Abstract

This report was presented to the Commercial Refrigerator Manufacturers Association on 12 January, 1988 and provides a brief description of the elements to be considered by commercial refrigeration manufacturers as a result of CFC regulations. The chief concerns of manufacturers include performance of existing installations, redesign of products currently in production and design of new products. This paper discusses the use of alternative refrigerants and substitutes and the impact on product design and development.

IMPACT DE LA REGLEMENTATION SUR LES CFC POUR LES  
CONSTRUCTEURS D'EQUIPEMENTS FRIGORIFIQUES COMMERCIAUX

RESUME : Ce rapport a été présenté à la "Commercial Refrigerator Manufacturers Association" le 12 janvier 1988 et il décrit brièvement les éléments dont les constructeurs de matériels frigorifiques commerciaux doivent tenir compte par application de la réglementation sur les CFC. Les principaux soucis des constructeurs concernent la performance des installations existantes, la reconception des produits actuellement fabriqués et la conception de nouveaux produits. Le rapport examine l'utilisation de frigorigènes de remplacement et de substituts et l'impact sur la conception et la mise au point des produits.
