YBP LIBRARY SERVICES

Enhances Demand-Driven Acquisitions with a Multi-Vendor Program

YBP has already set a benchmark for academic libraries with our Demand-Driven Acquisitions (DDA) program. We have partnered with the leading ebook aggregators to implement the **first** and **only** multi-vendor program to enhance your acquisition and collection development workflow.

WHEN BUILDING YOUR DDA CONSIDERATION POOL, YOU WILL RECEIVE:

Faster Delivery

Choose to receive the first ebook available from your preferred choice of leading ebook aggregators.

Greater Title Selection

Obtain titles from multiple resources, which means a larger discovery pool.

More Flexibility

Build a DDA discovery pool based on ebooks available from aggregators as well as profiled content from YBP.

Experience. Innovation. Partnership.

Library Collection Development for Professional Programs: Trends and Best Practices

Sara Holder (McGill University, Canada)

Addresses the challenging task of collection development in modern academic libraries, which is largely learned on the job. This publication contains practical advice and innovative strategies and will, therefore, be essential for current collection development librarians and future librarians seeking guidance in this complex position.

SUSTAINABLE COLLECTION SERVICES (SCS) provides tools and services to manage low-use print book collections. Our custom reports combine local and external data, including WorldCat® holdings, to support informed and efficient decision-making. SCS enables each library to define rules that protect essential titles, while assuring that withdrawn content remains accessible to users. SCS turns a big weeding project into a manageable, cost-effective way to reclaim valuable library space.

OSA's Digital Archive

OSA is pleased to offer a one-time purchase option for perpetual access to the OSA Digital Archive going back to 1917.

The OSA Digital Archive provides pioneering research in optics and photonics from core OSA journals including research published by Nobel Laureates and prestigious members of the physics and engineering communities.

COVERED CONTENT

The content in this archive includes approximately 108,000 articles and conference proceedings from the following OSA Publications:

- **Applied Optics** 1962–2005
- **Journal of the Optical Society of America** 1917–1983
- **Journal of the Optical Society of America A** 1984–2005
- **Journal of the Optical Society of America B** 1984–2005
- **Optics and Photonics News** 1990–2005
- **Optics Express** 1997–2005
- **Optics Letters** 1977–2005
- **Optics News** 1975–1989

A Library Journal "Best Reference"

U.S. and Global History & Culture from Sharpe//Online Reference

A rich and dynamic database with in-depth focus on U.S. and global history and culture, **Sharpe Online Reference (SOLR)** offers undergraduate students multiple perspectives and comprehensive analysis of cultural, political, and economic aspects of history from earliest times to the present.

Editorially cohesive in terms of content, level, and complexity, **SOLR** includes:

- More than 10,000 original, authoritative articles from 29 highly acclaimed Sharpe Reference titles, reviewed and updated annually to ensure accuracy, currency, and timeliness. New titles are added each year.
- Thousands of illustrations, maps, chronologies, glossaries, cultural landmarks, bibliographies, websites, and primary source documents.
- Supplementary resources including Web Links in History and separate primary source archives covering all periods of history.

"A jewel for undergraduate libraries.
Enthusiastically recommended; a ten."

Stability of Equilibrium of Structures and Related Problems (In 3 Volumes) is a systematic presentation of mathematical statements and methods of solution for problems of structural stability. It also presents a connection between the solutions of the problems and the actual design practice.

This comprehensive multi-volume set is useful for research engineers and developers of CAD/CAE software who investigate the stability of equilibrium of mechanical systems; practical engineers who use the software tools in their daily work and are interested in knowing more about the theoretical foundations of the strength analysis; and for advanced students and faculty of university departments where strength-related subjects of civil and mechanical engineering are taught.

Contents: **Volume 1:** Stability of Equilibrium of Systems that Have a Finite Number of Degrees Freedom; Variational Statement of the Problem of Equilibrium Stability for Elastic Bodies; Asymptotic Analysis of Post-Critical Behavior; Stability of Equilibrium of Straight Bars; Stability of Equilibrium of Curved Bars; Stability of Equilibrium of Thin-Walled Bars; Conservative External Forces and Moments: Paradoxes and Misbeliefs; **Volume 2:** Spatial Curved Bar — Kirchhoff-Klebsh Theory; Stability of Equilibrium of Plates — Kirchhoff-Love and Reissner Plates; System with Unilateral Constraints; Stability of Equilibrium of Flat Rod Systems; FEM in Stability Problems; Stability of Spatial Trusses; Dynamic Criterion of Stability and Non-Conservative Systems; Post-Critical Deformations; Settlement Models in Stability Problems: Practical Examples; **Volume 3:** Stability of Non-Elastic Systems; Stability at Creep; Dynamic Stability; Aerodynamic Instability; The Theory and Experiment; Stability Check on Design Codes.

ABC-CLIO eBook Collection

Choose from more than 7,400 titles with enhanced readability, and advanced searching and browsing.

ABC-CLIO's eBook Collection is a perfect match for the way students conduct research today.

“Bottom Line:

For design, this rates a ten. For content, it also rates a ten. For ease of use, it's a ten. For rational pricing (keeping the discounts firmly in mind!), ten again. All in all, this is a truly viable alternative to printed reference books. Enthusiastically recommended to public and academic libraries. It's something your researchers can, and will, use.”

Want to create the best collection, stay within your budget, and better serve your patrons? **EBSCONET® Usage Consolidation** can help. This affordable tool gathers, stores, and consolidates usage data related to your online collection — and makes that information available when and where you need it in your workflow.

With Usage Consolidation, you can...

- Quickly identify your most- and least-used resources
- Track usage for all of your resources, regardless of vendor, via a single interface
- Access usage data automatically and at your point of need in your EBSCONET® Subscription Management account
- Export usage to other systems for additional analysis
- Have EBSCO load usage on your behalf, so you spend less time collecting usage and more time analyzing usage results in order to develop a collection that empowers your users

TO UNDERSTAND THE VALUE OF USE IN THE AGE OF DISCOVERY

Today's librarians are using a growing array of access and discovery methods to connect researchers to vetted information resources and services with speed and precision. By using these new tools, libraries have been able to add greater value to their collections and enrich their constituents' search experience. But, there are challenges. Are you one of the many librarians asking how best to interpret usage behavior and statistics in today's environment of wider and simpler access to research materials?

Hard-to-Obtain Books?

Midwest Library Service

Won't Take "No" For An Answer

Publisher buyouts, takeovers, mergers, and distribution changes all have contributed to an industry-wide dysfunction affecting book **order fulfillment**. Inadequate fulfillment is especially felt by the librarians who bear ultimate responsibility for meeting patron demand.

At Midwest, we realize that **accurate and timely** order fulfillment is the benchmark service by which vendors (and librarians) are judged. We do not accept an out-of-print or out-of-stock notice from a US publisher as final proof that the book is not available, having found that inventory is often available in the UK and elsewhere.

By taking the time and effort to research these titles, Midwest has a **superior level of success** in supplying them. Some trade jobbers will often simply relay the publisher's report and cancel such titles.

We do not accept publishers' OP, NOP, and TOS reports without further research to determine their validity. Our **research specialists** are dedicated to locating hard-to-obtain titles.

By diligent research we are able to **locate many book orders** that would otherwise be lost due to publishers' bad reports, inadequate research, or database dead-ends. Our researchers take over the hunt for titles where computers leave off. We will not cancel an order until we determine that a book is truly unavailable.

Contact Midwest and watch your fulfillment level and patron satisfaction improve!
