Doing Better for Families

April 2011 250 pp. 9789264098725

All OECD governments want to give parents more choice in their work and family decisions. This book looks at the different ways in which governments support families. It seeks to provide answers to questions like: Is spending on family benefits going up, and how does it vary by the age of the child? Has the crisis affected public support for families? What is the best way of helping adults to have the number of children they desire? What are the effects of parental leave programmes on female labour supply and on child wellbeing? Are childcare costs a barrier to parental employment and can flexible workplace options help? What is the best time for mothers to go back to work after childbirth? And what are the best policies to reduce poverty among sole parents?

African Economic Outlook 2011: *Africa's Emerging Partners*

June 2011 280 pps. 9789264111752

This tenth edition of the *African Economic Outlook* finds the continent on the rebound and expects its growth performance in the next years to resume at pre-crisis levels. The focus is Africa's Emerging Economic Partnerships, presenting a comprehensive review of Africa's expanding economic relations with countries outside the continent that until very recently did not belong to the club of traditional "donors", the OECD Development Assistance Committee. Africa benefits not only from the visible direct interactions with large emerging countries – investment, trade, aid – but also from the macroeconomic, political and strategic advantages that their rise has produced. As always, country chapters provide detailed information on a country-by-country basis and the statistical annex provides a wide variety of indicators for the countries covered.

AIP has created three information-packed online archives, each of which for a one-time payment gives you permanent access to a broad range of AIP content dating back to our first journal issues in 1930. Together, these backfiles will provide your patrons with more than 300,000 papers from AIP journals and conference proceedings, and more than 55 years of fascinating features from AIP's flagship magazine, **Physics Today**.

AIP Digital Archive Supplement

To complement the AIP Digital Archive, we've now created the **AIP Digital Archive Supplement**. When added to the AIP Digital Archive, the Supplement will complete your collection of AIP backfile content. The Supplement offers permanent access to more than 50,000 additional articles from:

- AIP Conference Proceedings (1970 – 2004)
