## PUBLISHER'S PROFILE

**Peter Smith Publisher, Inc.**  
6 Lexington Ave.  
Magnolia, MA 01930  
telephone: (508)525-3562

MaryAnn Lash, President

For more than fifty years, **Peter Smith Publisher** has been offering hard-cover reprints of scarce and desirable books, as well as selected cloth-bound paperbacks. *The New York Times Book Review* even called them "the dean of reprint publishers."

Peter Smith Publisher reprints cover all major subject areas with an emphasis in the humanities and social sciences. In addition, they offer a selection of children's and young adult classics. Peter Smith has a reputation as an outstanding academic reprint house.

Peter Smith publishes about 70 books each year and offers 2000 titles in print. Their 1990/91 catalog is available upon request.

Ms. Lash is particularly interested in the out-of-print academic needs of university and college libraries and welcomes contact from librarians for titles to consider for reprint.

*[Let us know if you'd like to see a particular publisher profiled here and we'll try to comply!]*

## Consult the Experts

The Gmelin Handbook is the indispensable compendium and reference work in inorganic chemistry and related sciences. It provides a comprehensive, critically evaluated review of experimental and theoretical data of all chemical elements and their compounds, including organo-metallic compounds. Gmelin now consists of more than 600 volumes. Since 1982 all volumes have been published in English. The volumes illustrated are among the latest supplements.
