocols will offer additional resources, and step-by-step instructions will print out in a convenient form, complete with materials, cautions, and troubleshooting advice. Each protocol will be citable and presented and edited in the style that has made Molecular Cloning, Antibodies, Cells, and many other CSH manuals essential to the work of scientists worldwide. The collection of more than 900 protocols released in 2006 will be continuously expanded, updated, and annotated by the originators and users of the techniques.

CSH Protocols is created by Cold Spring Harbor Laboratory Press in association with HighWire Press of Stanford University.

Jobbers serving libraries with any book in print.
For over forty years, Midwest Library Service has been quietly relieving librarians of the problems often associated with book and standing order purchasing.

Our Continuation & Standing Order Service is based on intensive, personal contact with thousands of publishers to ensure prompt and complete fulfillment on series, sets, annuals, yearbooks, and proceedings. It is our goal to take the guesswork and anxiety out of continuations and standing order fulfillment through timely shipments and thorough reporting.

Using sophisticated tracking programs, Midwest monitors pre-publication information and shipping schedules instead of relying on publisher-based systems. We will customize the fulfillment frequencies on annuals and yearbooks on a title-by-title basis. In the case of a delayed or missing edition, we contact the publisher by telephone to ensure fulfillment. Of course, you have access to historical fill data whenever needed. And to make matters even easier for you, we will assist in the seamless transfer of standing orders placed previously with publishers or other booksellers.

In an unstable time of publisher upheavals and understaffed, harried libraries, isn't it good to have a vendor you can count on?

If you are not completely satisfied with your current vendor, look to Midwest for all your book buying needs.
