Massachusetts College of Art Godine Library’s Most Circulated Titles
by Margot Isabelle
(Collection Development Librarian)

The Massachusetts College of Art was established in 1873. It is the only free-standing, public college of art in the country. The Godine Library at MassArt is comprised of a diverse collection of printed material, films, videos, picture files and slides. There are over 400 periodical titles, 95,000 monographs, and 100,000 slides supporting graduate and undergraduate programs in design, fine arts and art education. The list of most circulated titles for the last three years includes reserve items which represent a very small percentage of the overall circulation statistics. The list is presented in no particular order.
