MVH Distribution Changes

• A substantial change in the MVH Monthly Distribution happened with the passage of HEA 1001-2013. The August 2013 distribution was the first distribution to reflect the change.

• On the next few slides I will present the MVH Distribution calculation prior to the August 2013 distribution.

• Following those slides I will repeat the slides with a line through the items that will no longer be a part of the calculation and present the one new item to the distribution calculation.

• Lastly I will give you the results of these changes.

Other Local Highway Funding
State Distributions

- Local Road and Street (LRS)
  - IC 8-14-2
  - Accelerated Motor Vehicle Highway #1 (MVH#1)
    - IC 6-6-1.1-801.5 & IC 6-6-2.5-68
  - Accelerated Motor Vehicle Highway #2 (MVH#2)
    - IC 6-6-1.1-801.5 & IC 6-6-2.5-68

LRS Distribution

- Frequency - Monthly
- LRS distribution is a distribution of fuel taxes and vehicle fees
- There are no expenses deducted or adjustments to allocations
- Fuel taxes and vehicle fees are:
  - 25% of 14 cents of the gas tax after the first $25M collected
  - 25% of the special fuel gas tax after the first $25M collected
  - 1969 increase in vehicle registration and title fees
- Allocations of fuel taxes and vehicle fees
  - 55% INDOT
  - 45% Counties, Cities and Towns
LRS Distribution of Allocations

- INDOT allocation is transferred to INDOT state fund

- Distribution of 45% Counties, Cities and Towns allocation is a two step process

- First step determines the total county allocation

- Second step allocates the total county allocation between the county and the cities and towns within the county

LRS Distribution of 45% Counties, Cities and Towns Allocation

- In the first step of the two step distribution process the 45% allocation is allocated between all 92 counties on the basis of passenger car registrations

- In the second step of the two step distribution process the first step allocation is allocated between the county and the cities and towns within the county on the basis of road and street mileage and population
Step Two of the Two Step LRS Distribution Process

- The road mileage allocation percentage and the population allocation percentage used to allocate the step one amount in step two varies according to the total population of the county.

- The percentages for counties with a total population of 50,000 or less:
  - 80% allocated by road mileage
  - 20% allocated by population

- The percentages for counties with a total population greater than 50,000:
  - 40% allocated by road mileage
  - 60% allocated by population

MVH#1 & MVH#2 Distributions

- MVH#1 and MVH#2 Distributions are distributions of fuel taxes

- Fuel taxes:
  - First $25M of 14 cents of the gas tax
  - First $25M of special fuel tax

- Allocations:
  - 40% INDOT
  - 60% Counties, Cities and Towns
**MVH#1 & MVH#2 Distributions**

- One-half of the 60% Counties, Cities and Towns allocations is designated MVH#1

- MVH#1 is distributed to counties, cities and towns using the LRS Distribution Formula

- The other half of the 60% Counties, Cities and Towns allocations is designated MVH#2

- MVH#2 is distributed to counties, cities and towns using the MVH Distribution Formula
