New and Important Titles from the Institution of Chemical Engineers Distributed by VCH

Dust Explosion Prevention and Protection Guides
Part 1: Venting, Revised 2nd Edition
G.A. Lunn
This newly updated edition deals with venting, one of the most common methods of preventing damage to the plant from dust explosions. The author was assisted by the UK Health and Safety Executive, ICI and BP, amongst others while expanding this vital work. Contents include: Dust Explosion Characteristics / Characteristics of Vessels and Containers / Various Methods for Sizing and Factors to be Considered / How to deal with Common Specific Items of Equipment.
July, 1992 0-85295-293-7 Cloth $67.50

Dust Explosion Protection Guides
Part 3: Venting of Weak Explosions and the Effects of Vent Ducts
G.A. Lunn
This work describes the effect of vent ducts or reduced explosion and covers estimation of venting requirements for weak dust explosions, and the use of graphs to determine vent sizes. The main section details a method for calculating the effects of ducting on explosion pressures. Contains an extensive appendix of estimates.
1988 0-85295-230-9 paper 183pp. $39.50

An Engineer’s View of Human Error
Trevor Kletz
The author, recipient of Chemical Engineering’s Award for Personal Achievement in Chemical Engineering in 1990, has written a practical, easy to read guide which views human error as the cause of accidents at work. Real incidents illustrate that situations cause accidents, not people, and that engineers are the people best qualified to make situations safe.
July, 1992 0-85295-265-1 Cloth 199pp. $54.50

Relief Systems Handbook
Cyril Parry
Using case studies, this guide covers the applicability and reliability of different relief devices in individual situations. It helps the engineer decide between types of devices, particularly relief valves and bursting discs. It also covers methods used to define total relief systems for specific situations, including containment systems, common venting flaring and blowdown, vent size protection, access for maintenance and instrumentation. It then summarizes current codes of practice for testing and maintenance.
1992 0-85295-267-8 Cloth 205 pp $49.50

Human Factors in the Process Industries
Robert C. Mill
This report from the Human Factors Study Group of the European Federation of Chemical Engineering’s The Loss Prevention Working Party contains recommendations as to how human error can be prevented.
July, 1992 0-85295-294-5 Cloth 1008pp. $45.00

Apology: VCH regrets a typesetting error in the VCH Publisher Profile that appeared in the last edition of Against the Grain. The article made it seem that VCH owns The Institution of Chemical Engineers. Rather, VCH is a proud distributor of their titles.

***Founded in 1922 and based in Rugby, England the Institution of Chemical Engineers exists to maintain and enhance standards of practice in chemical engineering. Having almost 20,000 members worldwide, the institution publishes books, learned journals, magazines and safety training packages, and runs conferences and courses aimed at improving standards of practice.

June 1992 / Against the Grain
Now B&T Marc™
does even more, so you
have to do even less.

The most flexible cataloging
and processing system ever
just got more flexible.

Last year, Baker & Taylor Books
introduced B&T Marc™, a revolutionary new
cataloging and processing system so flex-
ible that it can be customized to meet
virtually any library’s needs, no matter how
specific. From adding or deleting informa-
tion from standard MARC or CIP records to
manipulating call numbers according to
your preferences, B&T Marc offers more
cataloging options than any other system.
And more processing combinations, too—
hundreds of mix and match combinations
ranging from how many bar codes you
want on each book to where you
want your spine labels placed.

Now we’ve made B&T Marc
even more flexible with these
exciting new features:

Sorted Shelflist and Catalog Cards:
Whether you organize your catalog
cards by author, title, subject or all
of the above, B&T Marc can now
do your job for you. In
fact, with this new fea-
ture, you can choose
to have your catalog
cards sorted in any of four ways, and your
shelflist cards in any of three ways. And
we’ll sort your cards on every order for
just 5¢ per title. So you’ll not only save
time and effort, you’ll save money, too.

