60+ 70+ 35+ 15+ 90+

Invest in InfoSci-Journals and Take Advantage of IGI Global’s New Open Access Fee Waiver (Offset Model) Program

For any library that invests in IGI Global’s InfoSci-Journals database, IGI Global will match the library’s investment with a fund of equal value to go toward subsidizing the OA article processing charges (APCs) for their students, faculty, and staff at that institution when their work is submitted and accepted under OA into an IGI Global journal.**

Learn more about this OA off-set model in the article: “IGI Global Presents Sustainable Open Access Offset Model at the 2018 Charleston Conference.”

** The Open Access (OA) article processing charge will be waived after the student, faculty, or staff’s paper has been vetted and accepted into an IGI Global journal.

For More Information on IGI Global’s InfoSci-Journals visit: www.igi-global.com/infosci-journals
