

# Journal of Aviation Technology and Engineering

**Executive Editor:** Brent D. Bowen, Department of Aviation Technology, Purdue University

**Senior Editor:** Henry R. Lehrer, Department of Aviation Technology, Purdue University

**Managing Editor:** John H. Mott, Department of Aviation Technology, Purdue University

## Associate Editors

Erin E. Bowen, Department of Technology Leadership & Innovation, Purdue University

C. Daniel Prather, Department of Aviation Science, California Baptist University

Alan J. Stolzer, Department of Doctoral Studies, Embry-Riddle Aeronautical University

## Editorial Board

Ruwantissa Abeyratne, International Civil Aviation Organization, Montreal, Canada

Evon Abu-taieh, Civil Aviation Regulatory Commission, Amman, Jordan

Richard O. Fanjoy, Purdue University

Frederick D. Hansen, Oklahoma State University

Dean E. Headley, Wichita State University

Igor V. Kabashkin, Transport and Telecommunications Institute, Riga, Latvia

Swami Karunamoorthy, Saint Louis University

Hatice Küçükönel, Ozyegin University, Istanbul, Turkey

Mike Lavelle, The Museum of Flight

Yanhua Li, Civil Aviation University of China, Tianjin, China

Jackie Luedtke, Embry-Riddle Aeronautical University

David A. NewMyer, Southern Illinois University

I. Richmond Nettey, Kent State University

William L. Rankin, The Boeing Company

Bijan Vasigh, Embry-Riddle Aeronautical University

## Panel of Reviewers

Troy Allen, Indiana State University

Elizabeth Bjerke, University of North Dakota

Thomas Q. Carney, Purdue University

Paul Dion, Susquehanna University

Michael Dyrenfurth, Purdue University

Thomas K. Eismin, Purdue University

Rodney Fewings, Cranfield University, United Kingdom

Mel J. Futrell, Wright State University

Steven Hampton, Embry-Riddle Aeronautical University

Mary Johnson, Purdue University

Chien-tsung Lu, Purdue University

Eric Molin, Delft University of Technology

Fejda Netjasov, University of Belgrade

Rob Niewohner, United States Naval Academy

Samuel Pavel, Southern Illinois University – Carbondale

José R. Ruiz, Southern Illinois University – Carbondale

David L. Stanley, Purdue University

Roger Wayson, U. S. Department of Transportation

Jinn-Tsai Wong, National Chiao Tung University, Taiwan

Bernard Wulle, Purdue University

The *Journal of Aviation Technology and Engineering (JATE)* is an open-access, refereed publication serving the needs of collegiate and industrial scholars and researchers in the multidisciplinary fields of aviation technology and engineering. A key focus of JATE is to promote the bridging of these fields by publishing scholarly articles related to the integration of theory and application in the Design/Build/Test process. This process will generally consist of various constituencies working toward a common goal of an end product which is properly designed through theory and made practical through application. Further information about the journal, article submission instructions, and free online access to all issues is available at: <http://www.jateonline.org>

JATE is published twice yearly by Purdue University Press with support from the James D. and Sherry Raisbeck Foundation and Purdue University College of Technology (Gary R. Bertoline, Dean). The journal is indexed in EBSCO, H. W. Wilson, OCLC, and ProQuest products and by the U.S. National Research Council Transportation Research Board and TRIS Electronic Bibliographic Data Base. The version-of-record is online only, ISSN 2159-6670, but print-on-demand copies are available for purchase from <http://www.jateonline.org>
