Consider these questions when purchasing econtent publisher packages:

- Are packages comprehensive, including all ebooks and print titles published?
- How will duplication control be managed?
- How will cataloging records be acquired?

YBP has partnered with leading academic publishers to assist academic libraries worldwide with their digital acquisition strategy. Publisher packages hosted on publisher platforms are made available for purchase in GOBI³ (Global Online Bibliographic Information), YBP’s acquisition and collection management interface.

**BENEFITS OF ORDERING VIA YBP:**
- Comprehensive, managed coverage of print & digital titles
- Duplication control
- Customized cataloging records
- One-stop customer service in support of all your YBP purchased publisher direct packages
- YBP ensures extended publisher coverage for titles not included in publisher packages

**YBP Library Services — Your trusted source for publisher econtent packages.**

WANT TO KNOW MORE? Please contact your YBP representative at sales@ybp.com or visit www.ybp.com.

Supporting Information (SI), the crucial data behind the research, is essential to understanding and repeating cutting edge research. ACS Publications has recently digitized the SI for over 40,000 ACS original research articles, including 800,000 pages of highly valuable data and underlying research information. This means researchers will spend less time in the stacks and more time in the lab.

At no cost to the library, this adds a substantial amount of content to the ACS Legacy Archives, containing nearly 500,000 original research articles published between the years 1879 and 1995.

Visit http://pubs.acs.org/legacyarchives for more information.
Cold Spring Harbor Perspectives in Biology

A new type of online review journal

- Spanning the complete spectrum of the molecular life sciences
- Article collections that build month by month
- Written and commissioned by experts in each field

The Authoritative View
Expert reviews in the molecular life sciences.

InfoSci®-Databases
Databases for Progressive Academic Research

InfoSci®-Books
A rapidly expanding collection of over 55,000 full-text chapters from over 2,500 scholarly works in over 200 disciplines relating to business, medicine, education, engineering, and technology.

InfoSci®-Book Disciplines
Choose from four (4) discipline-focused databases containing up to 600 scholarly reference titles on specialized topics.

InfoSci®-Subject Databases
Choose from eleven (11) subject-specific databases containing up to 400 scholarly reference titles on specialized topics.

InfoSci®-Select
Select titles from IGI Global’s entire book collection and customize your own database. www.igi-global.com/infosci-select

InfoSci®-Journals
A rapidly expanding full-text collection of 155+ peer-reviewed journals that focus on specialized topics in over 200 disciplines relating to business, medicine, engineering, social sciences, and technology.

InfoSci®-Journal Disciplines
Choose from six (6) discipline-focused databases containing up to 45 cutting-edge scholarly journals on specialized topics in:
• Business, Administration, and Management (27)
• Communications and Social Science (29)
• Computer Science, Security, and Information Technology (45)
• Engineering, Natural, and Physical Science (18)
• Library Science, Information Studies, and Education (23)
• Medicine, Healthcare, and Life Science (16)

InfoSci®-Case
Access to more than 1,500 teaching cases based on real-life situations.

InfoSci®-Dictionary
45,000+ easy-to-reference definitions supported by published research.

Database Platform Features:
• XML-powered, full-text search
• Increased search speed with ranked results
• RefWorks and EasyBib citation export
• APA-, MLA-, and Chicago-style formatting
• COUNTER compliant reports and statistics
• MARC records to RSS feed
• Persistent URLs
• Liberal DRM
• No maintenance fees
• Supporting SRU industry interoperability standard
• Customize with your institution’s logo
• Multi-lingual user interface

Publisher buyouts, takeovers, mergers, and distribution changes all have contributed to an industry-wide dysfunction affecting book order fulfillment. Inadequate fulfillment is especially felt by the librarians who bear ultimate responsibility for meeting patron demand.

At Midwest, we realize that accurate and timely order fulfillment is the benchmark service by which vendors (and librarians) are judged. We do not accept an out-of-print or out-of-stock notice from a US publisher as final proof that the book is not available, having found that inventory is often available in the UK and elsewhere.

By taking the time and effort to research these titles, Midwest has a superior level of success in supplying them. Some trade jobbers will often simply relay the publisher’s report and cancel such titles.

We do not accept publishers’ OP, NOP, and TOS reports without further research to determine their validity. Our research specialists are dedicated to locating hard-to-obtain titles.

By diligent research, we are able to locate many book orders that would otherwise be lost due to publishers’ bad reports, inadequate research, or database dead-ends. Our researchers take over the hunt for titles where computers leave off. We will not cancel an order until we determine that a book is truly unavailable.

Contact Midwest and watch your fulfillment level and patron satisfaction improve!
