# From your (flu-bitten) Editor:

Well, I came back from ALA Midwinter with an unearthly case of the flu. And I had been a good trooper and taken the flu shot! Grump! So much for modern science.

Meanwhile, modern librarianship continues on apace! This issue of *ATG* is the annual report issue. While we were all napping during the holidays, there were some people laboring over the year that was—1998. Besides having the annual report survey results from **Barry** and **Judy Lee**, we have feature articles from a law librarian

regarding mergers and acquisitions (**Linda Defendeifer**), a book vendor (**Dan Halloran**), a subscription agent (**Dan Tonkery**), a publisher (**Karen Hunter**), a scholarly society (**Katharine Duff**), a Russian society (**Edwin Shelock**), and a British consultant (**Martin White**). And there is more. I found the articles on **Metadata** by **Ed Summers**, on **ILS vendors** and their efforts to develop better acquisitions systems by **Shelley Neville**, on **Consortia: What Do They Really Hold for the Future?** by **John Secor** particularly enlightening. And this definitely isn't all!

Meanwhile, back to modern science.

Though it has failed me this year, I am going to give it another chance. Second chance at no flu. After all, it is getting warmer here in Charleston and spring is in the air!

*been published six times a year for the past three years! Thanks. And, just think, you are getting another extra issue than you bargained for! Hooray! — KS*

### Dear Editor:

I read your issue of *Against the Grain* (Dec 98/Jan 99) on the train home from the ALA MidWinter meeting and was very impressed with the enormous amount of information contained in it. And sheepishly remembered I did not yet ask for a subscription, so I did so promptly upon my return.

Hope all is going well.

Best,

**Sandy Lewman**

### Dear Editor:

Subject: frequency of *ATG* is five times per year?

I attended (1st time) the Charleston Conference in November and was very impressed. Now I've received v. 10, no. 6 of *ATG* and notice inside the cover it's published 6 times per year. Great! But at the bottom of your homepage, it mentions 5 issues per year. Just a small point, but ...

As an aside, I teach part time at the lo-

### History's Most Infamous Biblioclast

The term biblioclast means mutilator of books. History's most famous biblioclast was the British rare book collector John Bagford (1650-1716). He amassed 64 large volumes containing the mounted title pages he had torn out of 25,000 books. His collection is in the British Museum classified as the Bagford Fragments.
