YBP LIBRARY SERVICES *and*
BLACKWELL NORTH AMERICA
JOIN FORCES.

LIBRARIANS TRUST YBP LIBRARY SERVICES for its outstanding service, deep catalog, and technical expertise. Now, with Blackwell North America, YBP Library Services offers the widest selection of technical service solutions, the fastest delivery options, and the largest supply of scholarly materials in the world.

YBP has a long history of developing deep partnerships with the libraries and consortia it serves. We draw from our rich background and understanding of the challenges facing libraries and consortia to ensure that collection development objectives, both print and

electronic, and technical workflow needs are met today and in the future.

Everything we do stems from our commitment to delivering the best customer service to academic institutions. Together with Blackwell, YBP can deliver on this promise to customers even better.

If you have a copy of *Molecular Cloning* on your shelf, you will certainly want to visit *CSH Protocols* online for the latest laboratory techniques.

CSH Protocols is a response to requests from scientists for authoritative information about techniques with a broad editorial scope, delivered through a state-of-the-art online interface. At the site, you will find methods from *Molecular Cloning* along with protocols from many best-selling Cold Spring Harbor Laboratory Press manuals, such as *Cells* and *Antibodies*, as well as protocols from Cold Spring Harbor's renowned on-site courses. In addition, you will discover new cutting-edge protocols submitted by and commissioned from laboratories worldwide. A peer-reviewed online journal, *CSH Protocols* is indexed in PubMed and updated monthly.

We invite your institution to start a **free trial** for a hands-on review of *CSH Protocols*. To start your online trial, simply visit www.cshprotocols.org and follow the link to request an online trial. Or email us at cshpress@cshl.edu and we will contact your institution's librarian to arrange free trial access.

Please take the time to review *CSH Protocols*. We are confident you and your researchers will find it to be an essential resource.

Conflict and Fragility

Do No Harm: International Support for Statebuilding

ISBN: 978-92-64-07738-6, January 2010

How can donors ensure they do no harm? How can they be sure they intervene constructively in fragile situations? *Do No Harm* provides practical guidance based on the results of research undertaken on behalf of the OECD DAC International Network on Conflict and Fragility (INCAF). The book is based on comparative case studies of six countries (Afghanistan, Bolivia, Democratic Republic of Congo, Nepal, Rwanda and Sierra Leone) and a comprehensive literature review. It addresses how the interventions of OECD countries may risk undermining positive statebuilding processes, and makes recommendations as to how this may be avoided in the future. *Do No Harm* is an important source to guide external engagement in situations of fragility and conflict, both at the policy and the field level.

OECD Economic Surveys: China 2009

ISBN: 978-92-64-07667-9, February 2010

OECD's periodic survey of the Chinese economy provides a solid analysis of developments in China and extensive statistical information. This edition features monetary and financial policy, product market regulation, inequalities and social policy.

Atlas of Gender and Development: How Social Norms Affect Gender Equality in non-OECD Countries

ISBN: 978-92-64-07520-7, March 2010

The *Atlas of Gender and Development* is an indispensable tool for development practitioners, policy makers, academics and the wider public. It provides detailed country notes, maps and graphics describing the situation of women in 124 developing and transition countries using a new composite measure of gender inequality — the Social Institutions and Gender Index (SIGI) — developed by the OECD Development Centre.

"This four-volume new edition of a classic work is remarkably comprehensive. The entries are detailed enough to help a novice and concise enough to provide a useful review to an experienced person. It will be an indispensable resource for both university and public library users."

—GEORGE STRICKER, PhD, ABPP, Argosy University, Washington DC

Developed with the guidance of a board of librarians, this new edition draws on an enhanced index and provides cross-references between articles, expanding the utility of this practical, yet thorough reference.

- Over 1,700 entries, more than 90% new or revised—with over 500 entirely new entries
- Cross references, source references, suggested readings, and key words throughout
- Extensive coverage of biological psychology and neuroscience, *DSM* diagnoses, developmental processes and more

Continuations and Standing Orders

Preface

Continuations and standing orders represent a frustrating and time-consuming area of book acquisitions. Efficient management of continuations requires a staff knowledgeable in all aspects of standing order procedures, with prompt and accurate service being essential.

Midwest Library Service has been providing continuation and standing order programs to libraries for over three decades with the same commitment to high quality as our firm order service: prompt delivery, accurate invoicing, immediate reporting, convenient communications, and personal Library Service Representatives. Our reputation for excellence is well established and we invite you to place your continuations list with us.

Scope

Our Continuation & Standing Order Service encompasses most series and continuations from U.S. publishers. Our services do **not** include supplying magazines, journals, or loose-leaf updating services.

Procedure

Our Continuation & Standing Order Service incorporates both automated systems and personal surveillance. Instead of relying on the filing and ordering systems of the publishers, we place orders for specific volumes as books are due to be published. If the next item in a series is not received when scheduled, we initiate a new order for the same item. This procedure helps avoid potentially missed volumes and eliminates any dependence upon the publishers' fulfillment systems. If in-house information is not available on future volumes to be published, we call the publisher for future projections and publication schedules. This information is then used to update our new title records.

Advantages

1. Because of our method of ordering specific volumes, we are in regular communication with the publishers.
2. Our status reports are prompt and accurate and should eliminate library claims.
3. Specific claims from an individual library resulting in an updated status report will generate new status reports to all libraries ordering the same series.
4. We do not drop ship.

Quality service depends on good communications between the library and the jobber. Your personal Library Service Representative and our convenient communications provide easy access to us regarding your continuation orders. We invite you to try our service by sending us your next list of standing order titles.
