Introduction

Included in this publication are population figures and trends for the state of Indiana compiled using data from the 2010 US Census. State, county, city, town, and rural populations are displayed and compared with each other and with population figures from previous years' census data. In summary, Indiana's population increased from 6,080,474 to 6,483,802 over a ten-year period from 2000 to 2010. This increase of 403,328 yields a 6.63% increase, which compares to a national average increase of 9.7% over the same ten-year period. Indiana ranks 14th in the nation for total population count.

The 2010 census provides the state with new information concerning the size and growth of its population. Business and industry can use the information to analyze market demands and other economic factors. It is also important for local governments to relate these new population figures and trends with the needs and requests for government services such as roads, streets, schools, sanitation, utilities, etc. According to state code (IC 1-1-3.5), data from the 2010 census may first be used for distributions beginning in May 2012 after being received and acknowledged by the governor.

To assist state, county, and town officials in the interpretation of the 2010 census figures, this report presents several tabulations and rankings that directly compare population growth and total population for city, county, and town units. In this report, rural population for a county unit is taken to be the difference between the total county population and the population of all cities and towns that lie in the county. It should be noted, when analyzing rural and urban population figures, that this interpretation of rural population is at variance with that used in the official census reports.

All data provided in this report was obtained from the Bureau of the Census, U.S. Department of Commerce at their website, <http://www.census.gov>. For more information, the Bureau of the Census may be contacted directly by telephone at (301)457-4608.

Early Population Counts in Indiana

Indiana was organized as a Territory in 1800 and was admitted into the Union as the 19th State in December of 1816. The 1800 census figures show about 2500 people located in present day Indiana. The decennial census figures for Indiana 1810- 2010 are as follows:

1810.....	4,520
1820.....	147,178
1830.....	343,031
1840.....	685,866
1850.....	988,416
1860.....	1,350,428
1870.....	1,680,637
1880.....	1,978,301
1890.....	2,192,404
1900.....	2,516,462
1910.....	2,700,876
1920.....	2,930,390
1930.....	3,238,503
1940.....	3,427,796
1950.....	3,934,224
1960.....	4,662,498
1970.....	5,193,669
1980.....	5,490,179
1990.....	5,544,159
2000.....	6,080,474
2010.....	6,483,802

The 1840 census seems to be the first Indiana census to be compiled by counties. In that census, Wayne County was the most populous county in the State because it served as the gateway to the state of Indiana via the National Road, which is now US 40.

Indiana's present day population centers were well established, growing communities shortly after the turn of the century. Most of today's population centers were among the leaders in the early census figures for the state.

County Counts – 2010

A tabulation of county population figures (Table 1) shows that 63 of 92 counties saw an increase in population from 2000 to 2010. Seventeen counties had an increase of 5,000 or more. Twenty-nine counties had a decrease in population; eleven counties had a decrease of more than 1,000.

Hamilton County's increase of 91,829 since 2000 was the greatest county population gain, and at 50.25%, it also had the largest percent increase of any county. Grant County had the largest decrease of population (3,342) during the past decade, while Blackford County had the largest percent decrease at 9.13%. Along with the following county tables, there are two geographic figures, which show each county's total population change and percentage change from 2000.

Population of Rural Areas

The population figures for rural areas (Table 1) were determined for each county as the difference between total county population and the total population of all incorporated cities and towns in the county. Therefore, the population figures for rural areas represent all unincorporated areas for each county.

Petition to change city to town; summons; trial; issue; order; transition; provisional government

Sec. 6. (a) A petition to change a city into a town may be filed as

a civil action in the circuit court for the county in which the city is located. The petition must be signed by at least two-thirds (2/3) of the taxpayers twenty-one (21) years of age or older who reside in the city.

(b) Whenever a petition is filed under this section, the clerk of the circuit court shall issue a summons to the city in its corporate name. A taxpayer who signed the petition may not withdraw his signature on or after the return date of the summons.

(c) An action under this section shall be tried by the court without a jury, and the only issue to be determined is whether the petition contains the genuine signatures of the number of taxpayers required. If the court finds in the affirmative, it shall enter an order changing the city into a town.

(d) After an order is entered under subsection (c), the executive and the legislative body of the municipality shall organize as a town legislative body, with the executive becoming the town executive, and the remaining officers of the municipality shall exercise only the functions that may be exercised by the corresponding town officers. If none of the functions of a city officer or board is exercised under a town government, that officer or board shall immediately file a final report with and turn over all records and property in his or its custody to the town legislative body. After the final report of a former city officer or board is approved by the town legislative body, that office or board is abolished.

(e) The provisional town government provided for in subsection (d) shall serve until the time prescribed by IC 3-10-6-5 for a regular town election. *As added by Acts 1980, P.L.212, SEC.3. Amended by P.L.5-1983, SEC.11; P.L.5-1986, SEC.43.*

(1) be signed by at least five hundred (500) voters of the city, or, in a city having less than five hundred (500) registered voters at the time of the most recent general election, by at least ten percent (10%) of those voters;

(2) be verified by one (1) or more of the petitioners; and

(3) set forth reasons for the change of name.

(b) If the legislative body considers the reasons set forth in the petition sufficient, it shall conduct a public hearing on the petition after giving notice by publication in the manner prescribed by IC 5-3-1.
