Because negotiating with 32 different publishers is NOT why you got an MLS.

Blackwell's Digital Reference

Tracking down obscure publishers. Haggling on price. That's been the time-consuming reality of building a digital reference collection—until now.

With Blackwell's, even choosing titles is easier. Our unmatched publisher relationships give you access to the finest digital reference titles, all in one convenient source. And after you make your selections, we handle the rest—including initiating trials and access, helping you with complex pricing and licensing issues, processing orders, and providing renewal alerts and updates.

Not many library schools offer Waiting on Hold 101. So let Blackwell's get you back to doing the things you really need to do.

Pick up our latest, free Digital Reference Catalog at booth #3804 at ALA in Chicago. For more information on how you can add Digital Reference from Blackwell's to your collection, either email us at digital@blackwell.com, call your Regional Sales Manager, or contact Jay Henry, our North American Digital Reference Sales Manager at 877.270.4366.

The Journals of the AACR

Quality
Edited by some of the most respected researchers in the field, the journals of the American Association for Cancer Research serve as industry leaders by providing authoritative, peer-reviewed original cancer research that is of the highest quality. Our esteemed general journal Cancer Research, for example, had over 103,000 citations in 2003, more than twice as many citations as any other journal in oncology.

Site License Options
Whether you are a medical or university library, cancer center or pharmaceutical company, the AACR has developed site license options that will help fit your requirements to provide quality information that is easily accessible for your research community. To learn more about site license opportunities, check out the “information for librarians” section of our journals website www.aacrjournals.org or contact us directly at marketing@aacr.org

Print Options
We offer a 5-Journal Discounted Package for access to all AACR Journals. This package includes Cancer Research, Clinical Cancer Research, Molecular Cancer Research, Molecular Cancer Therapeutics, and Cancer Epidemiology, Biomarkers & Prevention. Together, the five journals publish over 22,000 pages annually.

The Combo Package offers access to our two twice-monthly journals, Cancer Research and Clinical Cancer Research. These journals serve as a vital forum in the field of cancer research through the quality of their content. Both journals are listed among the top 15 oncology journals worldwide as ranked by impact factor.

Subscribe Today!
To subscribe, contact the AACR at telephone: 215-440-9300 (members) 800-633-4931 or 205-995-1567 (nonmembers and institutions). Fax: 205-995-1588. E-mail: aacrsubs@ebsco.com. Website: www.aacrjournals.org

The International Union of Physiological Sciences (IUPS) and the American Physiological Society (APS) announced some major and exciting changes to *News in Physiological Sciences (NIPS)* in August of 2004. These changes will transform NIPS into a more state-of-the-art, reader-friendly publication.

**You can expect the following changes** that will surely capture the many aspects of physiology important to your research:

**New Name and New Look**
*News in Physiological Sciences* was renamed *Physiology*. Both the cover and the inside pages have a new, state-of-the-art look.

**New ISSN**
As of the August 2004 issue, the journal has a new ISSN. The new ISSN is 1548-9213, but it is a continuation of NIPS, volume 19 (former ISSN 0886-1714).

**New Features**
There are a number of new features, such as culled abstracts from other important papers, short articles on emerging topics and on emerging technologies, and reviews of web sites and occasional historical perspectives.

**Better use of Illustrations and Color**
The figures that appear in the articles will be drawn professionally to give the entire journal a polished and exciting look. There will be better use of color throughout.

**Best Authors, Excellent Editing, and Improved Graphics**
Through the efforts of the best authors, excellent editing, and improved graphics, the main goal of *Physiology* will still be to keep physiologists and others up-to-date on topics they may not follow closely. This journal will continue to report and describe trends, discoveries and events of interest to scientists and others working in the field of physiology. The main body of *Physiology* will still contain short review-type articles that have been the strength of NIPS.

Bring Some Fun Into the Library.

Popular fiction has a place in every library. It helps create a social atmosphere that online learning can’t provide. Leisure reading builds a sense of community. It is a shared activity, reinforcing scholarship and bringing students together.

And it’s fun. Commercial bestsellers offer a chuckle in the middle of serious research and competitive scholarship. These books are light-hearted. Exciting. Sometimes silly. Always entertaining. Easily forgotten. You know... fun.

