Digitization Projects and Metadata .......1
by Sheila Bair and Pam Cowart What happens when content escapes its container? How will digital assets be preserved? What schema will be used to describe them? What system will house them? Contributors to this issue of Against the Grain emphasize the importance of coordinating with catalogers from the beginning of any digitization initiative.

Planning for Metadata: the Quick Tour ...........................................20
by Jody Perkins — Jody gives a conspectus of the essential matters that planners of a digital project need to take into consideration. Her excellent checklist includes sixteen vital points to consider when evaluating a collection. She discusses metadata design, choosing schemas and standards, and documenting decisions.

Discrete Criteria for Selecting and Comparing Metadata Schemes........28
by Jeffrey Beall — Reflecting further on schema selection, Jeffrey enumerates twelve points of comparison to help one decide which of the many schemas available best suits one’s digital project.

Zen and the Digital Collection
Librarian.............................................32
by James Bradley A pair of case studies discuss the efficacy, for a digital image collection, of CONTENTdm and Dublin Core.

Stealing That Dream Home Design — Copyright— Actual Damages & Disgorgement of Profits by Bruce Strauch — Wayne Galloway set out to build his retirement home but was mad at his architect. Then, he saw the French-country house of his dreams and inquired about a copy of the plans. Given common misconceptions folks have about copyright, the facts are utterly unbelievable.

Questions and Answers .........................57

Copyright Column by Laura Gasaway — Questions and Answers galore! Here's a sample, “How are oral history recordings and transcripts affected by copyright? Once the interviewee is deceased, does the library that holds the recordings and transcripts have any restrictions?” Lolly tells us!