“I love the quality of your
catalog cards. They are the nicest
that I have seen.”
Florence Anderson, Librarian
Ordean Middle School Library, Duluth, Minnesota

Review Sources: For librarians
who want to know
where the books
they order are
reviewed,
B&T Marc
can now pro-
vide up to six
review citations
—from over 30 sources —on
any one card or record. This
enhancement will prove especially
helpful for juvenile collections and was
developed in response to our customers’
requests.

Expanded Easy Book and Juvenile Book
Call Numbers: Yet another way to cus-
tomize your cataloging, B&T Marc has
added two new call number options to
our K-3 books, and eight new options to
our K-8 books.

Custom Labels: This new option allows
you to design your own bibliographic
label to use for a borrower’s card, a
circulation card or any other unique need
you may have, by using up to 20 data
elements.

“Your new processing pro-
gram is a much needed and much
appreciated improvement.”
Marisa Kolt, Librarian
Hamden Library, Hamden, Connecticut

With the addition of these new fea-
tures, B&T Marc is truly the most com-
prehensive cataloging and pro-
cessing system available. And
it’s inexpensive, too. For about
99¢ a book, you can receive
your books shelf ready, exactly
the way you want them — making them
available to your users faster than ever
before. Not to mention the labor ex-
penses you’ll save by letting B&T Marc do
your work for you.

To find out more about B&T Marc,
call Information Services at (800) 235-
4490. We’ll be happy to help you choose
the cataloging and processing options
best for you.
Sometimes the right partner can make all the difference.

Most subscription agencies offer the basics – consolidation of orders, prepayment, claiming. And some agencies promise automation, like online ordering and searchable title files. But only one agency delivers all that, plus something special...

Introducing the Readmore Partnership...the unique team approach that makes all the difference between standard service and peak performance.

With Readmore Academic, you've got a partner in serials management. Your Readmore Account Executive personally assists with all your day-to-day serials activities. The Academic Specialist is your liaison to Readmore's top management and publishers worldwide. And Readmore's technical team, working behind the scenes, uses state-of-the-art technology to bring you innovative services.

So don't go it alone. You know your collection, your library, your patrons and policies. We've got the experience with serials, automation, the global publishing industry plus all the resources of the international B.H. Blackwell group.

Together, we can build a customized package of services, systems and reports to meet your specific needs...keep you informed...and solve problems before they become problems.

Call 1 800-645-6595 today for more information about Readmore Academic subscription services. And see how the right partner can make all the difference for your library.

IMPORTANT PUBLISHING NEWS!
New Journals Available from VCH Publishers...

**physical status solidi (a)**
*applied research*

**physical status solidi (b)**
*basic research*

**Editor:** E. Gutsche

Each issue presents original papers, short notes and announcements of conferences plus ten thematic categories. Each volume contains one review article and an author index. Series a covers applied research and discusses materials science and applications while Series b covers basic research and discusses electronic states and transitions, lattice dynamics and high excitation phenomena.

**Readers:** Physicists, chemists, crystallographers, materials scientists dealing with solid state physics in basic research and industrial research.

**physical status solidi (a)**
ISSN 0031-8965, Volumes 129-134
13 issues per year $1,354.00

**physical status solidi (b)**
ISSN 0370-1972, Volumes 169-174
13 issues per year $1,354.00

**Progress of Physics**
**Editor:** K. Kaschluhn

Discusses the theoretical and experimental study of the fundamental constituents of matter and their interactions. Papers include review articles with a detailed and actual survey on the relevant publications in the respective fields as well as original papers of general interest.

**Readers:** Physicists and students of physics as well as mathematicians and students of mathematics.

ISSN 0015-8208, Volume 40
8 issues per year $386.00

---

**VCH Publishers, Inc.**
*is now the exclusive North American distributor for Akademie Verlag, Berlin journals!*

**ZAMM**
*Applied Mathematics and Mechanics*
**Editor-In-Chief:** G. Schmidt
*in cooperation with GAMM*

ZAMM publishes new results, review articles, proceedings of the annual GAMM Conferences, book reviews and information on applied mathematics, and includes information on the entire field of theoretical and applied mechanics as well as mathematical physics.

