Foundations of Data Science
## ECE 295-PHIL 293-ILS 295

For more details, contact Prof. Kulkarni
milind@purdue.edu

- Ethics
- Analysis
- Management

- ▸ What is data?
- ▸ How do we collect and manage it?
- ▸ How should it be analyzed?
- ▸ How should it be used?

Cutting edge jobs and research are *data centric*: everybody will need to be able to collect, analyze, manage, and use data. But what does that mean? How do you know what questions to ask? How do you present that data to others? What are the right and wrong ways to navigate the world of data?

Spring 2019

- ▸ **Mon**   PHIL 293, Ethics of Data Science
- ▸ **Wed**   ILS 295, Intro to Data Management
- ▸ **Fri**   ECE 295, Intro to Data Science
