Your voice matters: Assessing the need for a resource center

Chris Sahley, Megan Sapp-Nelson, Donna Ferullo, Linda Mason, Elnara Mammadova and Hanzi Xie.
Purdue University, West Lafayette, IN 47907

Aim:

Gather the requirements and constraints from stakeholders and conduct a needs assessment for a document repository for the AGEP Alliances.

Context:

With the transformation of the AGEP project initiative, identifying and preserving the knowledge created and making it available for re-use by other researchers and higher education institutions will require the development of a specific intervention.

The current trajectory for the Alliances materials will fail to reach the larger audiences needed to realize their full promise and the materials will be lost over time due to the absence of infrastructure to provide ongoing access.

Methods:

- 1) Assessment development
- 2) Qualtrics surveys
- 3) Virtual interviews
- 4) Data Analysis

Discussion:

	Not a priority	Low Priority	Medium Priority	High Priority	I Don't Know or N/A
The ability to cite these materials in my publications.					
A requirement that others cite these materials if they were to use it in their research.					
The ability to access these materials at a secondary (mirror) site if the repository is "off-line".					
The ability to restrict access to the materials to authorized individuals.
