<b>Cultivar</b>	<b>Lbs./A greater than 3/8 inches in diameter</b>	<b>Lbs./A less than 3/8 inches in diameter</b>	<b>Number of spears per plant</b>	<b>Total yield per acre in pounds</b>
Walker Deluxe	250ab <sup>1</sup>	344a	3.7a	594a
Guelph Millennium	113 b	119 b	1.4 b	232 b
Guelph Eclipse	380a	119 b	2.3 b	499ab

<sup>1</sup>Yield expressions with the same letter within columns are not statistically significant, Duncan's Multiple Range Test, 5% level.

One-year-old crowns were planted on April 19, 2019. Eight harvests were taken throughout a three week period in 2020. First harvest occurred on April 16. Harvest did not resume until May 1 due to frosts. Last harvest occurred on May 8 when the majority of spear diameters started to become less than 3/8 inches in diameter.
