The world's most influential cancer research

The Journals of the AACR

Quality
Edited by some of the most respected researchers in the field, the journals of the American Association for Cancer Research serve as industry leaders by providing authoritative, peer-reviewed original cancer research that is of the highest quality. Our esteemed general journal Cancer Research, for example, had over 103,000 citations in 2003, more than twice as many citations as any other journal in oncology.

Site License Options
Whether you are a medical or university library, cancer center or pharmaceutical company, the AACR has developed site license options that will help fit your requirements to provide quality information that is easily accessible for your research community. To learn more about site license opportunities, check out the “information for librarians” section of our journals website www.aacrjournals.org or contact us directly at marketing@aacr.org

Print Options
We offer a 5-Journal Discounted Package for access to all AACR Journals. This package includes Cancer Research, Clinical Cancer Research, Molecular Cancer Research, Molecular Cancer Therapeutics, and Cancer Epidemiology, Biomarkers & Prevention. Together, the five journals publish over 22,000 pages annually.

The Combo Package offers access to our two twice-monthly journals, Cancer Research and Clinical Cancer Research. These journals serve as a vital forum in the field of cancer research through the quality of their content. Both journals are listed among the top 15 oncology journals worldwide as ranked by impact factor.

The International Union of Physiological Sciences (IUPS) and The American Physiological Society (APS) announced some major and exciting changes to *News in Physiological Sciences* (NIPS) in August of 2004. These changes will transform NIPS into a more state-of-the-art, reader-friendly publication.

You can expect the following changes that will surely capture the many aspects of physiology important to your research:

**New Name and New Look**

*News in Physiological Sciences* was renamed *Physiology*. Both the cover and the inside pages have a new, state-of-the-art look.

**New ISSN**

As of the August 2004 issue, the journal has a new ISSN. The new ISSN is 1548-9213, but it is a continuation of NIPS, volume 19 (former ISSN 0366-1714).

**New Features**

There are a number of new features, such as culled abstracts from other important papers, short articles on emerging topics and on emerging technologies, and reviews of websites and occasional historical perspectives.

**Better use of Illustrations and Color**

The figures that appear in the articles will be drawn professionally to give the entire journal a polished and exciting look. There will be better use of color throughout.

**Best Authors, Excellent Editing, and Improved Graphics**

Through the efforts of the best authors, excellent editing, and improved graphics, the main goal of *Physiology* will still be to keep physiologists and others up-to-date on topics they may not follow closely. This journal will continue to report and describe trends, discoveries and events of interest to scientists and others working in the field of physiology. The main body of *Physiology* will still contain short review-type articles that have been the strength of NIPS.

IEEE is PATENTS.

The most valuable assets in Lee's company are patents based on IEEE-published research.

IEEE science is the foundation for today’s inventions and tomorrow’s technology innovations. Patents cite IEEE research three times more than any other publisher – and referencing to IEEE papers has increased 267% in the last decade.

Patents mean more successful products and higher sales. Studies show that patents and investment in R&D are key factors in a company’s profitability. Access to IEEE publications can help your company develop new patents, compete in the global marketplace and become a leader in your field.

To Lee, IEEE is patents. Discover what IEEE can be for you.

AMERICAN WAR REPORTING

EIGHT VOLUMES • DAVID A. COPELAND, GENERAL EDITOR

Brooke Barnett, W. Joseph Campbell, Russell L. Cook, Ross F. Collins, David A. Copeland,
John M. Coward, Douglass K. Daniel, Ralph Frasca, Carol Sue Hamphrey, Shannon E. Martin,
Debra Reddin van Tuyl, Amy Reynolds, Donald L. Shaw, and Patrick Washburn

Read history being reported as it was being made. Offering over 2,000 newspaper
and magazine articles and radio and television transcripts, The Greenwood Library of
American War Reporting is the definitive reference source on American war journalism,
covering every major and most minor conflicts over the past 250 years. From the French and Indian War to the War on Terror, the media have been “the first line of history” by offering immediate, raw, and sometimes confused reports about life-and-death struggles on the front lines to the information-hungry home front.

