The Assembly

The International Writing Centers Association, an Assembly of the National Council of Teachers of English, was founded in 1983 to foster communication among writing centers and to provide a forum for concerns. IWCA members include directors and staffs of writing centers at universities, two-year colleges, and K-12 schools, and the organization is governed by an Executive Board that comprises representatives from the regional writing center organizations in the US and abroad. For information about the International Writing Centers Association visit the IWCA website at writingcenters.org.
