FEATURES

Trends in Health Sciences and Biomedical Sciences Information Provision

by Ramune Kubilius — Ramune and her colleagues have done an excellent job of catching us up on the successes, issues, trends, challenges and opportunities for information provision in the health sciences and biomedical arenas.

The National Library of Medicine: 175 Years of Information Innovation

by Maria E. Collins, Martha R. Fishel and John Doyle — NLM is 175 years old and looks forward to another 175 years of innovation.

Immersed in Patient Care: Mission Critical Decisions for Hospital Libraries

by Patricia A. Hammond — Patricia illustrates how collection development for the individual hospital library has changed in the networked, larger multi-facility health care environment.

Assembling the Orchestra: The Role of Librarians in an e-Science Environment

by Sally A. Gore — e-Science is an orchestra made up of researchers, computer scientists, librarians and publishers who have new music to learn or instruments to play.

Targeted Access to Library Collections: Medical Education and Mobile Technology

by Stephanie C. Kerns — In 1910 the Flexner Report called for sweeping reform in medical education. We started to see the same reform in 2010. In the clinical realm, mobility is key.

Mutual Advocacy: Developing Shared Outreach Programs with Institutional Partners

by Heather J. Stecklein and M. Nathalie Wheaton — The Rush University Medical Center Archives has capitalized on existing outreach initiatives to bring its collections to a broader base.

Op Ed — Opinions and Editorials

The Death of the Bookless Library by S. David Mash — David has some interesting airport observations.

REVIEWS

Book Reviews by Deb Vaughan

— Monographic Musings by Deb Vaughan — This month, read about Gen X librarians in a guest edited review by Joey van Arnhem.
