

Laying the Foundations for Successful Scaling | **Infrastructure** Scale Up Conference | Purdue, IN | Sept 27 , 2018

Holger A. Kray | Head, Africa Agriculture Policy Unit | hkray@worldbank.org | [@krayberry](https://twitter.com/krayberry)

Benefits of Infrastructure: Complex but Comprehensive

‘Hard’ Infrastructure

- Transport
- Water/Irrigation
- Electricity
- Storage/Logistics
- Telecoms

‘Soft’ Infrastructure

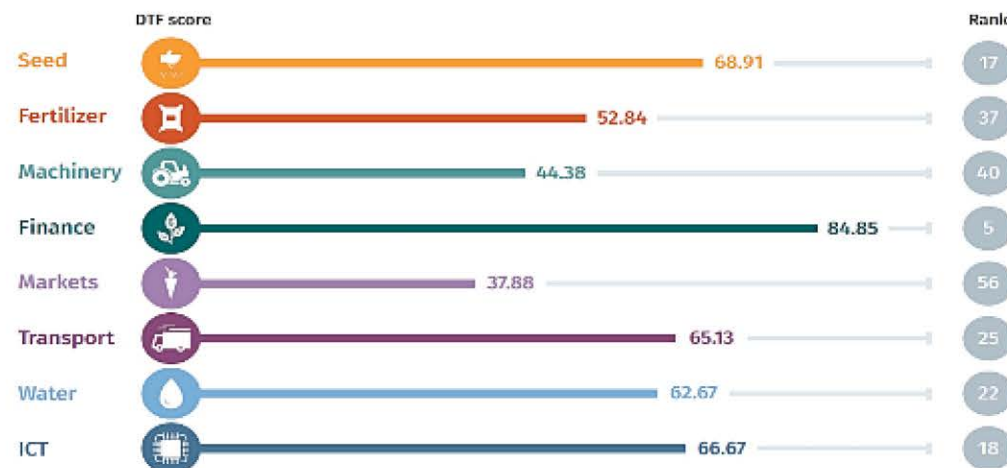

- Data
- Systems

Regulatory constraints to the provision of reliable infrastructure

Enabling the Business of Agriculture (EBA)

- Comparison of 8 thematic areas of regulations in 62 countries.
- Examines whether **global best practice regulations**, defined by industry experts, are in place and efficiency of their implementation.
- Detailed indicators (<http://eba.worldbank.org>) behind each score, point to very specific reform needs.

Elements of a 'Scale Up' Policy Brief

Demand Side:

- Complex but comprehensive benefits
- Interaction among elements
- Infrastructure development and poverty reduction
- Maximizing Finance for Infrastructure Development

Supply Side:

- Development Strategy and Infrastructure
- Public Resource Allocation
- Regional Considerations
- Organization of Construction and Maintenance