Lighten Up.

Never underestimate the importance of a librarian.

Okay, chances are you won’t actually find a librarian on the ocean’s floor. But librarians do play a vital role on any research team, enabling breakthroughs and real-time solutions. Whether you’re selecting information for research communities or decision support for professionals, Elsevier provides access to the highest quality scientific, technical and health information in multiple media, including innovative electronic products like ScienceDirect® and MD Consult. After all, getting the right information into the right hands at the right time is critical to the success of any exploration.

Cato: A Tragedy, and Selected Essays

By Joseph Addison
Edited by Christine Dunn Henderson and Mark E. Yellin
Foreword by Forrest McDonald

_Cato: A Tragedy_ is the account of the final hours of Marcus Porcius Cato (95–46 B.C.), a Stoic whose deeds, rhetoric, and resistance to the tyranny of Caesar made him an icon of republicanism, virtue, and liberty. Cato opposed Caesar's tyrannical assertion of power and took arms against him. As Caesar's forces closed in, Cato chose to take his own life, preferring death by his own hand to a life of submission to Caesar.

Liberty Fund's new edition of _Cato: A Tragedy, and Selected Essays_ brings together Joseph Addison's dramatic masterpiece along with a selection of his essays that develop key themes in the play.

The Works and Correspondence of David Ricardo

_In Eleven Volumes_

By David Ricardo
Edited by Piero Sraffa and with the Collaboration of M. H. Dobb

This eleven-volume set of _The Works and Correspondence of David Ricardo_ contains Ricardo's published and unpublished writings, and provides great insight into the early era of political economics by chronicling Ricardo's significant contributions to modern economics. The edition has been widely acclaimed as the best example, prior to the Glasgow edition of Adam Smith's writings, of scholarly editing applied to the work of an economist. It contains a general index and includes four volumes dedicated to his personal correspondence. Complete sets of the edition have not been available for many years.

The Rights of War and Peace

_In Three Volumes_

By Hugo Grotius
Edited and with an Introduction by Richard Tuck

Since the nineteenth century, Hugo Grotius's _Rights of War and Peace_ has commonly been seen as the classic work in modern public international law, laying the foundation for a universal code of law. However, in the seventeenth century and during the Enlightenment, the work was considered a major work of political theory that strongly defended the rights of individual agents—states as well as private persons—to use their power to secure themselves and their property.
The definitive professional resource on information security.

The three-volume *Handbook of Information Security* covers established and cutting-edge theory and innovation in information security. Featuring more than 200 articles from more than 200 experts in the field, it covers virtually every vital security topic for managers and IT professionals. In-depth, up-to-date, and comprehensive, this is an ideal resource for professionals in a wide range of industries, including government, military, education, law enforcement, and financial services.

"An impressive effort worthy of every information security professional and researcher. A must-have reference!"
—DONN B. PARKER, CISSP, author and former senior information systems management consultant

"An astonishing success. This book is a must-have for anyone practicing or researching any aspect of computer security."
—AVI D. RUBIN, Professor of Computer Science, Johns Hopkins University Technical Director, Information Security Institute President, Independent Security Evaluators LLC

ABC-CLIO Celebrates 50 Years

“The standard, preeminent indexes available in historical research. Period.” - NetConnect

ADVANCING THE ART AND SCIENCE OF HISTORY REFERENCE

Throughout its history, ABC-CLIO has continued to make strides in providing access to landmark history scholarship. From the publication of the first print issue of Historical Abstracts in 1955 to today's web database of over 1.2 million abstracts, ABC-CLIO has continued to advance the art and science of history reference. It has been and will continue to be our only focus, our pride, and our passion.

In celebration of our 50th anniversary, we are embarking on a multi-year program to upgrade and enhance Historical Abstracts and America: History and Life. Some of the enhancements you can look forward to this summer include the ability to search the databases from your library portal; the addition of search history and search save functions; new online aids for users; and a fresh new look.

These and other planned enhancements, combined with expanded OpenURL compliance and over 225,000 full-text links, make these landmark databases more valuable than ever. Call 1-800-368-6868 today for a free 30-day trial.

