OSA’s Digital Archive

OSA is pleased to offer a one-time purchase option for perpetual access to the OSA Digital Archive going back to 1917.

The OSA Digital Archive provides pioneering research in optics and photonics from core OSA journals including research published by Nobel Laureates and prestigious members of the physics and engineering communities.

COVERED CONTENT

The content in this archive includes approximately 108,000 articles and conference proceedings from the following OSA Publications:

- **Applied Optics** 1962–2005
- **Journal of the Optical Society of America** 1917–1983
- **Journal of the Optical Society of America A** 1984–2005
- **Journal of the Optical Society of America B** 1984–2005
- **Optics & Photonics News** 1990–2005
- **Optics Express** 1997–2005
- **Optics Letters** 1977–2005
- **Optics News** 1975–1989
- **OSA Conference Proceedings** 1979–2005

Take this opportunity to own this valuable archive for your institution.

Dr. Avram Bar-Cohen is an internationally recognized leader in the development and application of thermal science and engineering to microelectronic and optoelectronic systems. In his current role at the Defense Advanced Projects Agency (DARPA) and through his professional service in IEEE and ASME, he has helped to define and guide the development of thermal packaging science and technology and facilitated the emergence of high reliability consumer electronics, computing platforms, and microwave communication and radar systems. His research and publications, as well as short courses, tutorials, and keynote lectures, on air-cooled card cages and heat sinks, along with direct liquid cooling of microprocessors and RF components, have helped to create the scientific foundation for the thermal management of micro- and nano-electronic components and systems.

Publisher buyouts, takeovers, mergers, and distribution changes all have contributed to an industry-wide dysfunction affecting book order fulfillment. Inadequate fulfillment is especially felt by the librarians who bear ultimate responsibility for meeting patron demand.

At Midwest, we realize that accurate and timely order fulfillment is the benchmark service by which vendors (and librarians) are judged. We do not accept an out-of-print or out-of-stock notice from a US publisher as final proof that the book is not available, having found that inventory is often available in the UK and elsewhere.

By taking the time and effort to research these titles, Midwest has a superior level of success in supplying them. Some trade jobbers will often simply relay the publisher’s report and cancel such titles.

We do not accept publishers’ OP, NOP, and TOS reports without further research to determine their validity. Our research specialists are dedicated to locating hard-to-obtain titles.

By diligent research we are able to locate many book orders that would otherwise be lost due to publishers’ bad reports, inadequate research, or database dead-ends. Our researchers take over the hunt for titles where computers leave off. We will not cancel an order until we determine that a book is truly unavailable.

Contact Midwest and watch your fulfillment level and patron satisfaction improve!
