- And More.

Provide an Additional Source of Open Access Funding For Your Institution Through Your InfoSci-Journals Investment

For any library that invests in IGI Global’s InfoSci-Journals database, IGI Global will match the library’s investment with a fund of equal value to go toward subsidizing the OA article processing charges (APCs) for their students, faculty, and staff at that institution when their work is submitted and accepted under OA into an IGI Global journal.*

*The fund will be offered on an annual basis and expire at the end of the subscription period. The fund would renew as the subscription is renewed for each year thereafter. The open access fees will be waived after the student, faculty, or staff’s paper has been vetted/accepted into an IGI Global journal as requested by the author(s) of the paper. Libraries in developing countries will have the match on their investment doubled.

But ordering online with Amazon can be complicated...

1. START
Enter order via your library’s ILS.

2. ENTER
order on Amazon website.

3. MULTIPLE
shipping boxes mean extra work & trash.

4. ENTER
receipt of books into your ILS.

5. REQUEST
credit card statement(s).

6. MATCH
multiple packing slips to line items on multiple credit card statements.

7. Your staff performs physical processing.

8. Your staff downloads & updates MARC record for in-house catalog.