Fifty years ago Eric and Inge Boehm, founders of ABC-CLIO, attended the Congress of the International Committee of Historical Sciences in Rome to present Historical Abstracts for the first time. Now used over five million times a year, this landmark publication has become the premier online indexing and abstracting source for history.
The revised bestseller on human factors and ergonomics.

"This book is a valuable source of information for any individual or organization committed to providing competitive, high-quality products and safe, productive work environments."
—JOHN F. SMITH, JR., Chairman, CEO, and President, General Motors
From the Foreword to the Second Edition

This new Third Edition features an international group of contributors representing the world's best thinkers and practitioners, who all provide new, up-to-date coverage of:

- Content preparation for e-business
- Customer-relations management in e-business
- Human factors of appliances design
- And much more!

Coming in September 2005

Journal of Computational and Nonlinear Dynamics

The Journal of Computational and Nonlinear Dynamics will provide rapid dissemination of original research results in theoretical as well as applied computational and nonlinear dynamics. It will serve as a forum for exchange of new ideas and applications in computational and rigid and flexible multi-body system dynamics and all aspects (analytical, numerical and experimental) of dynamics associated with nonlinear systems. In this manner, the material presented will be readily available for the researcher, practitioner, and educator to explore the entire scope of methods and applications.

COVERAGE
- Aerospace applications
- Algorithms and integration methods
- Analytical and symbolic solution techniques
- Bio-mechanical dynamics
- Design and design optimization dynamical analysis and method
- Rigid and flexible-body dynamics
- Impact and contact modeling
- Dynamics of MEMS and NEMS
- Multi-scale dynamics
- Non-smooth dynamics
- Stability and control
- Vehicular dynamics

The ACM Digital Library

The Ultimate Online INFORMATION TECHNOLOGY Resource!

Discover the ACM Digital Library in the ACM Portal, a vast online resource of ACM's computing and information technology publications. Your patrons can enjoy unlimited access to more than 1.2 million pages of full text with archives dating back to the 50's. This unparalleled resource is a must-have for every technology collection!

The ACM Digital Library includes

- Over 30 ACM publications, plus conference proceedings
- 50 years of archives
- Advanced searching capabilities
- 1.2 million pages of downloadable text

Plus over 850,000 bibliographic citations are available in the ACM Guide to Computing Literature

HIGH QUALITY. HIGH IMPACT.
Business student Laurie Francis wanted to go deeper into a research topic. We were already three steps ahead of her.

ProQuest introduces Curriculum Match Factor, a new way of thinking about how our content matches your curriculum. It reflects this reality: ABI/INFORM® provides the content that corresponds with the topics covered in business courses and textbooks throughout the world. The content comes from the most-respected, most-cited journals and other sources worldwide. And our new ProQuest® Smart Search technology helps Laurie find exactly what she needs, in a matter of moments. ABI/INFORM has always been about content. But it's also about curriculum and the content that matches it perfectly. ABI/INFORM. It's what you're teaching. For more information, visit www.il.proquest.com.
For over forty years, Midwest Library Service has been quietly relieving librarians of the problems often associated with book and standing order purchasing.

Our Continuation & Standing Order Service is based on intensive, personal contact with thousands of publishers to ensure prompt and complete fulfillment on series, sets, annuals, yearbooks, and proceedings. It is our goal to take the guesswork and anxiety out of continuations and standing order fulfillment through timely shipments and thorough reporting.

Using sophisticated tracking programs, Midwest monitors pre-publication information and shipping schedules instead of relying on publisher-based systems. We will customize the fulfillment frequencies on annuals and yearbooks on a title-by-title basis. In the case of a delayed or missing edition, we contact the publisher by telephone to ensure fulfillment. Of course, you have access to historical fill data whenever needed. And to make matters even easier for you, we will assist in the seamless transfer of standing orders placed previously with publishers or other booksellers.

In an unstable time of publisher upheavals and understaffed, harried libraries, isn't it good to have a vendor you can count on?

If you are not completely satisfied with your current vendor, look to Midwest for all your book buying needs.

For more information, contact a Standing Order specialist at 800-325-8833 or standingorders@midwestls.com.
