YBP Library Services (YBP) and Ex Libris® Group, a world leader in the provision of library automation solutions, now offer a new, streamlined acquisition process to academic and research libraries that use the Ex Libris Alma and YBP GOBI³ (Global Online Bibliographic Information) platforms. This collaboration enables libraries to reduce costs associated with acquisitions.

Leveraging Alma’s open architecture, the first deliverable of this project will automatically update Alma in real time with all print and digital orders placed via the GOBI³ platform. As a result, librarians will be spared the task of replicating these transactions in the Alma interface.

YBP and Ex Libris are excited their customers are able to benefit from enhanced selection and acquisition workflows.

This book will consist of 4 volumes containing about 70 chapters covering all the major aspects of the growing area of nanomedicine. Leading scientists from 15 countries will cover all major areas of nanobiomedical research — materials for nanomedicine, application of nanomedicine in therapy of various diseases, use of nanomedicines for diagnostic purposes, technology of nanomedicines, and new trends in nanobiomedical research.

This is the first detailed handbook specifically addressing various aspects of nanobiomedicine. Readers will be treated to cutting-edge research and the newest data from leading researchers in this area.

Readership: Academics, researchers, graduate students and professionals interested in contemporary nanomedicine.

Cold Spring Harbor Laboratory Press announces the launch of a new monthly online publication, *Cold Spring Harbor Perspectives in Medicine*. Covering everything from the molecular and cellular bases of disease to translational medicine and new therapeutic strategies, each issue offers reviews on different aspects of a variety of diseases and the tissues they affect. The contributions are written by experts in each field and commissioned as Subject Collections by a board of eminent scientists and physicians. These Subject Collections gradually accumulate articles as new issues of the journal are published and, when complete, each Subject Collection represents a comprehensive survey of the field it covers. *Cold Spring Harbor Perspectives in Medicine* is thus unmatched for its depth of coverage and represents an essential source for informed surveys and critical discussion of advances in molecular medicine.

**Scope:** Translational Medicine, Molecular Pathology, Cancer Therapy, Genetics, Infectious Disease, Immunology, Molecular Cell Biology
