

Citation Management Software_Students

Dear Graduate Students,

Citation management software (or reference management software) lets you save citations online and automatically formats bibliographies. Steacie Science & Engineering Library staff would like to know which citation management software you use (if any) and what features are most important to you. Please take a minute to answer this short survey.

1. Which discipline/School are you most closely associated with?

- Biology
- Chemistry
- Computer Sciences
- Critical Disability Studies
- Lassonde School of Engineering
- Global Health
- Health Policy & Management
- Kinesiology & Health Sciences
- Mathematics & Statistics
- Natural Science
- Nursing
- Physics & Astronomy
- Psychology
- Science & Technology Studies

Other (please specify)

2. Which of the following software programs do you use to manage your references? (choose all that apply)

- EndNote
- BibTeX
- Mendeley
- Papers
- RefWorks
- Zotero
- I don't use any software for this purpose

4. What features are important to you when using citation management software? (please check all that apply)

- Free
- York University Libraries offers support for it
- Allows me to share references easily (create groups)
- Manages PDFs well
- I can download references to it from databases like Web of Science, Google Scholar, PubMed etc
- Works with mobile devices
- It has a web based component, not just desk-top based
- I've always used it
- It is used a lot in my discipline
- Compatible with Mac
- The data is stored on Canadian servers
- No opinion
- Other (please specify)

5. Do you have any other suggestions?