**Readers:** Scientists in applied mathematics; representatives of the theoretical and applied mechanics as well as in physics, biology, chemistry and technical sciences.

ISSN 0044-2267, Volume 72
12 issues per year $689.00

**Biometrical Journal**
*Journal of Mathematical Methods in Bioscience*
**Editors:** Institut für Angewandte Analysis und Stochastik, Berlin

This well-established international periodical supports the process of applying mathematical methods in the biological sciences. The journal covers mathematical methods concerning data analysis and modeling and publishes papers covering new theoretical aspects of the application of mathematical methods in a broad range of biological sciences.

**Readers:** Scientists engaged in research, teaching and neighboring fields of application in bioscience.

ISSN 0323-3847, Volume 34
8 issues per year $458.00

**Microbeam Analysis Journal**
**Editor-In-Chief:** Richard W. Linton

**Microbeam Analysis Journal** is a peer-reviewed scholarly journal and is the official publication of the Microbeam Analysis Society (MAS). It reports on new developments in all techniques of microbeam analysis and related topics, with an emphasis on spectroscopy combined with microscopy and microanalysis.

**Readers:** Practitioners of biological, chemical, environmental, geological and materials science communities with a common scientific interest in microbeam analysis.

ISSN 1061-3420
Volume 1, 2 issues
Inaugural Issue Appears Fall 1992
$20.00 includes membership to MAS,

THE ENCYCLOPEDIA OF HIGHER EDUCATION

The first comprehensive reference work in higher education to be published in a decade!

Editors-In-Chief
Burton R. Clark, Allan M Cartier Professor of Higher Education and Sociology and Chairman of the Comparative Higher Education Research Group, University of California, Los Angeles, USA; Vice-President of the National Academy of Education
Guy Neave, Director of Research, International Association of Universities, Paris, France; Editor, Journal of Higher Education

Not since 1978 has there been such an in-depth look at the higher education systems around the world as will be brought to you in the ENCYCLOPEDIA OF HIGHER EDUCATION. This is the only up-to-date and comprehensive review of higher education worldwide, with references through 1991.

- A four volume major reference work with over 300 articles totalling more than two million words
- Descriptions and analyses of 135 national higher education systems
- A completely new, comprehensive review of the state of higher education from an international perspective
- Over 165 theoretical and analytical articles written by internationally recognized experts
- Essential for university teachers, students of education, and education researchers as well as government officials, administrators, and anyone concerned with higher education

Standing Orders
THE ULTIMATE TEST OF YOUR BOOKSELLER

Fulfilling standing orders has always been a complex challenge for booksellers. For almost two decades, Blackwell North America has met this challenge and successfully provided libraries with comprehensive standing order services:

- Extensive Coverage allows consolidation of orders with a single source
- Our unique interface with B.H. Blackwell offers coverage of U.K. and European titles
- Timely supply of books with consolidated invoices ensures prompt availability to library users
- Management reports provide detailed financial, bibliographic and publication status information
- Our standing order database, the largest in the industry, serves as a bibliographic reference tool for collection management and title selection

If your current vendor is not meeting the standards you have set for standing order service, consider Blackwell’s. Our reputation is built on timeliness, flexibility and service.

MATSS
The Perfect Software System for Automated Acquisitions

As a well established source for the supply of books and cataloging services, Midwest Library Service has developed MATSS — a PC based, fully integrated software acquisitions system for libraries.

The system includes program diskettes, reference manual, on-site training and installation.

