Cold Spring Harbor *Perspectives in Medicine*

A New Type of Review Journal in Molecular Medicine

www.perspectivesinmedicine.org

Cold Spring Harbor Laboratory Press announces the launch of a new monthly online publication, *Cold Spring Harbor Perspectives in Medicine*. Covering everything from the molecular and cellular bases of disease to translational medicine and new therapeutic strategies, each issue offers reviews on different aspects of a variety of diseases and the tissues they affect. The contributions are written by experts in each field and commissioned as Subject Collections by a board of eminent scientists and physicians. These Subject Collections gradually accumulate articles as new issues of the journal are published and, when complete, each Subject Collection represents a comprehensive survey of the field it covers. *Cold Spring Harbor Perspectives in Medicine* is thus unmatched for its depth of coverage and represents an essential source for informed surveys and critical discussion of advances in molecular medicine.

Scope: Translational Medicine, Molecular Pathology, Cancer Therapy, Genetics, Infectious Disease, Immunology, Molecular Cell Biology

Frequency: Monthly, online

ISSN: 2157-1422

Subject coverage includes:

Addiction	Heart Disease
Aging	Hemoglobin
Alzheimer's Disease	HIV
Anemia	Influenza
Antibiotic Resistance	Malaria
Bacterial Pathogens	Multiple Sclerosis
Bone Disease	Muscular Dystrophy
Cancer	Parkinson's Disease
Cystic Fibrosis	Prion Diseases

How does the **MLA** work for you?

Promotes the study of language and literature

Publishes your scholarship

Hosts an annual convention where you can share your work

Compiles the *Job Information List*

Creates opportunities for scholarly interaction—look for the new *MLA Commons* in winter 2013

The Modern Language Association is a community of nearly 30,000 members dedicated to strengthening the study and teaching of language and literature. The MLA makes it possible for you to

- research career and job market information
- read reports and surveys issued by the MLA on the job market, enrollments, evaluating scholarship, and the state of scholarly publishing
- benefit from public outreach activities, including the popular MLA Language Map
- download the Academic Workforce Advocacy Kit, a tool for helping improve conditions for teachers and students
- read FAQs about MLA style

Become an MLA member at www.mla.org and receive the following benefits:

- ◆ subscriptions to *PMLA* and the *MLA Newsletter*
- ◆ priority convention registration
- ◆ online access to the *Job Information List* for ADE- and ADFL-member departments
- ◆ access to directories of members and departmental administrators

Three easy ways to join:

- Visit www.mla.org.
- E-mail membership@mla.org to request a membership packet.
- Call 646 576-5151.

The MLA Annual Convention 3–6 January 2013 in Boston

*featuring the presidential theme
Avenues of Access*

The largest gathering of teachers and scholars in the humanities now meets in January. Other changes include

- ◆ new features, including more roundtables and workshops
- ◆ more collaboration and discussion
- ◆ more free time in the evenings
- ◆ special presentations featuring renowned thinkers, artists, and critics in conversation
- ◆ local excursions for registrants
- ◆ regular *Twitter* updates during the convention

Introducing OSA's New Optics ImageBank

Infuse your library with a
wealth of images from OSA Journals

To speed the discovery, accessibility, and interoperability of figures and other graphics from OSA's digital library, OSA has created the Optics ImageBank—a comprehensive repository of more than 200,000 images, and now part of both the Optics InfoBase Premium and E-Combination 2 subscription packages in 2013. Email OSA for details at elec@osa.org.

Do you have the need ... to WEED? Let collection development products from Bowker® keep you on track.

Collection development products like
Resources for College Libraries™ (RCL) and
Bowker Book Analysis System™ help thousands of
academic librarians sort core titles quickly.

Academic libraries face the task of weeding on a regular basis, and collection development policies are built on it. There are many good reasons why:

- To ensure currency and relevance – purge outdated materials
- To protect or discard worn items
- To provide access to the right titles per core recommendations
- To increase shelf space for print titles or make way for the new learning commons
- To determine and take action on gaps in the collection

But weeding is hard and downright emotional at times, not to mention costly, in both time and money. With the right toolset from Bowker, weeding projects can be streamlined, decision time capped, resources and budgets saved, and collections, developed!

Let Resources for College Libraries™ (RCL) and Bowker Book Analysis System™ help.

Technology and Young Children: Bridging the Communication-Generation Gap

Sally Blake (University of Memphis, USA), Denise L. Winsor (University of Memphis, USA) and Lee Allen (University of Memphis, USA)

Presents the view that beliefs, history, research, and policy are essential to changing the educational system with technology. The content should help teachers reflect on what is happening as the center of learning power moves outside the classroom. The suggestions for use of technology are designed to help educators ease into the use of technology rather than leap off the cliff of innovation, developing confidence and competence in their teaching.

EconLit Now Has Economics Articles Published since 1886!

www.aeaweb.org/econlit

With more to come!

The American Economic Association (AEA) has created EconLit records for journal articles indexed in Volumes 1–10 of the AEA's *Index of Economic Articles*. Many of these journals are now available in full text and may be linked to from EconLit if they are part of a library's holdings.

The EconLit records include complete bibliographic citations, subject descriptors and subject codes from the AEA's 1961–1968 classification system, geographic and regional descriptors, and named historical persons.