An extensive reader’s guide to documents groups the annotated primary documents into thematic groupings, making it simple to locate reports on specific battles, people, treaties, topics, and the like.

A New Book Series Focuses on Management Information Systems

Advances in Management Information Systems
Series Editor: Vladimir Zwass, Fairleigh Dickinson University

This new book series is intended to become a lasting record of both the knowledge about organizational information systems, and of the methods for creating new knowledge in this domain. Continuing the tradition of Journal of Management Information Systems, Advances in Management Information Systems interprets the scope of the IS field broadly. Over several decades the field has evolved a rich set of indigenous conceptualizations, methodologies, and literature, and the series aims to represent this rich diversity. It also seeks to encompass the emerging and maturing areas where the field is a major contributor to knowledge, such as electronic commerce, knowledge management, economics of new technologies, multimedia informational retrieval, and others.

Human Rights and the World's Major Religions

The major faiths of the world have grappled with issues relating to human rights for centuries. Human Rights and the World's Major Religions—an important five volume set—examines human rights within the context of Judaism, Christianity, Islam, Hinduism, and Buddhism from ancient times to the present.

Authors track the development of ideas, opinions and issues, providing readers with primary sources, biographical sketches, annotated bibliographies and more to promote a fuller understanding of how each faith views human rights.

John Wiley & Sons, Inc. is pleased to announce that Gardner's Chemical Synonyms and Trade Names and its related references are now published by Wiley. The advertisement that appeared in the January issue of Against the Grain announced in error that Wiley had acquired Ashgate Publishing Company. In fact, Wiley has acquired just the chemistry and pharmaceutical references featured in the advertisement below. John Wiley & Sons, Inc. would like to apologize for any confusion the previous advertisement may have caused.

United States at War: Understanding Conflict and Society

In 2005, ABC-CLIO plans to release a new database on the study of war and society. The database will look at 14 American-involved wars and allow users to compare the military, economic, and social aspects of each conflict. The database will not only reflect current opinions about the U.S. in conflict but will also show how those opinions change over time.

Sign up for a free preview by visiting ABC-CLIO.COM/ACADEMIC and clicking on “join our mailing list.”
Business student Laurie Francis wanted to go deeper into a research topic. We were already three steps ahead of her.

ProQuest introduces Curriculum Match Factor, a new way of thinking about how our content matches your curriculum. It reflects this reality: ABI/INFORM® provides the content that corresponds with the topics covered in business courses and textbooks throughout the world. The content comes from the most-respected, most-cited journals and other sources worldwide. And our new ProQuest® Smart Search technology helps Laurie find exactly what she needs, in a matter of moments. ABI/INFORM has always been about content. But it's also about curriculum and the content that matches it perfectly. ABI/INFORM. It's what you're teaching. For more information, visit www.iil.proquest.com.
"I think I've finally gotten the serials list back into shape."

"How about the standing orders?"

"They've always been with Midwest. Never had a problem there!"

For over forty years, Midwest Library Service has been quietly relieving librarians of the problems often associated with book and standing order purchasing.

Our Continuation & Standing Order Service is based on intensive, personal contact with thousands of publishers to ensure prompt and complete fulfillment on series, sets, annuals, yearbooks, and proceedings. It is our goal to take the guesswork and anxiety out of continuations and standing order fulfillment through timely shipments and thorough reporting.

Using sophisticated tracking programs, Midwest monitors pre-publication information and shipping schedules instead of relying on publisher-based systems. We will customize the fulfillment frequencies on annuals and yearbooks on a title-by-title basis. In the case of a delayed or missing edition, we contact the publisher by telephone to ensure fulfillment. Of course, you have access to historical fill data whenever needed. And to make matters even easier for you, we will assist in the seamless transfer of standing orders placed previously with publishers or other booksellers.

In an unstable time of publisher upheavals and understaffed, harried libraries, isn't it good to have a vendor you can count on?

If you are not completely satisfied with your current vendor, look to Midwest for all your book buying needs.

For more information, contact a Standing Order specialist at 800-325-8833 or standingorders@midwestls.com.
