How do I go about receiving copyright permission? If you're not responsible for copyright permission, do you know who is? The figures I'm interested in are figure 1 and figure 2 from the following article:
> Akers, C. P., Akers, S. W., & Mitchell, C. A. (1985). The Minitron System for Growth of Small Plants under Controlled Environment Conditions. Journal of the American Society for Horticultural Science, 110(3), 353-357.
