The SAGE Encyclopedia of Pharmacology and Society (2016, 9781483350004, $650) is another set in the publisher’s collection of cross-disciplinary reference works. The focus in these four volumes is on the pharmaceutical industry and where it intersects with socioeconomic, legal, and ethical concerns. Needless to say, these are important issues that can benefit from the type of broad based, serious discussion that a scholarly subject encyclopedia can afford.

There are nearly 800 signed articles in this set dealing with topics ranging from drug companies to the various branches of pharmacology and from coverage of specific drugs to pharmaceutical issues as diverse as fluoridation, blood doping, vaccination, and drug labeling. There are also a number of entries that look at business factors inherent in the industry, relevant laws and regulations, specific public health issues, not to mention ethical issues from the abuse of prescription drugs to lethal injection to the Tuskegee experiment. Naturally, there are articles that deal with pharmacology and its social history including those on smallpox eradication, traditional and herbal medicines, patient rights, and the history of nutritional supplements. A number of entries also look at the research end of the industry, as well as its infrastructure, noting various university programs and data sources in addition to numerous institutes, societies and government agencies.

The coverage offered in these four volumes is comprehensive and thorough and the information provided in the articles is factual, straightforward and written in a style suitable for both undergraduates and the informed lay reader. Topic treatment is objective and includes both positive and critical observations as merited. Value added features are what one would expect from a high quality work of reference. A chronology introduces volume one while a glossary and appendix of primary sources and useful statistics rounds out the final volume. Each entry has a bibliography and finding aids include an alphabetical list of entries and a very helpful Reader’s Guide to entries by subject category that is contained in all four volumes. In addition, there is an easy to use general index to specific topics and subtopics.

America in the World, 1776 to the Present: A Supplement to the Dictionary of American History (2016, 9780684325057, $458) is a new release from Charles Scribner’s Sons, part of Macmillan Reference USA. This two volume set updates and complements the 3rd edition of the classic Dictionary of American History (2003, 9780684314150, $1904). Edited by Edward J. Blum, et al. this new reference attempts to add a transnational perspective to a work that numerous libraries already have on their shelves. This new work looks at America’s global influence, while simultaneously examining how America has been influenced by its interaction on the world stage.

In the nearly 500 entries in this work, obvious efforts are made to keep the emphasis on the global and international perspective of the topics covered. As you would expect, there are articles covering key topics in major areas of study like economics and business, law and legislation, politics, religion, the military and defense, and arts, culture, and literature. In addition, there are entries that focus on unique aspects of sensitive issues like immigration, globalization, human and civil rights, race, imperialism, and slavery and the slave trade. Specific essays discuss the importance of noteworthy figures while others delve into the ways individual countries, continents, and regions have influenced, and been influenced by the U.S. The essays are written for an undergraduate audience providing useful facts and historical background in an academic, but accessible fashion. As noted above, the treatment of each topic is grounded within a larger transnational context showing the U.S. and the world as integral to each other. This approach is interwoven in the text of the article and gives the reader an obvious sense of America’s role and its varied impacts. Each entry had a valuable bibliography and helpful “see also” references linking related entries. Black and white photos and illustration are interspersed throughout the text. A comprehensive general index is provided that makes finding specific information straightforward and relatively easy.

With America in the World, 1776 to the Present… Mr. Blum, along with his fellow editors and contributors, offers students a clear sense of America and the double-edged impact of its ever increasing role in world affairs. The entries in this set show how the United States and the other nations of the world are inextricably linked by our global interaction. In offering this perspective, they have added a realistic reappraisal as well as an update and supplement to a set that has proven to be standard since originally being published in 1940. The new set should stand side by side with the Dictionary of American History in academic library reference collections supporting American studies.

Mcfarland has just published a title that could find multiple audiences. The Encyclopedia of Nordic Crime Fiction (2016, 978-0786475360, $65) by Mitzi M. Brunsdale has the potential to become part of both reference and circulating collections. And given the explosion in popularity of authors like Stieg Larson, Jo Nesbo, Karin Fossum, and continued on page 55.

<http://www.against-the-grain.com>
Henning Mankell, it may also find its way on to the personal shelves of numerous crime fiction fans. However, make no mistake, Ms. Brunsdale’s book is a serious work of scholarship. She started this project with a growing sense that Nordic crime fiction was steeped in societal tensions caused by factors like an aging population, soaring immigration and a failure to assimilate, increasing crime rates, and bloated bureaucracies. A look at her encyclopedia bears those suspicions out.

The Encyclopedia of Nordic Crime Fiction focuses on contemporary authors writing since 1967 and employs a basic organizational scheme. Each of the five Nordic countries: Denmark, Finland, Iceland, Norway, and Sweden has their own section starting with an introduction. Ms. Brunsdale uses the introduction to provide a “historical-cultural context” as well as to showcase the main issues that have confronted each society and how crime fiction has reflected them. This introduction is followed by annual lists of award winning fiction and a parallel chronology of developments in the literature and corresponding world events. Each section is then divided into author entries arranged alphabetically consisting of an essay describing the author’s contribution to the genre followed by a list of his/her novels. Both famous and obscure authors are discussed with many, but not all, having been translated into English.

