The Archie R. Dykes Library of the Health Sciences Most Circulated Titles

by **Theresa Baker**

The Archie R. Dykes Library of the Health Sciences is located on the campus of the University of Kansas Medical Center in Kansas City, Kansas. The Medical Center includes the Schools of Allied Health, Medicine, and Nursing, and the University of Kansas Hospital. The Library primarily supports the students, faculty, and staff of the Medical Center and other Kansas Regents institutions. Additionally, the library is open to the public and sells membership cards to individuals. The collection contains 150,000 volumes, with more than 50,000 items circulating per year. This list consists of the most circulated monograph titles during the past three and one half years, including interlibrary loan and reserve transactions. The titles are presented in descending order of use.

1. Robbins, Stanley L. **Robbins Pathologic Basis of Disease**. Saunders, 1989.