Features:

- Multiple terminal version for local area networks.
- Order creation using MARC records downloaded from major bibliographic utilities and CD-ROM databases.
- Duplicate order checking.
- On-line help.
- Customized management reports.
- Automatic claiming/cancellation.
- Orders in printed or BISAC (fixed/variable) formats for electronic transmission to vendors.
- Toll-free order transmission to Midwest Library Service.
- Integrated vendor statistics and fund accounting.
- Electronic invoicing on diskette for Midwest Library Service invoices.

Some librarians have trouble checking out.

Your serials services should help you work faster, not longer.

Faxon sets you free to put your time where it is really needed. That's why more librarians choose Faxon's serials services than any other in the world. Faxon supports you with:

- Powerful automated tools to streamline your check-in, reducing errors, and saving you valuable time and resources.
- Management reports that provide collection-specific analysis and review to support your budgeting and planning.

- Expert, personal service.
- Concise, consolidated ordering and billing for journals worldwide, without wasted effort or miscommunication.

For more than 100 years, Faxon has given librarians trustworthy, consistent service in the areas where they need it most.

Let us help you check out on time. Call us at 800-766-0039.

When speaking with some booksellers, you might as well be talking to the wall. What distinguishes Ballen from other booksellers is that all our employees have dedicated themselves to customer service. And no matter what size your library is, you'll always receive the utmost in personal attention.

We also offer many value-added services, like BallenNet, our exclusive online system. It'll let you identify, claim, or order from our Firm Order, Approval Program, or Continuation/Standing Order Services.

What's more, our "electronic mailbox" will enable you to send claims and obtain important information instantly. You'll also have your own shelf reserved in our warehouse to guard against inventory and shipment mix-ups. And should you ever need to reach a Ballen officer, you can do so just by picking up the phone. Plus, as a Ballen customer, you'll have your very own customer service representative.

With this type of customer service, it's no wonder we have less than a 1% return rate (lowest in the industry) for our Firm Order and Continuation/Standing Order Services.

For more information, call Ballen at (800) 645-5237.

Because when you talk, Ballen listens.
How to take the anxiety out of finding back volume journals.

Our vast warehouse and comprehensive inventory continually contain the subject disciplines you require. We stock complete sets and individual volumes, in-print or out-of-print. We also buy your duplicate journals and provide appraisals.

For over thirty years we've taken the anxiety out of finding back volume journals, and built our reputation on kept promises. So write, call, FAX or access us through the FAXON-LINX network at the mailbox "Jaeger" for further information.

THE REVIEW OF ACADEMIC LIFE

ONE OF "THE TEN BEST MAGAZINES"

"Though budgets are tight,
[it] deserve[s] to be seriously considered for your collection."

Bill Katz, Library Journal

"STREET-SMART AND MARKET-WISE
Lingua Franca is a gutsy, timely, and topical review of the academy."

Martha Brogan, College and Research Libraries

"This magazine does an excellent job of capturing its chosen world, in all its splendor and pettiness:

THE INTELLIGENCE AND THE CLEVERNESS,
THE POWERS OF DEBATE AND THE ONE-UPMANSHIP,
THE GRASP OF LARGE ISSUES AND THE SELF-ABSORPTION.

Technically, Lingua Franca is a trade magazine. But though specialized, it isn't limited.
Many of its subjects ... have made front-page news; and many of its issues,
from feminism to multiculturalism, run through our culture.

LIKE THE BEST TRADE MAGAZINES,
this one offers a perspective not only on its field but also on our society viewed through its field.
Given Lingua Franca's humor, its openness, and such lively subjects,
... it isn't surprising that this publication quickly caught on."

A 1-YEAR LIBRARY (BIMONTHLY) SUBSCRIPTION FOR YOUR PATRONS IS JUST $35. USE YOUR SERIALS SERVICE OR CONTACT LINGUA FRANCA, 172 EAST BOSTON POST ROAD, MAMARONECK, NY 10543. TEL: (914) 698-9427. FAX: (914) 698-9488