Obviously, the essays discussing each author are key components of this reference. They provide basic biographical information as well as a discussion of the author’s more influential works. Entries end with a list of author’s novels, awards, and an author Website address if available. Unfortunately, the entries are not followed by bibliographies. However, there is a work cited section at the end of the book divided by country that helps compensate and which will be of value to those seeking to do further research. Providing additional scholarly value are the introductions beginning each section. They are comprehensive essays that fulfill Ms. Brunsdale’s intent of providing historical-cultural context with thorough discussions of how the genre interacts with and mirrors that context.

As noted earlier, the Encyclopedia of Nordic Crime Fiction will appeal to both libraries and to individual fans of the genre. Admittedly, this is a scholarly treatment of the topic that will primarily be of interest to academic libraries. However, given the popularity of Nordic crime fiction, a number of public libraries will also be interested. It is appropriate for either reference or circulation collections and given the reasonable price may find its way into both.

Booklover — White Garden

electable summer vegetables hang from stems and vines in the local community and backyard gardens. Thoughts of tomato sandwiches, fresh salsa, cool gazpacho, vegetable lasagnas, tomato pies, and fresh fruit compotes make the mouth water and the stomach growl. Memories of farmer’s markets, roadside stands, and u-pick ’em farms are part of my summer nostalgia. With the revival of the local farmer’s markets, interest in locally grown produce and community gardens, these fresh summer vegetables experiences are coming full circle.

Ducking into the main branch of the Charleston County Library on a hot summer afternoon takes me back to another summer activity, Nobel Laureate on a hot summer afternoon takes me back to another summer activity, author of Peter Cameron Coral Glynn. “includes a comment from back cover — “Praise for the title coming full circle.

Community gardens, these fresh summer vegetables experiences are of the local farmer’s markets, interest in locally grown produce and one I can add to my “Read” list. Perusing the stacks I come across Patrick White’s books and the title The Hanging Garden leaps out at me. I pick this one. On the back cover — “Praise for Patrick White” includes a comment from Peter Cameron, author of Coral Glynn. “Patrick White re-creates the world by depicting the life we think we know in an entirely original and luminous way. Everything about The Hanging Garden, his final novel, is thrilling, consummately, and revelatory. . . . A rare and wonderful gift to White devotees and a perfect introduction for new readers.” Seems like a good pairing with a vine-ripened tomato sandwich.

I am soon aware of how The Hanging Garden is a real unique choice. From the short synopsis on the front book flap, I learn that this “novel” was published posthumously. It was among some of his last written works. It was revised. It was only a third complete. It was never supposed to be published according to White’s instructions to his executors. It has a simple plot. It is set in Australia during World War II. It is about a boy, Gilbert, and a girl, Eirene, who are become “reffos” — Aussie slang for unwelcomed war refugees. It is written from a shifting point of view. It has no chapters, only spaces to indicate a pause. It is full of magical prose telling a tough story. It is a delicious verbal garden for a hot summer read.

Patrick White won the 1973 Nobel Prize in Literature “for an epic and psychological narrative art which has introduced a new continent into literature,” amazingly accurate description for this unfinished, unpolished manuscript. Born in Knightsbridge, London in the year 1912, White was only six months old when his Australian parents returned to that continent. White developed asthma at an early age, which limited normal childhood activities but allowed his creative spark to grow. He spent most of his academic time in England. However, prior to his time at Cambridge he returned to Australia. His family being people of the land, he needed to find out if this was something he could embrace. He continued to work on his word craft during this time. Ultimately he returned to London studying French and German literature at King’s College Cambridge. A love of the theater, a few early publications, world travel, time in military service during the war, discovering his sexual orientation and life partner — all created the situation for White to return to Australia. Initially, his works were considered “unreadable,” later Nobel Prize worthy.

Now a little taste of Eirene’s introduction into her new world: “The house has become stationary now. Will the boy appear round a corner or through a wall to challenge my ownership? Because it is already mine. It smells of mushrooms and dust, it is alive with the thoughts I am putting into it. Doorknobs are plasticine to my hand. I could climb into this cupboard and mingle with a dead man’s clothes if they didn’t smell so nasty-dead.

The house is large enough to run through. Everything shakes, like the earthquake that year on the island, only the drawers do not slithe out, lolling like wooden tongues. But a sudden stillness. I am standing in this great room protruding as far as the edge of a cliff. It has been waiting for me: not so still, it is tremulous. I paddle in pools of pale light in the gritty carpet. Are they traps? Is the room a trap? And outside, the suckers of each tree reaching out from the Royal Gardens which Great Aunt Cleone Tipaldol still refers to as the National Park.....

Soon there will be the garden alone. If only you could take the form of this red thread of a centipede or beetle that might have crawled out of the dregs of an inkwell to claw and scratch and burrow and hide amongst what is not just rottenness but change to change. To become part of this thick infested garden so swallowed up where Mamma suffers. You could no longer want either house or garden for your own. Only to burrow. Only this other enemy would come, and crush the beetle out of you. Crush you as a girl too, if you did not resist. As you get up on your uncomfortable heels, the garden which is yours, in your nostrils and under your nails, glooms and shimmers with whatever is to happen. The gate squeals — it is Gilbert Horsfall, socks around his ankles, the battered case with very little joggling round inside it, returning to dispute your ownership?

Ready yourself to kick him in the shins when the pins and needles have died like so many insects in what are still your legs.”