EconLit will soon add records for articles from 1886–1968 collective works (edited volumes, conference proceedings, etc.). We will also match abstracts from the *Journal of Economic Abstracts* (1963–1968) and from the *Journal of Economic Literature* (1969–1986) to journal records.

The older records will become part of EconLit subscriptions at no extra cost.

Stability of Equilibrium of Structures and Related Problems (In 3 Volumes) is a systematic presentation of mathematical statements and methods of solution for problems of structural stability. It also presents a connection between the solutions of the problems and the actual design practice.

This comprehensive multi-volume set is useful for research engineers and developers of CAD/CAE software who investigate the stability of equilibrium of mechanical systems; practical engineers who use the software tools in their daily work and are interested in knowing more about the theoretical foundations of the strength analysis; and for advanced students and faculty of university departments where strength-related subjects of civil and mechanical engineering are taught.

Contents: **Volume 1:** Stability of Equilibrium of Systems that Have a Finite Number of Degrees Freedom; Variational Statement of the Problem of Equilibrium Stability for Elastic Bodies; Asymptotic Analysis of Post-Critical Behavior; Stability of Equilibrium of Straight Bars; Stability of Equilibrium of Curved Bars; Stability of Equilibrium of Thin-Walled Bars; Conservative External Forces and Moments: Paradoxes and Misbeliefs; **Volume 2:** Spatial Curved Bar — Kirchhoff-Klebsh Theory; Stability of Equilibrium of Plates — Kirchhoff-Love and Reissner Plates; System with Unilateral Constraints; Stability of Equilibrium of Flat Rod Systems; FEM in Stability Problems; Stability of Spatial Trusses; Dynamic Criterion of Stability and Non-Conservative Systems; Post-Critical Deformations; Settlement Models in Stability Problems: Practical Examples; **Volume 3:** Stability of Non-Elastic Systems; Stability at Creep; Dynamic Stability; Aerodynamic Instability; The Theory and Experiment; Stability Check on Design Codes.

Churchill Archive

A WINDOW ON HISTORY

Launching in Autumn 2012, the Churchill Archive is a digital library of modern international history available online for the first time.

The Churchill Archive includes more than 800,000 pages of original documents, produced between 1874 and 1965, ranging from Winston S. Churchill's personal correspondence to his official exchanges with kings, presidents, politicians and military leaders. This is more than a fantastic collection of primary source material, it is a unique digital library offering new insight into a fascinating period of our past.

"This is the holy grail of twentieth-century archives."

– Martin Farr, Director of Undergraduate Studies, School of Historical Studies, Newcastle University

"The Churchill Archive will make students much more likely to use primary sources, and will give them a wider range of documents to draw on. In addition, I am more likely now to shape components of my course around the documents if I know they are available to students in such a convenient form."

– Christopher M. Bell, Associate Professor, Dalhousie University

KEY FEATURES AND BENEFITS

- Instant access to thousands of key historical documents online for the first time ever
- Unique search taxonomy featuring quick and advanced search options and filtered browsing across topics, places, people and periods
- Specially commissioned articles, based on courses, guide students and researchers through the content
- Special features, such as Action this Day, to bring history alive
- Links to additional content such as contemporary newspaper articles and audio clips to give different perspectives on events, speeches and diplomatic relationships
- Reading lists and bibliographies encourage students to do further research
- Personalization features: saving, citing, extracting, sharing options
- Unlimited concurrent access via IP recognition and ATHENS/Shibboleth, including remote user access via username
- COUNTER compliant usage statistics and library branding
- Cross-referencing via OpenURLs
- Excellent customer and technical support
- The ease of use of Bloomsbury's other award-winning digital products, such as the Berg Fashion Library

Continuations and Standing Orders

Preface

Continuations and standing orders represent a frustrating and time-consuming area of book acquisitions. Efficient management of continuations requires a staff knowledgeable in all aspects of standing order procedures, with prompt and accurate service being essential.

Midwest Library Service has been providing continuation and standing order programs to libraries for over three decades with the same commitment to high quality as our firm order service: prompt delivery, accurate invoicing, immediate reporting, convenient communications, and personal Library Service Representatives. Our reputation for excellence is well established and we invite you to place your continuations list with us.

Scope

Our Continuation & Standing Order Service encompasses most series and continuations from U.S. publishers. Our services do **not** include supplying magazines, journals, or loose-leaf updating services.

Procedure

Our Continuation & Standing Order Service incorporates both automated systems and personal surveillance. Instead of relying on the filing and ordering systems of the publishers, we place orders for specific volumes as books are due to be published. If the next item in a series is not received when scheduled, we initiate a new order for the same item. This procedure helps avoid potentially missed volumes and eliminates any dependence upon the publishers' fulfillment systems. If in-house information is not available on future volumes to be published, we call the publisher for future projections and publication schedules. This information is then used to update our new title records.

Advantages

1. Because of our method of ordering specific volumes, we are in regular communication with the publishers.
2. Our status reports are prompt and accurate and should eliminate library claims.
3. Specific claims from an individual library resulting in an updated status report will generate new status reports to all libraries ordering the same series.
4. We do not drop ship.

Quality service depends on good communications between the library and the jobber. Your personal Library Service Representative and our convenient communications provide easy access to us regarding your continuation orders. We invite you to try our service by sending us your next list of standing order titles.
