Officers:

Nigel Farrow, Chairman
James W. Gerard, President, Ashgate US
John Irwin, Publisher

Ashgate has long been a highly regarded international publisher in the humanities and social sciences. The company is renowned for producing high quality, specialized scholarly monographs and collected essays under the academic imprints — **Avebury**, **Dartmouth**, **Scolar**, and **Variorum**.

This year, the company is consolidating its academic imprints under the name Ashgate. This is the first step in a series of changes in the company's far reaching international operation. By consolidating the extensive marketing and editorial departments of its academic imprints, Ashgate is able to increase its efficiency and better serve academics and libraries worldwide. Quality remains paramount.

Ashgate will continue to publish its library science, business, management, and professional and books under its Gower imprint. The professional publishing program includes **Gower's Chemical Reference Series** which provides sophisticated sources of information for chemical research in both book and electronic format. Customers can expect Gower products to meet the same high standard of quality as always, and an even higher level of customer service.

As part of its new growth, Ashgate is making major technological upgrades to increase the speed of communication and reduce costs for customers. The first step has been the recent addition of a full-service World Wide Web site to complement the company's extensive global marketing network. The Web site features a continually updated online catalog. It also includes sections presenting news and information of special interest to librarians, and a section on Ashgate's newest books.

Ashgate plans to add other advanced electronic services to increase the efficiency and timeliness of communication with customers. This will include increased email capability and greater use of the Internet as an information tool through electronic brochures, newsletters, and press releases.

Ashgate is expanding its high quality scholarship by publishing worldwide. Special areas of development are North America and the Asia-Pacific region.

Ashgate is actively engaged in the continual improvement of its services. The recent changes will enhance the service, high quality books, and global marketing and distribution for which the company is internationally known.

DOES BOOK HISTORY CAPTIVATE YOU?

Oak Knoll publishes books about books, book history and the book arts and stocks over 10,000 out-of-print titles in these fields. We introduce this newest title about this distinguished 20th-century writer:

JULIAN SYMONS, A BIBLIOGRAPHY. With Commentaries and a Personal Memoir by Julian Symons. By John J. Walsdorf, Bonnie J. Allen and Julian Symons.

A most respected expositor of the postwar British crime novel, Symons earned distinction as literary critic, social historian, biographer, essayist, editor and poet. His mystery writing career began with **THE IMMATERIAL MURDER CASE** (1945) and developed with **THE COLOUR OF MURDER** (1957), **THE MAN WHO LOST HIS WIFE** (1970) and **DEATH'S DARKEST FACE** (1990). After succeeding Dame Agatha Christie as President of the Detection Club in 1976, Symons was honored in 1990 with British Crime Writers Association's Cartier Diamond Dagger for lifetime achievement.

This first and only bibliography, with a personal memoir and commentaries by Symons himself, now illuminates the richness of Symons's work. Symons's autobiographical memoir also adds insight to his life beyond the page. Hardcover, illustrated, 340 pages.
Price \$85.00 + shipping / Order# 44046-G2
