BANKING BY MAIL

WITH THIS

4 PER CENT INTEREST	THIRTY MILLION DOLLAR BANK	CAPITAL \$2,500,000.00
59,000 DEPOSITORS		SURPLUS \$2,500,000.00

Can you find a better investment than this?

Banking by Mail is one of the modern methods of the banking business, and the success of the movement is beyond question.

4 Per Cent Interest, compounded semi-annually, is not a new departure in Cleveland, but is the prevailing rate paid on savings accounts by all savings banks, and, what is more, has been so for upwards of sixty-five years.

The Cleveland Trust Company has fifty-nine thousand individual depositors, and with its thirty million dollars resources is an absolutely safe place for your savings, offering you a better investment than Government bonds, for the reason that it is not only perfectly safe, but pays on small amounts as well as large.

4 Per Cent Compound Interest has earned more millions than speculation. A Savings account with this bank is a better investment even than high-grade stocks or bonds, because it earns as much as those carrying the same margin of safety, and the value of the principal does not fluctuate, but is always worth 100 cents on the dollar. Then, too, your funds are available at all times.

Money deposited in a savings account at a distance from home is not so liable to be drawn on for incidental expenses and luxuries as it would be if one had but to go around the corner to get it. Many people who have hitherto failed in their attempt to save money find they can save successfully by depositing in another city. The privacy of one's bank account is much more complete when kept in another city, where one's family and friends know nothing about it, and have absolutely no means of finding out unless the depositor so desires.

By Depositing in the Cleveland Trust Company you have the satisfaction of dealing with one of the largest and strongest savings banks in the United States. You get four per cent interest on savings deposits of One dollar or more, compounded semi-annually, and the safety of your money is guaranteed by Capital and Surplus of five million dollars.

We would be pleased to send you our free booklet "F"
explaining our system of banking by mail.

JOURNAL JUMBLE

by Jerry Seay (Library School Guru)

This is a new feature, all of you out there, by our illustrious library school student (see page 35). With each issue, he'll try to do a puzzle featuring a particular journal. Discover the answer by filling in the blanks and then unscrambling the circled letters to form the name of a journal.

CLUE: This European journal has changed its title and publisher (so, what else is new?).

Let us know if you have a suggestion as to a journal worthy of inclusion.

1) C O L L E

= Hard core newsletter editor

2) H O L Y C I T Y

= "Holy" city, especially after Hugo

3) S E R V I S E S C O M E

= Where serials come from

F O U N D I N G

= Found in front of "services"

4) C O L L E C O L E

Put the circled letters in the spaces below and then unscramble them to make the journal title.

C O L L E C O L E S E C O M E

(The journal has two words to the title and the words are each jumbled up separately.)

Answer in our next issue.
